GENERAL NEWS AND VIEWS

Owing to the removal from town of Reeve McLean the town of Uxbridge will have an election on November 3rd to fill the office.

The cold snap of last week-end was in contrast to the weather enjoyed during the first weeks of the month.

In recent years the banks have instituted a charge of ratepayers who make use of the bank for the purpose of paying their taxes instead of giving it to the tax collector. The practice in Markham and in Vaughan is that the ratepayers making use of this service pay the charge to the bank. Whitechurch council however has agreed that ratepayers shall not be called upon to pay the charge, but that at the end of the year the council will pay the banks in a lump sum all such charges for tax collections. The charges of the bank are 5 cents for an amount up to \$15, and ten cents for all amounts over \$15.

Council passed a motion giving Orangeville committee power to grant \$200 to any person procuring the location in that town of an industry employing five or more hands, the grant to be paid after the industry has started operation.

Councillor Keffer voiced objection to Sunday fishing at Meaford. He was supported by the Mayor. Others in the council did not express any opinion and the council took no action in the matter.

Millers and bakers in the country to the south of us plan a campaign to induce people to eat more bread. Eminent physicians and food experts are to tell the people the advantages of white bread as a food. If white bread can be re-established in the place it once held in the country's diet, the bakers sav. it will provide a market for 130,000,000 extra bushels of wheat.

It is said that science has hopes of foretelling weather conditions months in advance. That should be easy. The Liberal even now practices that we will have some cold weather in February, and that in August there will be some hot weather. Clip this out for reference and check up on our prophecy.

Orillia's fire truck is seven years old this year and is to get a set of new tires. It has gone 953 miles, used 195 gallons of gas, and has gone to approximately 800 fires.

GOOD PRICES AT FARM SALE — GRAIN SOLD WELL

The auction sale of farm stock and implements, held on Saturday last by Robert Thomson, Markham township, was largely attended. The stock and implements brought good prices, the first mentioned bringing especially good prices. Pigs weighing about 40 pounds brought \$12, each and cows sold from \$70 to \$90. Goose wheat sold for 76 cents per bushel and mixed grain was in demand at \$1, per cwt. Prentice & Prentice, auctioneers, had charge of the sale.

Victoria Square

Several farmers of this community attended the provincial plowing match at Stratford last week.

Mr. and Mrs. R. E. Sanderson motored to Hamilton on Sunday.

A very successful box social was held on Friday evening under the auspices of 'S' and 'A' societies. Fifty enjoyed a jolly evening of games followed by a sumptuous repast from the boxes.

The Mission Band attended their annual rally at Keswick on Saturday. The children numbering twenty-two enjoyed a splendid meeting followed by a tasty lunch.

Messes Frank Brumwell and Cecil Nichols accompanied by Misses Margaret Valliere and Marion Brumwell attended the supper and concert in Centennial United Church, Highland Creek on Wednesday evening of last week.

Mr. and Mrs. Homer Burke and Verena of Highland Creek spent Sunday with Mrs. W. Brumwell.

Don't forget the J.W.I. meeting on Saturday, October 25th.

The young men of our community gathered on Wednesday evening and serenaded Mr. and Mrs. John Frisby on their return from their honeymoon.

A meeting of the congregation was held on Tuesday evening last, regarding the forthcoming Jubilee services. Nothing definite has been decided as yet but it is expected the services will be held early in November.

MARKETING GEESSE

The time to prepare geese for market is when the weather turns cold in the fall. They should then be taken off pasture and those selected for market should be placed in small pened enclosures, provided with plenty of water and grit and kept clean. They should be fed heavily on whole corn, the best medium for the fattening of geese, and about two weeks' heavy feeding should fit them for market. Twenty-four hours before killing geese should be starved, but given plenty of water. Care should be used in plucking, the dry or steam methods being recommended, for the reason that the feathers are particularly valuable, bringing as much as 60 cents per pound. The dressed bird should be rubbed over with a damp cloth and set aside to cool. The twelve-bird box makes a desirable market package.

Sustains Injuries From Flying Emery Stone

Unionville, October 22—Peaches' Corners was the scene of a bad accident last week, when George Hoover was struck by several pieces of flying emery stone and badly cut about the eyes and face. Owing to the dry season many farmers are installing emery grinders for sharpening plowshares and this is the second accident to be reported. Mr. Hoover while engaged in sharpening a share was struck by several pieces of the stone which were projected through the air. A similar accident happened some time ago at Dixon's Hill.

