NEWS AND INFORMATION FOR THE BUSY FARMER

FOOD TO BURN Sixty thousand sheep, unsaleable at any profit to the ranchers who raised them, have been slaughtered and burned at Santa Cruz.

Millions of people, in every part of the globe, are workless, impoverished know not where their next meal will come from.

Science, in agriculture as well as in industry, has increased enormously the ease with which all of the necessities of life can be produced.

In the face of entirely new conditions of production, which modern science has brought about, people still cling to a system of distribution which has profit as its only motive.

Mr. Rhodes' second budget is a much more drastic financial document than well-informed observers would have forecast a month ago.

But the effort is a sorry one. Again taxation is substituted for economy. Again the chance to make certain that Canada will avert a financial crash is thrown away.

income simply has not been there to tax.—Financial Post.

The practice of inexperienced horsemen in watering their horses after feed is a dangerous one because the digestive fluids are interfered with and sickness is often the result.

Lower Livestock Freight Effective from March 20, the Canadian Pacific and Canadian National Railways permit outbound shipments of livestock from Toronto to travel at the lower rates.

All shipments up to a twenty cents per cwt. rate are affected. The reduction means a considerable saving to farmers carrying stock back country for finishing.

The Brooder House

At this time a great many chicks will be started on the road to broilers and layers. Farmers and poultrymen realize that March and April hatched pullets are more likely to be in heavy lay at the peak prices than chicks hatched too late in the season.

If the weather is cold it might pay to line the brooder house with paper and put paper on the floor to stop the draft. Then have the brooder stove running for at least 48 hours before the chicks are expected so as to get the stove regulated to hold the temperature at about 100 degrees F.

Weekly Crop Report

Western Ontario reports a serious shortage of high quality seed grain with the demand keen. The same group of counties also report serious damage to fall wheat and clovers.

Neurotic: Anybody who thinks you mean it when you ask how he is.

Another thing that loses value when there's too much of it is weather.

MARCH & APRIL CHICKS PAY BEST

Early chicks mature faster and lay earlier, when eggs are going up, not down. Success will be yours, with our Barred Rocks or S. C. White Leghorn chicks or started pullets.

We maintain a Breeding Plant where birds are trapped and all poor producers removed, healthy and vigorous males from high producing dames are used in all our matings.

Chicks on display, all ages. Come and see what you get. Write now for prices and hatching dates.

General News and Views

A hustler has no time for bad luck. A popular person is one who enjoys being bored.

One way of getting what you want is by wanting nothing.

No self-made man ever left out the working parts.

Misery loves company. They come and go together.

Spring always visits a few times before coming to stay.

A man who falls in love with himself never has any rivals.

Best way to improve the postal service is to stop mailing bills.

Women don't play ball because the players are too far apart to talk.

Our prediction of the hottest summer ever is based on the fact that all summers are that hot.

The federal budget indicates another stroke aimed at the living conditions of average humanity.

Not only are people losing an equity in their homes without due process of law, but the costs of his simple necessities and humble luxuries are being raised beyond his reach.—York County Post.

The Minister of Education announces that school grants are to be revised with the object of securing more economical administration of schools. This will be a marked contrast to the policy which has been pursued by the Department of Education.

Sugar Tax: British lost colonies through an ill-advised tea-tax. Bennett will lose all by a stupid 2c. lb. sugar tax which the poor will have to pay.

The leading editorial of the Pembroke Standard-Observer last week dealt with tax arrears, which amount to \$128,000. It suggests the appointment of a committee entirely outside the council to investigate and report and adds, "One thing is sure, we cannot go on playing the fiddle any longer while Rome is burning."

One writer says that the saddest case he heard of was where the family had to go without pie because mother was doing a jig-saw puzzle on the baking board.

One of the town Public School may be closed, and a further reduction in teachers' salaries is in order, according to the economy program drawn up by the Midland Board of Education at a recent meeting.

Bradford Council has instructed Chief of Police Walter Reeve to proceed at once to collect all dog taxes, and has ordered that all taxes unpaid at April 1 be summarily dealt with and the dogs destroyed, and that all dogs not wearing tags be destroyed.

Orillia police are seeking a mysterious man wearing a long, brown overcoat, who has been impersonating a police officer. He recently stopped a motor car on an Orillia Street and after questioning the four occupants, two men and two women, searched the machine.

How the goodwill of kind-hearted citizens is worked upon is told by the Carleton Place Canadian. It says a merry member of the floating fraternity who struck the town last week from off a freight picked up an old shoe and pathetically used it in a house to house canvass to wheddle small contributions towards its repair.

Health Service

OF THE Canadian Medical Association

Edited by GRANT FLEMING, M.D. ASSOCIATE SECRETARY

EARLIEST Not infrequently the question is asked as to what are the earliest or first signs or symptoms of this or that disease. This is a question which cannot be answered definitely.

If we consider cancer, for example, it is impossible to state definitely what are the earliest symptoms of the disease, because in attempting to enumerate them, we find ourselves including pre-cancerous conditions.

A lump in the breast whether or not accompanied by pain, or pain in the breast with no evidence of a lump, always calls for investigation. These are the first symptoms which are noticed by patients.

Bleeding from the rectum is nearly always blamed on piles, or haemorrhoids. This may be the correct explanation, but again it may not be.

The purpose of this article is not to teach or encourage you to diagnose your own case, but to impress upon you that, if certain conditions do arise, they should be given attention.

What everyone should do is to have a periodic health examination which would allow the family physician to detect abnormal conditions early, at a time when proper treatment may be expected to effect a cure.

CONSTIPATION 6 YEARS, TROUBLE NOW GONE

John J. Davis had chronic constipation for six years. By using Adlerika he soon got rid of it, and feels like a new person.
