## GENERAL NEWS AND VIEWS

There is a lot of good will in good matters.

No man ever lives to be as old as he feels at 21.

A budget is a system that proves how hard-up you are.

The first essential to success is labor, the second is spotlight.

Artistic temperament seems to have much in common with an aversion to work.

The proper study of mankind is man's reaction to the other fellow's flat tire.

To a very large extent, depression seems a matter of wanting the things we used to need.

Work will minimize the worries of all people except those who worry because they have to work.

The people who talk most about law and order are those who expect to lay down the law and give the orders.

If money would permit, the removal of the ditches which create a menace on the highways of the province would be a worthwhile undertaking, providing as it would employment in an operation in which it is likely a good portion of the expense would be in manual labor. For some years this has been a project held before the eyes of the Department of Highways as essential to the safest operation of motorcars on the roadways. At various times the press has promoted this action but with other problems in the way the time did not seem opportune.

The summer of 1933 will probably go down as the windiest on record. Have you noticed how persistently the high winds have blown from day to day, mostly they have been hot winds, sometimes cool—but always winds. The present summer must also have made somewhat of a record for electrical storms. Scarcely a day has passed since June 1, without severe electrical storms being reported from somewhere and the damage occasioned by these has been considerable. It is an established fact that the yearly averages in weather conditions always work out about the same and if the coming winter is to uphold this theory we are in for a prolonged season of calm, frosty weather.

Canada is at peace with the world and wants no foreign quarrels transplanted to her soil. Those people who have been trying to organize Fascist and Hitler clubs in this country have been ill-advised. Those who seek our shores for shelter and opportunity are expected to observe our laws and join in the efforts of Canadians to make this a united, peaceful, prosperous land, where all shall have fair play.

Although the results of the provincial elections in Nova Scotia were accepted philosophically by the federal cabinet, and dismissed with the remarks that federal issues were not involved, there is no doubt that the sweeping nature of the Liberal victory came as something of a surprise. Government supporters who had been in touch with the situation had expected a close fight, but were not prepared for such a reversal of fortunes. The Liberals, of course, were jubilant, and Mackenzie King hailed the result as a 'handwriting on the wall' and as evidence of 'the rising tide of Liberalism.' There was considerable comment over the unimportant showing made by the two C.C.F. candidates.

An amendment to the High School Act passed by the legislature recently provides that a fee may be charged to pupils who remain in high schools longer than six years. The fee shall not be higher than the average cost per pupil for education in the high schools where the pupil is attending.

The North York Plowmen's Association will hold their annual plowing match on the farm of Mr. Walter Wood, Yonge St. south, on Wednesday Oct. 18th.

What is held to be perhaps the most important new pledge made by the Liberal leader in the course of the western tour he concluded recently is that if Premier Bennett introduces a reciprocity pact with the United States, the Liberal party will get behind him on it.

You can tell the approach to Easy Street by the easy marks that lie trimmed at the side of the road.

We hear repeated rumors that in the drastic paring down of governmental expenses by which from 10 to 14 millions are to be saved from the sums voted last spring, that the department of agriculture is being asked to take far more than its fair share of the cut. If the proposed saving were to be evenly spread about, the department of agriculture would only have to trim about \$700,000. Instead an attempt is being made, I am told, to cut two millions. The excuse given is that some other departments cannot be reduced at all without lowering the revenue of the country.

It begins to look as though many valuable farm services such as inspection of registered grain fields will either have to be cut off entirely, or the small fee now charged will have to be raised to the point where it will cover all the cost. In either event the farmer will suffer. Why make the farmer the goat?

## NEWTONBROOK

The North York Horticultural Society won first prize at the Canadian National Exhibition, Toronto, for their display of flowers. They will receive a handsome cash prize, also a medal and a silver cup.

## Here and There

Indications point to a fairly early harvest in Western Canada, says a late July weekly crop report of the Canadian Pacific Railway agricultural department. A few points in southern Manitoba, the report added, had already started cutting wheat and barley.

Canada jumped to fourth place in bacon exports to Great Britain last May as compared with sixth place in 1932, behind Denmark, Holland and Poland. Total exports to Great Britain from Canada in May were 5,566,400 lbs. or at the rate of 66,000,000 lbs. per annum.

There were increased retail sales in Canada in May as compared with April and the index number of the Dominion Bureau of Statistics rose from 83.7 to 85.6. Hardware had the best showing, the increase being from 75.8 to 112.3.

A spare blue-clad figure which to thousands of passengers through Vancouver in the past seven years represented a symbol of friendliness in a strange city will no more be seen around the wharves and terminals of the Canadian Pacific railway in the Coast city since Albert Charles Pearsall, terminal passenger agent for the company, died there recently.

With rising prices for wool and a vast Chinese market for wheat caused partly by advantageous monetary exchange, Australia is rising steadily to a greatly improved economic position, declared Warwick Fairfax, managing director of the Sydney Morning Herald, Australia's oldest newspaper, a traveller recently on the Canadian Australasian liner Niagara.

Meeting at a time when the nations of the world were never so much in need of close co-operation economically and politically, the fifth biennial conference of the Institute of Pacific Relations to be held at the Banff Springs Hotel, August 14-28, is regarded as a possible turning point in the affairs of all the nations bordering the Pacific.
