GENERAL NEWS AND VIEWS

Listen to this one and then try it on your piano. The Aurora Banner in its last issue commenting on the defeat of Richmond Hill by Aurora in the O.H.A. group said: "Why the management of the trolley town team ever dreamed of the appellation 'Young Canadians' has me guessing. Some of those 'youngsters' could swallow a double doss of the 'Elixir of Life' and then be old enough to be daddies."

Relief cost the town of Orillia \$17,000.00 for two months. Is it any wonder people ask where it is going to end.

Welfare boards have been organized throughout Ontario to look after the unemployed. What is needed now is a Welfare Board to look after the overburdened taxpayer.

Some boys are small for their age, and so are some men.

The man who makes a fool out of himself, always claims someone else did it.

The great China question, as seen in most homes, is "Who will wash the dishes?"

Credit's due to the man who discovered that the only person who makes a success running other people down is the elevator boy; and we can guarantee that he runs more people up than down.

The Guelph Mercury sagely remarks: "The man who built a two-car garage in 1928 was foresighted after all. He keeps the car on one side and lives in the other."

502 people killed in Ontario last year in motor accidents. Don't blame the car; blame the driver.

W. J. Ryan of 14th con., Brant, had a big run of sap in his maple bush on the last day of January.

Newmarket's policy that those receiving relief should reimburse the town at some future date has caused the number of recipients to dwindle. Equities in them must turn them over to the town as security that they will pay for the relief.

Just now the government is flooding the country newspapers with propaganda such as "How to Select Good Potato Seed," "How to Improve the Quality of Hogs," "Time to Purchase Seed," etc. This may be very useful information, but what the poor farmers want to know is "How to sell the Potatoes he has already on hand." Our farmers raise the very best hogs, potatoes, fowl etc., and the question is where can he sell them at a half-decent price?—Orangeville Sun.

The city of Owen Sound is up against a serious relief situation, when 1,775 citizens, or one in every seven of the population, are now receiving direct relief. This is about 350 more than a month ago.

If Robt. Kirby, of Clarksburg does not have the first potatoes, carrots, beans and peas, this year, it won't be his fault. The mild weather tempted him to plough his garden on Jan. 24th.

One of the largest agricultural projects ever to be attempted in Ontario is under way after a period of negotiations and experiments at Holland Landing, owned and supervised by two Hamilton men, Samuel R. Manson and A. G. May. More than two thousand acres of muck land has been purchased and will be divided into ten-acre lots and upon these houses built with facilities for settlers to make their home in this fertile spot.

A farmer from Second Street Tuesday took seven good sheep and a fat cow weighing over 1100 lbs. to the Toronto stockyards to receive the magnificent sum of \$24. Some \$9 was expended in cartage, leaving a net of \$15. There is no gain saying the fact that basic industry cannot carry on, on such prices as these. Something will have to be done for the farmer.—Newmarket Express-Herald.

The stout woman on the scale was eagerly watched by two small boys. The woman dropped in her cent, but the machine was out of order and only registered 70 pounds. "Good night, Bill," gasped one of the youngsters, "she's hollow!"

The farmer's wages to-day do not exceed ten cents an hour and few get that. In Toronto the minimum wage on city contracts is 60 cents and labor unions hold out for scales of 75 cents and more per hour. That is what lack of farm purchasing power really means; that is a primary reason for bread lines in the city. Financial Post.

The hog that gets too greedy gets sent to market first. The man who gets too greedy and permits all his acts to be governed by purely selfish and self-seeking motives sooner or later becomes the victim of his greed.

In the fish kingdom crabs do not associate with each other or with any other members of the fish family. They are always found alone. The same is true of the human crab. No one wants to associate with the human crab. One human crab does not care for the society of another of his kind. He prefers to impose himself on someone of a different nature.

I am of the opinion that my life belongs to the whole community, and as long as I live it is my privilege to do for it whatever I can. I want to be thoroughly used up when I die, for the harder I work the more I live. I rejoice in life for its own sake. Life is no "brief candle" for me. It is a sort of splendid torch which I have got hold of for the moment, and I want to make it burn as brightly as possible, before handing it on to future generations.—George Bernard Shaw.

There are two classes: Patriots who would save America at any cost, and those whose bank rolls would be nicked by the schemes suggested.

Way Back in the Liberal Files

THIRTY-FIVE YEARS AGO
From Our Issue of Feb. 17th, 1898
Mr. Binns sold the Newmarket Advertiser to Mr. W. B. Hill. The newspaper will be known as the Newmarket Express.

Messrs. A. Marsh and son have decided not to work Lorrige Farm as arranged some time ago. Mr. C. Marsh will remain at home and work the place.

Proclamations have been posted in village relative to the Provincial Elections for East and West York. Nominations for East York will be held in the Town Hall, Markham, on Tuesday, the 22nd of February, and for West York in Dufferin Hall, Weston. Nominations taken at twelve o'clock noon. Mr. James Massey is returning officer for East York and Mr. A. J. Anderson for West York.

