FACTS THE PEOPLE SHOULD KNOW

The policy of the Liberal Party on immigration is to leave the matter entirely in hands of the provinces.

The provinces must say the number and class of emigrants they require and the federal government assist financially.

The immigration policy of the Conservative Party:

On page 21 of Hansard, Mr. Bennett leader of the Conservative Party said: "We must have settlers; we must have facilities to take care of an additional population of 15 to 17 million people."

And General McCrae, speaking for the Conservative Party, on page 1164 and 1165 of Hansard, said, "We should adopt a plan resembling the Irish Land Act." He said, "I estimate the government would be called upon to finance about \$30,000,000 a year for 10 years, a total of \$300,000,000 to bring immigrants to Canada.

Had it not have been for the wisdom and foresight of the Liberal Government, Canada would have, at the present time, 150,000 or 200,000 more unemployed.

Here and There

Prince Iyesato Tokugawa, president of the Japanese House of Peers, and his son, Hon. Iyegaso Tokugawa, Japanese Minister to Canada, met recently on board Canadian Pacific liner Empress of Russia. The Prince was on his way to London to attend the inter-Parliamentary Conference and took the opportunity to see his son who had come to Victoria from Ottawa to meet him.

Leaping into shark-infested waters in the China Sea halfway between Hong Kong and Shanghai, Carpenter Tom Ellworthy, of the S.S. Empress of Russia, saved the life of Mrs. Makareff, passenger on the ship who had jumped overboard in a fit of dementia. The woman strongly resisted efforts to rescue her and 4th Engineer Dean went to Ellworthy's assistance, the two men succeeding in bringing her back aboard ship after a long and exhausting struggle.

Beating the world's record in passenger traffic operation, Western Canada comes into the limelight this year with the 1252 mile continuous run from Fort William to Calgary of the Canadian Pacific locomotive number 2808. A number of locomotives of this class are now being built by the railway, equipped with roller-bearing boxes which will still further facilitate engine operations on long runs.

The season's first climb of Mt. Temple, 11,500-foot peak in the Rockies, was made last week by Dr. Thorington of Philadelphia, wellknown writer and Alpinist, and W. Kerr, of Vancouver. Edward Feuz, doyen of Swiss guides in the Rockies, was in charge of the climb which started out from Chateau Lake Louise at three in the morning and reached the summit at ten.

With the opening of the New Pines Hotel at Digby and of the Algonquin Hotel at St. Andrews-by-the-Sea at the end of June, the tourist season in the Maritime Provinces is now in full swing. Reservations at both hotels are very heavy, forecasting a prosperous season.

Difficulties met by Canadian and United States motorists when taking their cars to Europe have been overcome by facilities afforded by the Canadian Pacific Railway, under which the owner can ship his car as baggage between Canada and European points in either direction. The Company arranges for the necessary customs and registration documents for every country to be visited, driving licenses, license plates, and membership in the Royal Automobile Club. The car is unloaded within an hour of the ship's arrival and is furnished with oil and a small supply of gasoline and made ready for the road. There is no red-tape and no bond or other financial guarantee required.

Believed to be the largest salmon ever taken by fly on the Medway River, Cape Breton, Archie Joudry, Baugscoote Club guide, took a fish recently that weighed 32 lbs, was 42 inches long and with a girth of 21 inches. The fish has been photographed for reproduction in the Saturday Evening Post.

The railway grade crossing problem is not a problem of the railway's making but essentially a "social problem" and responsibility for its solution rests upon society as a whole, in the opinion of W. P. Borland, Chief of the Bureau of Safety, United States Interstate Commerce Commission.
