The trans-Atlantic speed record between the ports of Liverpool and Saint John, was broken recently by the arrival at the latter port of the Canadian Pacific liner Duchess of York, after a crossing from Liverpool which took six days, 22 hours and 14 minutes. According to local shipping men this is the first time in the history of the port that a crossing has been made in under seven days.

Twelve thousand pounds of Quebec maple sugar and syrup were handled daily during the latter part of April by the Canadian Pacific Express Company to points overseas, the Prairie Provinces and Ottawa, constituting what is claimed to be a record movement of this dainty. Outside commercial uses, demand for this product arises on the part of individuals who make a practice of shipping it to relatives and friends in the Old Country and the west of Canada.

Close on six million dollars were spent on New Brunswick roads during 1929, being reconstruction of 221 miles of main trunk highways and 1138 miles of secondary roads. This is regarded as the most extensive programme of highway construction, improvement and maintenance ever undertaken in the Province.

Snapped in Hyde Park, London, England, recently, Hon. Barnaby Howard, little son of Lord Strathcona and descendant of the great Canadian who was one of the founders of the Canadian Pacific Railway, was photographed kissing his cousin, the small daughter of the Hon. Mrs. Arthur Howard. Both children are living links with the great past when one of the major events in the history of Canada was in the making.

Organized a few years ago by a group of farmers' wives with Mrs. Bertha Holmes, of Asquith, Sask., as president, the Saskatchewan Poultry Pool handles about 75 per cent. of the entire egg production of the province. Last year the Pool turned over 26,840,184 eggs, valued at \$540,000; 823,743 pounds of dressed poultry valued at \$184,000, and 39,561 pounds of live poultry at \$6,000, or a total turnover of \$730,000 for the year.

After 15 years of seed planting, the experimental work of the Canadian Government Department of Agriculture has developed sixteen varieties of apple trees suited to the climatic conditions of the prairie provinces. Of these varieties two have been graded "very good," and four "good."

A. Y. P. A. ENTERTAIN VISITING ASSOCIATIONS

A very enjoyable time was spent by a number of young people at the A. Y. P. A. meeting Wednesday evening, when visiting associations from the A. Y. P. A. of Richmond Hill and the United Church of Thornhill were present. The programme consisted of an amateur boxing bout with Alex. Henderson as referee. Scenes from MacBeth and Romeo and Juliet were splendidly acted and the radio performances were exceedingly amusing. Dancing followed, after which a social time was spent. The visitors appreciate very much the splendid program which must have taken considerable time to prepare.

DENNIS KING'S RISE TO FAME THRILLS FANS

Glamorous Youth Forsakes Legitimate Stage for Screen Romances

Dennis King, who for the past two or three years has been rated by critics as the greatest singing star of the Broadway musical comedy stage, will be seen and heard for the first time by movie audiences at the Capital Theatre when "The Vagabond King" comes there Tuesday, Wednesday and Thursday next.

"The Vagabond King" was the vehicle for Dennis King's greatest singing achievement. It had a sensation-ally long run of more than a full season's duration in New York and made an impressive tour in other cities afterward.

King's rise to fame was meteoric. As a lad he was fascinated by the stage. His first bit parts were with John Drinkwater's repertory theatre in Birmingham, England. He came to the United States in the English company of "Monsieur Beaucaire" after he was wounded in service in the British Expeditionary forces.

Later he played in Jane Cowl's New York company of "Romeo and Juliet," achieving great fame in the role of Mercutio.

His friends persuaded him to develop his singing voice, and this brought him an engagement in Rose Marie, which established him as a leader in romantic singing roles. Then came the sensational and glamorous "The Vagabond King."

Prince of Wales to Launch Empress of Britain

A royal compliment to Canada as much as to the Canadian Pacific, was the opinion of E. W. Beatty, chairman and president of the Canadian Pacific Railway and chairman of the Canadian Pacific Steamships, Ltd., when announcing that His Royal Highness the Prince of Wales had consented to act as sponsor of the new giant liner of the Canadian Pacific fleet, the "Empress of Britain."

"We are greatly gratified," said Mr. Beatty, to learn that His Royal Highness has promised to find time to go up to the Clyde to sponsor our new ship. The Prince of Wales is one of the busiest men in Europe, and I take it that he has been led to do so out of his love for this country and his keen interest in all things Canadian."

The "Empress of Britain" will be the largest ship built in Great Britain since 1914.

The ceremonial launching, at which the Prince of Wales will be the central figure, will take place at the Clyde-side yards of John Brown & Company, the builders, on June 11, which, incidentally will be the first anniversary of the opening of largest hotel in the British Empire, the Royal York, Toronto, by the Governor-General of Canada.

The "Empress of Britain", besides being the greatest liner entering a Canadian port, will be the most palatial and up-to-date vessel afloat and, with her speed, will make possible a transatlantic crossing of five days or less between Canada and Great Britain, and will greatly shorten the journey between Europe and Canada and the Middle and Western States. The mammoth liner will be in service next summer, making regular voyages between Southampton, Cherbourg and Quebec.