King and Vaughan Plowmen's Association have both held their annual banquets, and both proved enjoyable affairs. The former was held at St. George's Hotel, Schomberg, and the latter at Sullivan's Hotel, Pine Grove. Dr. Brereton was chairman at Schomberg, and Reeve Wallace of Woodbridge, occupied a similar position at Pine Grove. Good speeches were made on both occasions and all present seemed to think that a banquet is the proper way to wind up the business of the year.

At the last meeting of the County Council the following half-yearly grants were passed for the High and Model Schools of the County:

Weston	\$389.28
Markham	538.38
Richmond Hill	350.00
Toronto Junction	287.00
Newmarket Model School	185.00
Tor. Junction Model School	175.00

Candidates are now in the field for nearly every constituency in Ontario. In our own county Lieut. Col. Wayling of Sharon is opposing Hon. E. J. Davis, the present member for North York; Mr. W. J. Hill is opposing Mr. J. W. St. John, and in East York Mr. J. W. Moyes is opposing Mr. John Richardson.

A team of the Richmond Hill Hockey Club went to Thornhill Monday evening and played a friendly match with a team from the latter

place. The visitors were victorious by a score of 12 to 7 points. The following were the players: Richmond Hill, W. Douthwaite, goal; H. Sanderson, point; W. Hall, cover point; A. Savage, W. Clifford, W. Trench, C. Ellston, forwards. Thornhill, J. Chatterley, J. Kelly, W. Lindsay, R. Wilson, H. Hopper, J. Ford, W. Walker.

Mr. J. Kelly acted as referee and the umpires were Messrs. J. Wright and J. Wilson. The return match is set for Thursday evening of next week.

TWENTY YEARS AGO
From Our Issue of Feb. 20th, 1913

James Albert Mortson of Gormley, 28 years of age, formerly of this place, accidentally shot himself last Saturday. He took the rifle to shoot a cat in the woodshed, but as the weapon did not go off he endeavoured to press the charge down with a ramrod. The rifle then went off and Bert received the bullet in the lower part of the body. A doctor was summoned and the injured man was rushed to the Western Hospital where he died later in the day. The funeral took place on Tuesday from the family residence with interment in Richmond Hill cemetery. Sympathy is extended to the widow and child.

The door receipts at the Band Carnival on Monday night were \$32.00. A good musical program was given, and the skating was thoroughly enjoyed. The following won prizes:

Best Rep. Costume, Murray Palmer, W. Brown; National Costume, E. Hopper, E. Walder; Comic, Miss Smith; Child's Costume, E. Innes, J. Palmer.

Deepest sympathy of a wide circle of friends goes out to Mr. and Mrs. Thos. Prentice of Carrville in the death of their daughter Ada after a long illness, on Feb. 3rd. Funeral service was held in the Carrville Methodist church on the following Thursday with interment in Carrville cemetery.

The Hockey Juniors were defeated by Thornhill last Thursday evening. Our senior team defeated the Overhead Dept. Metropolitan R. R., on Friday evening, by 9-3, and Tuesday evening they lost to Sutton by 7-3.

THE SCHOOL CHILD

There is a tendency on the part of a large number of parents to consider the common cold in young children as being relatively unimportant. This is especially true in the case of children at the beginning of their school years.

The first years of school find a child in a totally different environment from that of his first years of life. In the home, the daily round of the pre-school child varies but little from day to day, and during this period, excitement is at a low ebb as compared with the glamour and opportunities for contact which the earlier years at school hold.

In the home, children are lightly clad, whereas in many instances, they are sent to school with far too much clothing. The anxious mother prepares her child for the cold walk, but she may neglect to consider the temperature of the school rooms. Outside coats are dispensed with in the cloak-room, but sweaters and thick stockings are frequently worn throughout the day in the classroom. Sometimes warm clothing is necessary, but often enough, classrooms become over-heated and the child uncomfortably warm. During the quick exit at the recess period, lunch hour or school closing, such an overheated child may fail to put on his overcoat, or, more often, makes the journey home with his coat wide open.

An abrupt change of temperature, with its rapid cooling effect and consequent lowering of resistance, provides an opportunity for bacteria ordinarily present in the mouth to become active, with the result that an upper respiratory infection develops. Once such a cold has been discovered, it is essential that the child be kept at home, not only to avoid complications, but to protect other children in the same class or the same school from catching the cold. Such infections are only too often contracted from close contact with colds from which others are suffering.

Five days is the average time required to recover from a cold, but

this will naturally vary depending upon the type of the cold and the constitution of the individual.

An eminent authority once declared that the first decade of an individual's life should be primarily concerned with health, and the second decade with education. Education is most happily acquired by healthy children, and lessons in health are but a branch of education.

An absence of a few days from school may not only offset an undesirable complication, but may indeed be the means of averting the danger of more grave consequences.

Questions concerning Health, addressed to the Canadian Medical Association, 184 College Street, Toronto, will be answered personally by letter.

LAMP LIGHTING

By Molly Bevan
All the sombre city streets
Don necklaces for night,
Every lean skyscraper is
A honeycomb of light;

Down the roads the lamps of cars
Like giant fireflies flit;
In each lone farm dwelling-place
Some lamp of welcome's lit.

Far in the blue upper dusk
All heaven's lamps have birth
To shine in silent comradeship
With little stars of earth.
