General News and Views

Aurora tax rate has been fixed for the year at 39.5 mills.

Plan now to attend the opening game of the fall lacrosse season at Richmond Hill arena next Monday night when Young Canadians meet the fast Camp Borden Fliers. Ten dollars in cash to holders of the lucky number admission tickets.

Some peculiar bits of phraseology are sometimes seen in the help wanted advertisements as witness the following: "Man wantd to take charge of a cow, who can sing in the choir and pump an organ." —Wanted "A strong horse to do the work of a country minister."

The decision of the Board of Education of Midland to charge all students who attend the High School after six years is only reasonable. There is no excuse why the town, the county or the province should provide the means for students to attend High Schools year after year. The proposed change will meet with general approval. In Orillia the annual fee for such pupils is \$25.

Discussing the subject of unemployment relief, the Forest Free Press relates this story, which is true of every town in the country: "Take the case of two men, John and James. They do the same kind of work and get the same pay: When one has a job, the other has a job. When one is idle, the other is idle. Last summer they had a fair amount of work. James saved \$150.00, and put it in the bank. John bought a radio and some new furniture. In the winter, both are out of work. As James had \$150.00 in the bank, he was not eligible for relief. As John had no money, he was put on relief. In the spring, John and James are both without money, but John has the radio and furniture, while James has nothing." Isn't such a story only too true?

Two little words that make the world run more smoothly, that ease the hard places of life and absorb many of its knocks are "Thank you." The new government of Nova Scotia was not long in putting some of its promised economies into effect. At the first Cabinet meeting, it was decided to reduce the number of liquor commissioners from two to one, the one commissioner left to receive a salary of \$5,000 as against two salaries of \$10,000 and \$6,000 respectively under the late government. Further to deputy ministerships, those of health and agriculture, were abolished. By these two measures alone the government saves \$25,000.

The publication of the 1933 edition of the Canada Year Book is announced by the General Statistics Branch of the Dominion Bureau of Statistics. The Canada Year Book is the official statistical annual of the country and contains a thoroughly up-to-date account of the natural resources of the Dominion and their development, the history of the country, its institutions its demography, the different branches of production, trade, transportation, finance, education, etc.—in brief a comprehensive study within the limits of a single volume of the social and economic condition of the Dominion. This new edition has been thoroughly revised throughout and includes in all its chapters the latest information available up to the date of going to press.

After eighty-six years of successful operation, the Esqueping Agricultural Society has decided to abandon the annual fall fair held at Georgetown. Burlington fair also has been discontinued. Of the six fairs operating in Halton county until recent years, only those in Milton and Acton now remain. Keeping up rural fairs has been found increasingly difficult, several others having been abandoned this year.
