## Sunshine is good--washing is better

Airing pillows and giving them a good sun bath is splendid, but soft water and pure soap, as used in this laundry, followed by a thorough drying and fluffing, give you positive assurance of freshness and cleanliness. The cost is but one dollar per pair. We also make a specialty of blankets, motor rugs, rag mats, bathrobes and heavier articles so hard to handle in the home laundry. We have five different kinds of "family wash" services from which you can choose all moderately priced. Phone to-day, or stop any of our courteous drivers for prices and particulars.

We Call In Richmond Hill District  
TUESDAYS and FRIDAYS

If you will have laundry ready when driver calls, you will assist us in giving good service. If you only have driver call when phoned for. Call up as early as convenient to insure prompt attention. Phone Orders for Our Driver, Parcels may be left at Liberal Office, Telephone 5, Richmond Hill

## NEWS AND INFORMATION FOR THE BUSY FARMER

Clovers, which make up the most valuable part of our hay crops, require sweet soil. The Reactosol, prepared by the O.A.C., a simple and accurate test, quickly tells whether or not the soil requires sweetening. A kit containing enough material to test about 100 samples can be obtained directly from the college or from your county agricultural representative.

In an attempt to meet the demand of sugar beet growers in the southwest counties for information on the kind and quality of commercial fertilizer to increase the yield and improve the quality of sugar beets, the O.A.C. Department of Chemistry is conducting a series of tests in co-operation with the agricultural representatives, J. A. Garner and S. B. Strothers, and representative growers of Kent and Essex Counties.

### Alsike and Clover Good

This year alsike and sweet clover are very moderate in price and both will produce an abundance of late pasture or may cut as hay. The alsike can be mixed with timothy and it, like the sweet clover, can be sown any time during May or June. Alfalfa also will supply a lot of feed if sown alone any time during these two months. Furthermore, any of the crops mentioned here can be left over the winter and they will give a good crop the next season.

### Heavy Winter-Killing

Of the 670,000 acres of winter wheat sown in Ontario last fall, only 509,000 acres will be harvested, according to an official estimate. The difference of 161,000 acres represents the amount winter-killed. The percentage is 24, as compared with 5 per cent. in 1929 and 9 per cent. the average for the ten years 1920-1929. Ontario also lost 16 per cent. of its hay and clover crop by winter-killing, as compared with 5 per cent. last year.

### Tobacco Acreage Grows

Approximately 15,000 acres of flue-cured tobacco will be under cultivation in Norfolk County this year, according to an official computation by J. K. Perrett, departmental field man. This compares with 10,000 acres in 1929 and 5,000 acres in 1928. The warm weather in early May brought the plants on rapidly and planting started during the middle of the month, continuing during the past two weeks. The Imperial Tobacco Company is completing the erection of a new half-million dollar drying and grading plant at Delhi, the centre of the district.

### Turkeys Found Profitable

Turkey breeding is not the difficult undertaking that is generally supposed when the breeding stock and poults are properly handled. Essentials to success in turkey breeding are: clean soil, mature stock for breeding, free range, and above all, the keeping of the turkey flock away from other barnyard fowls.

### Trap the Borer

The suggestion has been advanced that a trap crop of corn consisting of

about half dozen rows of early sown rapid growing corn, if put in as early as the ground is fit, will in most years lessen the amount of injury done the main crop by corn borers, if the main crop is sown a few days later than the ideal date. The trap crop should be cut low about the end of the first week in August, when all borer eggs have been laid and should be removed and fed to live stock.

### Chicken Stealing Unprofitable

This business of robbing hen roosts is becoming more and more precarious. The Provincial Police are making every effort to apprehend those who steal chickens, and to punish them with a penalty that the crime deserves. General Williams has instructed his men to make a strong effort to check this branch of crime and the results speak for themselves. Imprisonment has been meted out to 92; fines to 24; suspended sentence, 12; dismissed 10; withdrawn, 3. The penalty in one case for theft of chickens was two years in Kingston Penitentiary.

### June Meetings at O. A. C.

The month of June is well known as a busy one at the Ontario Agricultural College and this year, judging by the meetings already announced, it is going to be even busier than ever. The tentative list is as follows:

Tuesday, June 10—Dairy Cattle Breeders' Field Day.

Tuesday and Wednesday, June 10 and 11—Poultry Breeders' Meetings.

Wednesday and Thursday, June 11 and 12—Yorkshire Breeders' Field Day.

Saturday, June 14—Wellington County Junior Farmers' Judging Competition.

And then comes "Farmers' Week" with the following days allotted to the various counties:

Monday, June 16—Counties of Lambton, Wentworth, Lincoln, Welland, Norfolk, Kent, Essex, Elgin and Haldimand.

Tuesday, June 17th—Halton, Waterloo, Dufferin, Perth, Huron, Grey and Bruce.

Wednesday, June 18th—Peel, Simcoe, York, Ontario, Durham, Northumberland, Hastings, and Eastern Counties.

Thursday, June 19th—Brant, Oxford, Wellington, Middlesex, Muskoka, Victoria and Peterboro.

