## Dedication of Memorial For Late Cristina Campbell At St. Mary's Anglican Church

### DEVOTED SERVICES OF ORGANIST FITTINGLY REMEMBERED

On Sunday morning, September 28, at 11 o'clock, the Right Reverend Heber Hamilton, D.D., Bishop of Mid-Japan, unveiled and dedicated a bronze tablet, in St. Mary's Church, Richmond Hill, to the memory of his aunt, Miss Christina Campbell.

At the last vestry meeting in January 1930, it was proposed that a memorial should be erected to the memory of Miss Campbell who had given her services for about twenty-five years as organist, and had given musical entertainments to help to buy the pipe organ which is still in the church. It seemed to be a hopeless task as very few were left who had known Miss Campbell; but, by a great deal of correspondence, it has been accomplished and the beautiful tablet designed and manufactured by the Pritchard-Andrews Co., of Ottawa, is a gift of love from the relatives, and former pupils of Miss Campbell's ladies' school, and from former music pupils and other old friends.

One difficulty was to find out just when Miss Campbell began to play; but, recently her nieces (Mrs. John Dick and Miss Lafferty) have sent extracts from her diary, showing that she began to play the Melodeon in Doctor Duncomb's church in 1863 and had been assistant before that date. Mrs. John Sanderson and Mrs. Wm. Harrison, two of our highly respected citizens, attended that church before they were married. The old church was built entirely by an old army doctor and stood on Yonge Street, almost opposite St. Mary's but a little farther south. It was destroyed by fire, and soon after, St. Mary's was built. Miss Campbell continued as organist until she removed to Collingwood in 1885. In November 1925 she passed away at the age of 87 years.

The Rev. L. C. Secrett in mentioning the tablet said "It is a good tablet and a worthy memorial to Miss Campbell who unselfishly gave her services to the church for twenty-five years."

He read extracts from some of the letters received by the Secretary showing the high respect and affection in which Miss Campbell was held by her former friends and pupils.

Bishop Hamilton took for his text Philippians 4:4, "Rejoice in the Lord always; and again I say Rejoice." He spoke of the Christian joy that Miss Campbell got out of her work and of those former pupils, perhaps few in number now, who were handing on to others the faith and righteousness they had always found in her. "This organ," said Bishop Hamilton, "reminds us to-day of the silver melody of her voice, of her service as organist of this church, and the Christian joy she received from her work."

On behalf of the congregation, the Rev. L. C. Secrett said that it was only right and proper that he should express not only his personal thanks, but that of the congregation, to the committee who had worked so hard to bring about this memorial—to Mrs. Wm. Pugsley, Miss Fannie Palmer, and Miss Frances Brown who was the mover of the resolution. It was she who had created an interest in it, collected the funds and carried on the correspondence. As a result of her efforts and the help of the committee a very fine tablet was unveiled to the memory of a great Christian woman who had never been forgotten by anyone who knew her.

At the close of the service a lunch was provided for the guests as many of them had come from a distance.

The following is a list of the old friends and pupils who were so pleased to assist in the erection of this memorial.

### CAN YOU HELP?

Social workers and all interested in the welfare of the more unfortunate ones in all communities and especially in the larger centres recognize in the coming winter one which will make very severe demands in the way of relief. Fred T. Graham, well known throughout this district and now of the St. Clair Y.M.C.A. in conversation with The Liberal this week said that the requests for assistance which are already coming in establish a record so far as social service workers in Toronto are concerned and if they are any criterion of what may be expected when winter actually sets in, it will be very very hard to meet the situation.

A practical suggestion which comes from a downtown organization through Mr. Graham is that those in this district who have orchards and apples which otherwise might be allowed to go to waste could render real assistance by giving this fruit to help relieve the want of those who otherwise might not enjoy an apple this winter. An organization has been perfected which agrees to come into the district and gather up all the apples thus offered and give them away to poor and needy families in Toronto, especially to families where there are children. If you have some apples which you can spare—it need not be many—just call The Liberal, Telephone 9 Richmond Hill or communicate with Mr. Graham at the St. Claire Y.M.C.A. If there are a groupe of offers in this district a truck load of volunteer pickers will come to pick up the apples.

### ACTIONS SPEAK LOUDER THAN WORDS

Dr. C. J. Hastings for many years M.H.O. for Toronto, personally supervised, recommended, and approved, the production and sale of millions of gallons of Certified Milk in the City of Toronto.

Certified Milk is sold in every City of importance in Canada and the United States, and approved by the Medical Health Officers of all these cities.

The following is an article on—  
**What Is Certified Milk?**  
As Defined by  
**DR. HENRY L. COIT**  
Founder of the Medical Milk Commission

**CERTIFIED MILK** is a product of dairies operated under the direction of a Medical Milk Commission, which body is appointed for voluntary service by a medical society. The milk is designed to fulfill standards of quality, purity and safety to insure its adaptability for clinical purposes and the feeding of infants.

The certificate of the Commission constitutes its authorization for the use of the term "Certified." The certification is based upon the fulfillment of prescribed medical requirements for the milk and is the guarantee that it conforms to definite standards and to fixed methods and regulations for its production.

The standards of quality consist of fresh, whole milk, unchanged by heat or cold, less than twenty-four hours old when sold, held between the temperatures of 48 and 50 degrees Fahrenheit, with not less than 12 per cent. of total solids, with fat content between 3.5 and 5.5 per cent. and without the addition of any other substance, material, chemical or preservative.

The standards of purity for the milk consist of the entire absence of particles of foreign matter, of the lowest possible bacterial and dust dropping content consistent with the highest possible practice of dairy hygiene, provided that the numerical bacterial contamination is at all times below an average weekly count of 10,000 per cubic centimeter.

The standards of safety consist in the use of every known means to exclude from the milk pathogenic microorganisms, a medical guarantee that every employee handling the milk is free from disease and is not a disease carrier, and a veterinary guarantee that the cattle are in perfect health and cannot transmit through the milk any bovine affection.

The methods and regulations for the production of Certified milk are based upon the most advanced clinical requirements, prophylactic science and dairy husbandry and are changed as the action of the Commission modifies its technique for the attainment of its standards.

Certified Milk in this district is sold by
