SHOP EARLY

With Christmas once again just around the corner hardly five weeks away - the stores are again calling public attention through their advertising, to the advisability of planning for Christmas well in advance. As usual, some will take heed, and buy and post early, while others will leave all preparations off to the last minute with the result that store staffs and post office men are worked to the breaking point to keep up with the peak load of Christmas business. True there are some who will not be able to spend as liberally as usual this year on account of the universal unemployment situation but this need not dispel the Christmas spirit. But if those who are earning steady incomes, which are not affected by business depression will purchase as usual; if those who are well fed and well clothed will take a thought for those less fortunate ones who are cold and hungry; if the real spirit of Christmas is kept to the fore, this coming Christmas season need be no less enjoyable than those of more prosperous years.

Christmas will be here before most of us realize it. Shop early. Mail early. And determine to make this year's festive season one to be remembered.

WHAT A COMMUNITY NEEDS

The Pembroke Standard-Observer outlines for the benefit of citizens of that town a few requisites to community betterment which are equally applicable to the town of Barrie, and which are repeated herewith:

We need stability—the will power to determine what is right and a determination to see that only that which is right prevails.

We need a spirit of unanimity—the ability and willingness to agree upon what we want and then go after it and get it.

We need aggressiveness-for without aggressiveness, indolence and stagnation will be our lot.

We need loyalty—for without loyalty we will be enriching commercial interests at distant points and impoverishing our people at home.

Some communities thrive and grow because of their natural advantages. Others are made only through the dogged energy and perseverance of their citizenship.

Ours will be what we make it, and we should make it all that we can.

OPTIMISM

We heard a good definition of an Optimist the other "A man who sees in every adversity some opportunday:

In these days of adverse business conditions is every man's opportunity to show his colors. Have we faith in ourselves and faith in this great and glorious country? Then don't sit back and let the other fellow start the ball of Prosperity rolling. Each of us must do our bit.

Throw aside that business mourning band, and use a brass band instead. There was never anything so good that it could not be improved upon, and the worse things are the more chance there is for improvement. Here's our oppor-

tunity, (yours and ours.) Prosperity doesn't always mean having a "good time" in the modern sense of those two words, but with the right spirit you will really ENJOY buckling down to business at hand, devoting time and energy to it, developing it and gradually seeing it expand.

To bring back prosperity our country needs sane thinking, every man with his shoulder to the wheel, and wise spending.

It's the fellow who faces the sun who sees no shadow.

Let's face the sun of PROSPERITY.

Let's get busy, everybody push and start the old ball rolling, then watch it get momentum and gather as it rolls.

"If there is one place in the County I don't want to see again it's the Town of Barrie," is the lament of several Midland people, who claimed they were unjustly prosecuted last week for speeding in that town. Over-zealousness on the part of the police or a desire to add to the municipal revenue are advanced as reasons for the unpleasantness. If the motorists exceeded the speed limits of the town, to a dangerous extent, then there is nothing more to be said, as laws are made to be obeyed, but it is possible to draw even the speed laws too rigorously.—Midland Free Press.

The weatherman has done his part to help the unemployment situation this fall, but he is apt to think he has done his bit any day now.

Councillor Coakwell Urges School Sections To Co-operate With Council in Saving Interest Charges—"Civis" Suggests New Years Voting in Richmond Hill

To the Editor The Liberal, Richmond Hill, Dear Sir-;

nomination meetings I have made re- ship generally appreciate the saving ference to the large item of interest which may be accomplished and that in charges in Markham township and the near future such co-operation behave suggested that this could be con- tween the school boards and the counsiderably reduced by the co-operation cil will be practiced to the benefit of of the various school sections.

The Revised Statutes are quite clear in enabling the municipality and the various school sections to co-operate to this end, and for the information of your readers I quote the following sections:

(1) The council of every local municipality shall levy and collect upon Editor Liberal, the taxable property of the public Sir;school supporters of the municipality,

quired to be levied and collected and consideration by the citizens and counapplied to salaries of teachers shall cil. be paid to the treasurer of the respect- I have often wondered why Richive boards from time to time as may mond Hill with other municipalities be required by them."

as it would be actually required by the ordinary working day.

this saving is for the various school the space I am, boards to express a willingness to co-

operate by not requiring the payment of the township levy until it is actually required. I trust that the school At various times and at different boards and citizens of Markham townfall the ratepayers of the municipality. Thanking you, I am

Yours very truly FRED COAKWELL

SUGGESTS CHANGE IN DAY OF VOTING

I notice by the press that a great or of the sections in the case of rural many municipalities in Ontario have schools, in the manner provided in this taken advantage of the provision in Act, and in the Municipal Act and The the Statutes which allow a change of Assessment Act, such sums as may be election date from the first Monday required by the Board for school pur- in January to the first Monday in poses; and shall pay the same to the December. I have never heard the treasurer of the board from time to matter discussed locally very much, time as may be required by the board." and although personally I do not tav-Sub-section III - All moneys re- or this change it might be worth some

close to Toronto have not followed the My suggestion at the nomination example of the Queen City and had meeting and at council meetings this voting on New Years' Day. It would year was that the various school have a twofold advantage, in that the boards, many of which have on hand interest in city elections might have substantial surpluses, instead of re- the effect of a larger vote locally, and ceiving the township grant about the New Years being a holiday it might middle of December each year, that suit better those of our citizens wno that money be allowed to remain in work in the city or elsewhere and the township treasury until such time might have difficulty in voting on an

school section. It will be seen by the I pass this out as a suggestion foregoing quotation that the statutes through your valuable paper for the provide for such procedure which consideration of your readers. I think would result in a substantial saving our citizens should make more freto the ratepayers of Markham town- quent use of your columns which you ship in interest charges each year. kindly give for the expression of opin-All that is required to bring about ions and ideas. HELP THROUGH THE USE OF HEALTH RULES