MARKHAM

6th LINE NEWS

Quite a number from this line attended the funeral of Miss Louisa Lister who died on Wednesday, October 8th, in her 81st year. The deceased was the second of a family of four two brothers Albert and Frank Lister, both of the seventh line surviving her. It was in the year 1856 when the now deceased Mr. and Mrs. Frederick Lister landed in Canada from England and upon their coming to Markham located in a house on the site of the Public Library in Markham village. Since that time the Lister family have lived in Markham township and farmed for several years on the 6th line, on both the McKinnon and Myers farms, which are now owned by Mr. P. Cober and Mr. R. Mortson. They were held in high esteem by all who knew them. The late Miss Lister possessed a kind, quiet unassuming disposition and was always ready to bear another's burden. She had been very unfortunate of late, having severely burned her foot with hot grease a few months ago and eventually taking pneumonia which ended in death a few days after.

Mr. and Mrs. Thos. Myers, of Zephyr, also their son Benson visited with Mrs. S. B. Lehman, Thursday of last week.

The musical entertainment which was given by the St. Clair United Church choir last Thursday night was a grand success, both in quality of the selections rendered by the choir and the full house which was evident. At seven p. m. the choir arrived with the keenest of appetites and the ample supply on the tables proved to be plentiful enough nevertheless for the 72 Torontonians. Two of the car loads wandered in the wrong direction for a time, one going to Markham while the other strayed to Vandorf, but, in spite of the misunderstanding the belated folk arrived in time for a hearty repast. The concert commenced at 8:30 o'clock in a very friendly and informal way and those who helped to fill the pews did not go home disappointed in the least. Country people find a choir of this kind a rare treat indeed to have brought so near their doors.

Mr. and Mrs. Harvey Houck motored to Stratford, to the Provincial Plowing match with Mr. and Mrs. Percy Puterbaugh last Friday. They report a very pleasant trip.

Miss Ethel Carruthers is at home at the present time at Mr. Wm. Carruthers.

The Melville young people postponed their Guild meeting for the concert last week so are holding it Thursday p. m. of this week. The Rev. A. MacNeal is going to give the topic for the evening.

Our local trucker, Cecil Mortson has purchased Mr. J. Miller's crop of apples on the trees.

Mr. Willis Lehman's motored to Delhi, last Saturday and Sunday, visiting with Mr. Howard Lehman's while there.

It is reported that one of the many cars which were parked on the sides of the road in front of the Church on Thursday night was robbed of a tire and rim. The owner's name is not known by the correspondent except that he came all the way from the tenth. Very unfortunate indeed that cars can't be parked on the road without a loss of this kind and it's hoped the guilty one will be found before long.

Mr. and Mrs. Jacob Wideman and Mr. and Mrs. D. M. Hoover and daughter Violet motored to Stoney Creek, Ont., last week-end to visit with Mr. and Mrs. Earl Miller of that place.

Mrs. Wm. Stots spent last week with her daughter Mrs. Popham in New Toronto.

PROPER RATION NEEDED

A hen may lay a few eggs early in the spring without receiving much feed or attention or she may lay at the end of the season when feed may be picked up in the fields, but the hen has not yet been developed that will lay without the proper ration during the fall and winter months. A good mash is important if the hens are to lay, and it should be before the birds all the time. If any one of the necessary elements required for the making of eggs is absent, production is impaired. Pullets require a little different mash than the old hens and it is a mistake to house them together and have them feed from the same hopper. Home-grown feeds with the addition of some purchased concentrates may be mixed, or a commercial mash may be purchased that will supply the necessary ingredients to the bird. Chickens will pay dividends if properly housed and given the right rations.

WHILE the Gilson "Magic" has been primarily designed to give the maximum in heat from the minimum of fuel, to have that heat contain the correct degree of humidity, free from any trace of gas, smoke or dust, was likewise a big consideration. The result is an innovation in furnace construction.

Toncan steel plate electrically welded into one smoke, gas, dust-proof unit—Toncan plate will not crack or open—heats three times faster than old style furnaces—large humidifier in front of furnace for easy filling gives correct moisture—conical grates—booster flues—and many other features are reasons why the Gilson Magic will save you one-third on your fuel costs and give you the greatest supply of warm, moist heat—as healthy as a day in June.

Write today for free illustrated booklet "The Supremacy of Steel." Ask about our easy time payment plan.

Gilson Heat Wave
Ideal for small homes, offices, stores, schools, etc. Looks like a piece of furniture. Built of steel. Beautiful ornamental finish. Draws cold air from floor—circulates warm air. Big fuel saving.

Gilson All Cast Furnaces!
A big over-sized furnace at a record low price! We install quickly at small cost with money-back guarantee of quality from manufacturer. Pipe or pipeless models on easy terms.
