Assistant Caretaker Advertisement Attracts 126 Applications

BOARD OF HEALTH WILL CO-OPERATE WITH VAUGHAN IN ENGAGEMENT OF PUBLIC HEALTH NURSE

One hundred and twenty-six applications for the position of assistant caretaker for the village were read at the regular meeting of the council held on Wednesday night. Applications were received from Richmond Hill, Haileybury, Midland, Erindale, Wye, Coppercliff, Hamilton, Goodwood, Peterboro, Newmarket, Niagara Falls, St. Thomas, Lindsay, Birchcliffe, Guelph, Deseronto, Milton, Ezard, Willowdale, Maple, Woodstock, Timmins, Gravenhurst and several scores from Toronto. Applications ranged all the way from high class stationery engineers and physical instructors to ordinary laborers and salaries asked were all the way from \$30.00 per month to \$160. per month. The successful applicant was John L. Williams, Roseview Ave., Richmond Hill, who will commence his new duties right away. The duties of the position include those of generally assisting with the village work on the streets, sidewalks, waterworks and electrical departments.

A communication was received from the Board of Health advising that the Board had gone on record as favoring the engagement of a Public Health nurse for Richmond Hill in co-operation with the Township of Vaughan. Richmond Hill to pay not more than twenty-five per cent of the cost. Richmond Hill's share would not be over \$375.00. Vaughan township has been advised of the willingness of the Board of Health to co-operate in the engagement of a nurse.

The Board of Health recommended that the council take action to clean up the nuisance of the open ditch on Roseview Avenue which had been the subject of complaint. The council instructed the village foreman to have drain which empties in Church Street ditch and was said to cause the trouble cut off first thing on Thursday morning.

The Board of Health recommended that the town by-law prohibiting the sale of any milk except pasteurized milk be amended to allow the sale of certified milk. At present the by-law provides only for the sale of milk which has been pasteurized. It was moved that any action be postponed until there was a full council present, Councillor Sims being absent.

Members commented favorably on the recent numbering of the houses of the village which has been accomplished at a cost of \$34. for numbers and \$24.00 for labor.

Councillor Davis wanted two culverts built on the new street across the Ajax sub-division connecting Wright Street and Richmond Street. Councillor Middleton thought if the council looked after the present streets without taking on any new ones it would be doing pretty well.

Councillor Davis thought the west side was entitled to a street parallel to Yonge Street the same as Church Street on the east. It would be a great convenience to have that street opened up he said. A motion that two culverts be built failed to get a seconder. "If it was something for Yonge Street or Church Street you'd jump at it" said Councillor Davis "but since it's over in my side we can't do it."

"I think all streets get their fair proportion" said Reeve Lunau.

The question of weed cutting around town was the subject of some discussion. The expense has been considerable but in cases where cutting has been done on private property the cost will be charged against the property owners.

MAPLE

Miss Iris Clark, of Plainfield, New Jersey, formerly of this place, is visiting at the home of Mr. and Mrs. W. Burns and calling on old friends.

VAUGHAN TOWNSHIP TAX RATE UNCHANGED

INCREASED RATE FOR COUNTY PURPOSES — BAD CORNER ON MAPLE SIDEROAD WILL BE STRAIGHTENED

Vaughan township council met at Vellore on Tuesday afternoon. Reeve James Robson occupied the chair and all the members were present. The by-law was passed fixing the various tax rates for the year. The township rate was fixed at 8.2 mills the same as last year but the County rate which in recent years has continually risen is still on the upgrade and this year a rate of 13.7 is necessary in Vaughan to meet the County requirements. The amount required for County purposes is \$56,086.61 which includes the cost of secondary education. Last year the County rate on the Township was 12.2 mills. The general school rate will be the same as previously and the rates for the various school sections are in keeping with the requisition of the respective school boards.

