### Edgeley

The June meeting of the Edgeley Women's Institute was held at the home of Mrs. J. Hoover, Monday afternoon, June 23rd.

The speaker for the afternoon was Mrs. Laura Rose Stephen, of Ottawa, one of the first ladies to take up Institute work over 35 years ago. She was appointed last week to go to Brussels next month to represent Canada at the World's Institute Convention.

After the meeting closed she gave an apron parade on the lawn, showing aprons for every occasion, how to make and trim them and leaving paper patterns to be distributed among the members. Number present 47. The meeting closed with God Save the King. Lunch was served and a pleasant social time enjoyed.

### Victoria Square

**W. M. S. HOLD JUNE MEETING.**  
Through the kindness of Mrs. L. G. Stoutenburgh the members of the W. M. S. met at her home for the June meeting and to pack a bale. Some were absent on account of sickness but those present did their part successfully and a good meeting resulted. The bale was sent to Toronto. It consisted of quilts, dresses, coats, hospital robes, and clothing for children. Plans were made and a committee appointed to arrange for a program and an ice cream social to be held Tuesday evening, July 8 at the Church. After the meeting the hostesses served a dainty luncheon which everyone heartily enjoyed.

## FARM PRODUCTS

No Government in history has so met the needs of the agriculturalists as the Mackenzie King Government. Duties on the necessities of life have been lowered or abolished under British Preference. Duties on implements have been reduced so that the tools of the farmer might be made cheaper. The Dunning Budget, now that we are on an import basis, with many farm commodities, provide a tariff protection for the agriculturalists on an increased number of farm products.

Conservative candidates are endeavoring to becloud the state of agriculture by discussing the above subject. Ask them to explain the following list of live stock prices:

## Live Stock Prices Before and After The King Government Took Office.

	1921	1929		1921	1929
Steers, Heavy Finished	\$7.73	\$10.17	Stockers 450-800 lb. good	\$4.87	\$8.09
Heifers, Good	7.66	9.90	Feeders, -800-1000 lb. fair	3.90	7.59
Cows, Good	5.86	7.86	Lambs, Good	9.59	12.68
Cows, Common	4.52	6.43	Lambs, Common	7.43	10.36
Canners and Cutters	2.49	3.94	Hogs	9.00	12.50
Calves, Veal	10.24	15.05			

Conservative canvassers say they want to help the farmer.

- Do they propose to raise the duty on agricultural implements which the Liberals and Progressives lowered?
- Do they propose to raise the duties on wearing apparel and necessities of life made cheaper by lower duties from Great Britain?
- Do they want to have live stock prices go back to where they were when the Government came into power?

BUTTER	1921	1929
Value of Dairy Products	\$205 Million	297 Million

**92 MILLION MORE for the CANADIAN FARMER IN 1929 THAN in 1921**  
Butter Production ..... 228 Million lbs      258 Million lbs  
Value ..... \$ 83 Million      \$ 93 Million

**10 MILLION MORE for the CANADIAN FARMER IN 1929 THAN in 1921**  
Production of Butter .. 228 Million lbs      258 Million lbs.  
Consumption of Butter 223 Million lbs      293 Million lbs  
LEFT FOR EXPORT 5 Million lbs.      SHORTAGE 35 Million lbs

The total value of the production of all dairy products has increased by over 50 per cent., while the value of butter production has increased by only 12½ per cent. What of the balance? Canada exported to United States enough cream to make 30,000,000 lbs. of butter, at more profitable prices than could be obtained for butter. CAN THE CANADIAN FARMER BE CRITICIZED FOR SELLING HIS MILK PRODUCT IN THE BEST MARKET AVAILABLE?

The consumption of fresh milk in Canada rose from less than \$75,000,000 to \$152,000,000 during the period. CAN THE CANADIAN FARMER BE CRITICIZED FOR SELLING HIS PRODUCT IN THIS WAY IF IT GAVE HIM BETTER RETURNS?

The consumption of ice cream in Canada rose from \$7,600,000 to \$11,600,000 and the value of miscellaneous dairy products, such as condensed milk, powered milk, etc., rose from \$16,500,000 to \$20,500,000.

Fully realizing the value to the farmer of the tremendous home market created through the prosperity of the last nine years, the Government decided at the request of the Dairy Council and of the Milk Producers of Canada, to increase the tariff on butter in the last Budget to 7 cents a pound general and 4 cents a pound British Preferential and also to give notice to the New Zealand Government that, while we appreciated the value of New Zealand trade, we wished to withdraw the privilege of the Australian Treaty, which had been extended to New Zealand and asked that a new treaty be discussed at the Economic Conference being held in September next.

It is being said that the Australian and New Zealand Treaties are for the benefit of industry and at the expense of agriculture. Such is not a fair or truthful statement. Canada exported to the Sister Dominions \$40,000,000 worth of commodities, a value of export business of manufactured goods which represented \$20,000,000 spent in Canada in labour. On a basis of \$1,000 per worker, this represented 20,000 Canadian workers and on a basis of 1 to 4 gainfully employed, it represented with dependents, a community of 80,000 people. The consumption of farm products by a community of 20,000 families at \$300 per family, represents a market for the Canadian food producer of 6 million dollars.

When the New Zealand Treaty came into effect, Canada was not an importer of butter, but due to reasons stated above, Canada became last year a substantial importer and protection became of value. The Dunning Budget provides the protection needed.
