A new electric sign has been erected at the Capitol theatre, North Toronto. The sign which contains thousands of electric light bulbs is most attractively colored and is one of the most modern electric signs in the City of Toronto.

Have you some apples which you can spare to the poor and needy in Toronto. Telephone The Liberal Office, No. 9, Richmond Hill.

The 78th annual fair of the Schomberg Agricultural Society was held last week. It was featured by numerous exhibits and a large attendance. The day of the small fair is not done; the fairs are staging a come-back.

Chicken thieves have been busy in the Milton district. Keep the chicken house well locked and remember chicken thieves have a dislike for an alert watch dog.

Stouffville business men are planning a celebration to mark the opening of the new road through the town. It will probably take place about the middle of October.

The arrival of fall is the signal for the lovers of the chase to prepare for the annual pilgrimage to the northern woods.

DANGER — Keep out of car tracks is the warning on two new signs erected at the entrances to Richmond Hill. It is a good move and may save thoughtless motorists from serious damage to their cars and injury to themselves. The tracks are dangerous if the pavement is wet and the car travelling fast. Cross tracks slowly and there is practically no danger.

Thieves are not generally regarded as an industrious lot of people. Down at Meaford however a farmer reports the loss of about a dozen bags of potatoes which thieves dug from his patch during the night.

The latest news from the farm yard is that blue eggs will figure in future productions. A fowl which comes from Chili produces them and is being brought to Canada.

Whitchurch council have decided to pay a reward of \$100 for information leading to the arrest or conviction of person or persons stealing chickens in that municipality.

Mr. Jas. Brodie, the veteran sheep king of Markham and Whitchurch Townships, has grown something new in the grain line this year. Last spring he secured a new barley seed, known as Wisconsin No. 57 Barless Barley, which yielded him 60 bushels to the acre this harvest.

We have heard many an odd story but the latest to be going the rounds according to the Beaver Express is that regarding a prediction that a war is not far away. Old-timers base their predictions on the fact that the letter "B" was found on the leaves of the growing oats in the field this year. It is said that this sign never appears except as a forerunner of war. In the year 1914 this letter appeared last on the oats, and war was proclaimed ere the harvest was garnered.

Anniversary services will be held at Temperanceville United Church on Sunday next, October 5th. Rev. Dr. Norman will be the speaker at both services.

A plan is under way for the reclaiming of 8000 acres of Marsh land in the Bradford district.

We have recently exhibited large size tomatoes, home grown peaches, and even apple blossoms plucked in September. There are reports of extra large potatoes in many sections of Ontario and it would be interesting to know who has grown the largest tuber in this district. Bring in your big potatoes so that The Liberal can announce the annual championship.

Counterfeit Bank of Nova Scotia ten-dollars bills are being circulated in Canada, according to a warning issued by the post office department.

The penalty for driving in England under the influence of alcohol or drugs is severe. The first offense can be punished with a fine of \$250 or a prison term of four months. For a second offense both imprisonment

York County Seed Survey

RESULTS OF TEST SHOW MANY FARMERS SOW INFERIOR SEED
Last spring, Mr. R. E. White, of the Department of Agriculture, Newmarket, secured through the co-operation of the Junior Farmers of York County, samples of spring grains being sown on York County farms. One hundred and thirty-two samples of grain were collected, forwarded to the Government Seed Laboratory where they were tested and results sent back to each farmer.
Forty-eight samples of oats were tested. Eight graded No. 1; 8 graded No. 2; 11 graded No. 3, and 21 were rejected.
Forty-five samples of Barley were tested. Seventeen graded No. 1; 12 graded No. 2; 8 graded No. 3, and 8 were rejected.
The above shows that many farmers are still sowing inferior seed grain. The twenty-one rejected samples of oats contained in each pound 41 noxious weed seeds, 190 other weed seeds and 506 other cultivated grains.
Professor Squirell of the Ontario Agricultural College states that the best seed of the best varieties will increase yields 33 per cent. Large plump seed gave an increased yield over the small seed in oats of 15 bushels per acre; in barley, 8 1-2 bushels per acre, and in winter wheat, 8 bushels per acre. This clearly shows the great importance of careful grading.

Victoria Square

A very pleasant Sunday afternoon was enjoyed when Mr. and Mrs. D. Wideman, Mr. and Mrs. L. S. Wideman and Mr. and Mrs. L. Sluggett, of Toronto, were entertained by Mr. L. B. Heise and Miss Elva L. Heise. A pleasant drive was enjoyed by some of them to the shores of Lake Simcoe despite the fact that the air was a bit chilly.