Road work throughout the township is progressing favorably and a large amount of excellent work has been accomplished this year. On Tuesday afternoon the members of the council visited the scene of operations and viewed the new township machinery in action. The new grader and caterpillar tractor are giving excellent satisfaction and are proving economical in operation as well as a great assistance in getting the work done in record time. The expenditure on roads for the various months so far has been January \$1,484.48; February \$2318.08; March \$597.03; April \$392.42; May \$1127.37; June \$2,322.99; July \$11,931.39; a total to the end of July of \$20,173.76.

The township has now under way a large undertaking at Patterson on the Maple sideroad where a new culvert is being installed. The roadway will have to be widened and the hill will be cut down to provide fill for the widening. This is a large job but will not all be completed this year.

The township has received from John D. Patterson the deed for a portion of land at the south west corner of the second concession and the Maple sideroad. Mr. Patterson has kindly given this land to the township free of charge to enable the municipality to proceed with the straightening of the road at this point and thus eliminate a very dangerous corner.

Routine business was transacted including the passing of general and road accounts after which the council visited various parts of the township where work is in progress.

Richvale

On Sunday afternoon, August 17th, at 3 o'clock an open session of the Sunday School will be held and six sterling silver medals will be presented. The pastor will give the address.

Richvale Pupils successful in the recent entrance examinations: T. Adams, G. Huestis, J. Lambert, T. MacPherson, K. Rowe (H), G. Tarpley, M. Evans, F. Karas, L. Macklem, P. Philpott, G. Sharpless, J. Webb.

Culvert Installed By New Methods

The township of Vaughan is at present engaged in installing a six foot galvanized culvert at Patterson on the Maple sideroad and the work is being done by the jacking and tunneling process instead of the usual excavation. The large pipe which comes in twenty foot lengths is placed in position against the embankment and by jacking is gradually pushed forward as the work of removing the earth progresses and the dirt removed through the pipe. In this way the culvert is put in place without any inconvenience to traffic and the road always open. There is moreover a substantial saving in the cost.

The culvert which is being installed is the well known Armco make, a product of the Canada Ingot Company of Guelph. It is ten gage and costs \$17.99 per foot less one per cent. The culvert when completed will be 86 feet in length.

This is the first time that this method of installing a culvert has been practiced in this district and considerable interest is shown in the work by municipal men from neighbouring municipalities and by engineers of companies interested in this type of construction work. A delegation from Peel County visited the scene of activities on Wednesday, engineers from the C.P.R. have inspected the work, and others interested in the new method have come from as far as Ottawa. The work is progressing very favorably and is under the direction of Road Superintendent W. O. McDonald.

EXTRA POLICE FOR HIGHWAY

Two motorcycle police assisted Traffic Officers Reid and Storey on Yonge Street for the holiday and checked closely the heavy traffic. "Cut In" artists were watched closely and several face charges before His Worship Magistrate Duncan on this count.

STRANGERS SHOW GRATITUDE IN STRANGE MANNER

Councillor Wes Middleton, of Richmond Hill, had an experience last Monday which should be a warning to all motorists to beware of strangers who seek "lifts" on the highways. Mr. Middleton was in Unionville and on leaving for Toronto via the Kennedy road he was hailed by two men who asked a ride to the city. One rode in the front seat with Mr. Middleton and the other rode alone in the back seat. All went well and a pleasant ride was enjoyed by the wayfarers and the driver. The two who otherwise would have had a long tramp into Toronto were landed safely at their destination. A short time after however Mr. Middleton had occasion to look for his purse in the pocket of his coat which had been lying on the back seat of the car. He found the purse but also found that \$15. in bills which should have been in it was missing. The strangers in departing and in expressing heartfelt thanks to Councillor Middleton for the ride neglected to leave their cards—an oversight which Councillor Middleton will gladly pardon if he has the pleasure of meeting the two gentlemen again.

NEWMARKET STILL TALKING RADIALS

Reeve F. A. Lundy reported Tuesday night to the town council that efforts to have the Toronto board of control reduce its price of \$150,000 on the 12.43 miles of radial line between Richmond Hill and Newmarket had failed, but that the board had agreed to the expenditure of \$10,000 in repairs to the line. Because only five members of the council were present a special meeting was arranged for Thursday at 2 p. m. to discuss the matter in detail.
