Smith was standing before the judge for having injured his wife.
Judge: "You maintain that you threw your wife out of the second story through forgetfulness?"
Smith: "Yes, we used to live on the ground floor and I clean forgot that we had moved."—Lustige Kolner Zeitung (Cologne.)

It expanded with the heat
Our list of customers was considerably augmented during the recent hot spell, which would indicate that women are more and more learning to appreciate the practical, common-sense value of this modern laundry in solving the family wash problem. Most of these new customers will become regular users of our service if they follow the usual practice. Trial orders generally become regular calls. We have five different kinds of "family wash" service—all done in soft water without marking, starching or rubbing of any kind. As a matter of fact, less wear and tear than any home process and considerably cheaper. Phone and allow us to explain—or stop any one of our courteous drivers. Ask about our special summer cottage service.

WE CALL IN RICHMOND DISTRICT TUESDAY AND FRIDAYS
If you will have laundry ready when driver calls, you will assist us in giving good service. If you only have driver call when phoned for. Call up as early as convenient to insure prompt attention.

ASKS WHY LICENSE ISSUED FOR SALE OF UNPASTEURIZED MILK

Mr. Editor,
Sir—
This is just to ask for a little information. Who was it gave our clerk permission or ordered him to issue a license to a certain party allowing him to sell milk, which is not pasteurized, in the municipality when our by-law distinctly calls for nothing but pasteurized milk? A number of private owners of cows who were told, a few years ago, that they could not sell milk in the village unless it was pasteurized could not be blamed for thinking at the present time that there is one law for the rich and one for the poor. Our point is this that no matter whether an amendment to the by-law has been asked for by the health board or not it is not passed yet, and therefore the license should not have been issued until same by-law was amended **ONE INTERESTED.**

SUGGESTS PARK IMPROVEMENT

August 12th, 1930
Editor Liberal,
Sir—
May I be permitted to draw attention to the need in Richmond Hill of an adequate and attractive park. I have very unhappy recollections of the feeling I experienced some weeks ago when we had as guests representatives from other municipalities. Although on that occasion we were jubilant that the cars were to run again I feel sure that residents of Richmond Hill could not help but feel a little ashamed of the park where we were called upon to entertain our visitors.
Now Mr. Editor I wonder why such a splendid paper as yours does not actively advocate something along the line of park improvement. I know of no greater service you could render to the community right now than to give Richmond Hill a park. True the one corner where I understand the Horticultural Society has been active is very beautiful, but what has been done in that corner should just be an inspiration, just an example of what could be done by a real effort on the part of the people.
Why not a public meeting to discuss the subject, perhaps a municipal bee, a tag day or whatever is thought best, but at all events action. Let's be moving along. Let's have a creditable park in Richmond Hill. Let's have some ideas. Thanking you, Mr. Editor for the space.
PARK LOVER

NOTE:—In our editorial columns we have many times advocated a policy of park improvement. Our suggestion was the appointment of a Parks Commission of three or five members with a fixed annual grant from the council. In addition to the annual grant the commission would be free to raise money through other channels and we feel sure would receive the whole hearted support of many others like Park Lover who are anxious to see a park in Richmond Hill. — (Ed.)

CONGRATULATES THE COUNCIL ON NUMBERING

August 12th, 1930
Editor Liberal,
Sir—
When the council first talked of numbering the houses I remember seeing some criticism in the letters from the people. I also recall a rather heated discussion at the council meeting and some opposition. I was glad to note in your last issue that the expense of this work was only \$58. The numbers are a real convenience and the cost was small. I am glad that we can say that the 1930 council has accomplished at least something.

Show Them A Mountain And They'll Do The Rest

Edward Feuz (left) holds that "the climbing urge" is a heritage of all white races, be the objective high furniture for an infant; a tree-top for a schoolboy; or the pinnacle of success or the summit of a mountain for an adult. He ought to know, for he makes his living as a mountain guide in the heart of the famous Canadian Rocky Mountains, with headquarters at the Canadian Pacific Railway's hotels at Banff and Lake Louise, and has more "first ascents" to his credit than any other man in the country. His brother Ernest (right) is also an experienced guide and mountaineer. Both are natives of Interlaken, Switzerland, and have winter-homes in the little Swiss guide village of Edelweiss in the Columbia Valley. They are shown scanning the peaks adjoining the Banff Springs Hotel.