## HEALTH SERVICE OF THE CANADIAN MEDICAL ASSOCIATION

### BRIGHT'S DISEASE

Bright's Disease takes its name from Richard Bright, an English physician, who, in 1827, published his observations on diseases of the kidney. Bright's disease, or nephritis, is an inflammation of the kidney.

The human body is provided with two kidneys. Their function is the removal of waste material, the product of the working body brought to the kidneys in the blood. They are indispensable organs; the life of the body cannot continue if they cease to function.

The kidneys may be damaged by being called up to remove an excessive amount of waste, when they simply break down under the overstrain. They may be damaged by poisons which are produced in the body by germs and which are carried to the kidneys in the blood stream.

It should be borne in mind that, during childhood, when scarlet fever, tonsillitis or any other infection occurs, whether severe or mild, germ poisons are produced. The proper care in such cases is necessary in order to protect the kidneys from harm.

The focal infection in tonsils, teeth, sinuses, or other parts, which makes for a chronic poisoning of the body, frequently leads to nephritis. Faulty habits of life, which strain the body, may break down the kidney function.

Nephritis exists in varying degrees from a very slight chronic condition to a severe acute stage. It is often discovered by accident. The individual, not suffering in any way, considering himself perfectly well, comes up for life insurance examination, and,

## Prize Winners At Claireville Show

The annual Spring Fair held at Claireville in the midst of a prosperous agricultural community was held on Wednesday, May 21st and was the scene of a very creditable live stock display. True it was not as large as in the bygone days recalled by many of the old timers who have been numbered among the annual visitors for half a century, but in this modern day of autos and tractors the fair was evidence that there is still some good stock in the district. Some fine horses especially were entered and there was also a fair showing of dairy and beef cattle. The Society this year for the first time held the show on the recently acquired park instead of on the four corners as in former years.

The prize winners were:—

General purpose colt or filly, 1st, John Erwin, General filly or colt rising 2 years, Edgar Morrison, N. P. Laidlaw, Alf Bagg. General Purpose horse rising 3 years, Jack Pollard, Jack Wilson, N. P. Laidlaw. Carriage, W. Dale, Alf Bagg, A. D. Agar. Road Colt of 1929, D. Nattress.

Goats exhibited by school children, won prizes for Arthur Dalziel, Margaret Dalziel, and Russel Erwin. Percheron sweepstakes, R. Wilson. Carriage sweepstakes, W. Dale. Roadster sweepstakes, W. Dale. Draft stallion, imported Webb Reid; 2nd, A. Hewson and Sons; 3rd, F. J. Suhr.

Brood mare, draft, 1st, A. Hewson and son; 2nd, Alf Bagg. Draft colt, 1929, A. Hewson, A. Bagg, R. J. Lansdell. Draft filly rising two years, John Kellam. Draft gelding rising three years, A. Hewson. Draft mare, 1st and 2nd, A. Hewson. Agricultural brood mare, John Kellam. Agricultural colt, A. Hewson, Alf Bagg, J. Kellam. Agricultural filly rising 2 years, J. Kellam. Third, A. Hewson. Agricultural gelding, 1st and 2nd, A. Hewson, 3rd, R. Wilson. Draft team in harness, A. Hewson. Agricultural team in harness, A. Hewson, John Erwin. General purpose team in harness, N. L. Laidlaw. Sweepstakes draft, A. Hewson. Sweepstakes agricultural, A. Hewson.

For boys under 14, handling horse on line, awards were: Gilbert Agar, Walter Dalziel. Shorthorn bull, Brompton Farms, Ltd., Kleinburg. Holstein bull, 1st, Isaac Kellam, 2nd, Elderbridge Kellam, 3rd, Robert Bowman. Best dairy cow, Isaac Kellam, Elderbridge Kellam, R. Wilson. Junior Farmers judging competition, boys 14 and under, Walter Dalziel, George Erwin. Boys over 14, N. Kellam, A. Rutherford, Emerson McKenney, James Pinkney, N. Keffer, James McKane, Neil Little, Bill Hunter, Roy Lindsay, Dick Little, Jack McMillan.

Winners in horseshoe were, first-class pitching, David Craig, J. Gould, W. Orr, and Delos Hamilton, second-class, Alvin Robb, Fred Wright, Geo. Wiley, W. Hunter.

Salvation Meeting ..... 7 p. m.

By the new, up-to-date police signal system which Toronto officially took over the other day, with considerable ceremony, the Police Department is enabled to transmit a description of a stolen car, hold-up man or bandit to every man on his beat; this new system is also available for service every moment of the night or day for the conduct of ordinary routine business and communication of orders. The system is spread over the entire 32.8 square miles of city area, and is divided into twelve police divisions. The pictures: upper left shows former Police Chief Col. Grasset receiving the golden key from W. R. Ostrom, District Manager of the Northern Electric Company who handed the system over to the Police Department; right, typical installation at street corner showing officer turning in a call. Lower left, the main switchboard and recording instruments; right, Col. Grasset putting in the first call, Mayor Wemp and Col. Draper, Chief of Police are seen at his left.