Education does not consist merely in the knowledge of certain facts. It is much more than that for it implies desirable, are often careless or indiffthe ability to put knowledge into practice.

We need to be informed as to how to live in order to be healthy. Our lives should be guided by intelligence, not by instinct, if we are to rise above the level of the animal world.

But knowledge regarding the securing and the maintenance of health will not, in itself, be of any real value to us. It is the way we apply with the greatest task of parentsthis knowledge, by making it part o come from the application of knowledge rather than from the knowledge

There are certain comparatively few and simple rules of living which are the determining factors in our health. These rules are known to most people, and yet the number who practise them consistently is not

There is only one practical way to hold to these rules, and that is to make habits of them. It is just as easy to acquire good habits as bad ones, and the practice of the good habits makes life much more comfort. es and for others.

We usually establish our habits of life in childhood. During this period St. John's Church, Oak Ridges 11 a.m. Habits express our response to certain an act without thinking.

In other words, he establishes habits.

The parent cannot make a greater PHONE 188 THE JONES COAL CO. contribution to the child's health and FOR COAL OR WOOD.

happiness than by establishing proper physical and mental habits.

The reason why we refer to this subject is because it so often happens that parents who are reasonably wellinformed as to what habits of life are erent in seeing that their child establishes proper habits.

The establishment of proper habits takes times and patience and perseverance. The parents must know OHOL what they are trying to do; must be informed as to how to do it, and be prepared to gain an understanding of the child and of the manner in which children are to be trained. Success child training-does not come through our daily lives, that counts. Results instinct, but is acquired through study and preparation. Parents need eduation in child training if they are to give their children a proper start in

Questions concerning Health, addressed to the Canadian Medical Association, 184 College Street, Toronto will be answered personally by letter.

There is a marked improvement in

Brocky Family Goes to Germany

Canadian Pacific Express men were hosts to Patsy, Mabel, Chester and Sheerix Brocky, of Badgerville, Subterranea, who spent a week

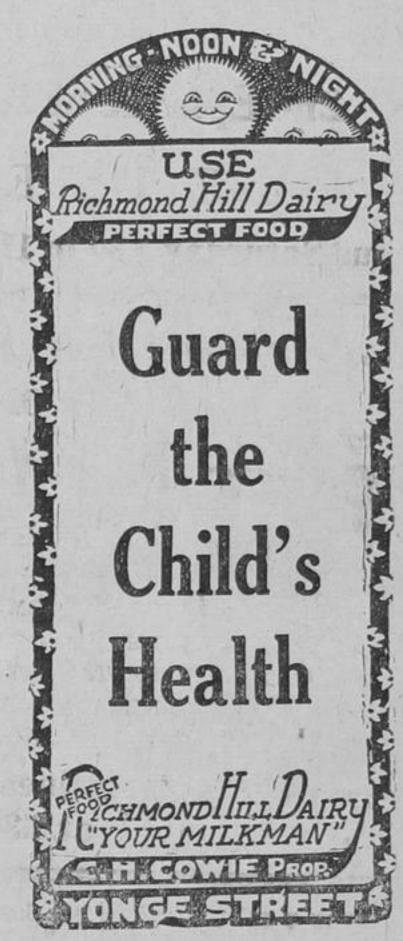

in Montreal recently before sailing to Europe.

The four Brockies sailed for Hamburg on board on the SS. Beaverford, October 31, and will settle in Germany, where their children will probably be used to lather the faces of

customers in Teutonic shaving emporia. The badgers are good Canadians, raised in Alberta and consigned from Edmonton to Gittelde-Harz, Germany, for breeding. One and a half pounds of steak twice a day, at lunch and dinner, keep them alive and happy, and doubtless contributed to their enjoyment of the long journey on the Canadian Pacific Railway from Edmonton to Montreal. Breakfast is now quite déclassé in the best badger circles.

The above photograph shows Patsy receiving the first installment of her lunch before being taken by the C.P.R. Express truck to embark on the Beaverford. "What do you want with me" says Mabel, as she was being sketched, "I've had my lunch and feel fine; sitting pretty, in fact. Nothing more for publication, this is the end of my tale

MILK builds bone and muscle in growing childrensupplying needed lime and butter fat for which there is no substitute. See to it that your child drinks plenty of milk during the winter months. Children need plenty of energy building foods during these months.

Tell us to leave Milk, Cream or Whipping Cream at your home regularly. Phone 42-J and we will do the rest....
