# WEEKLY NEWS NOTES FROM THE UNIONVILLE DISTRICT

What Counts

isn't the clothes you wear, And it isn't the skill of your good right hand which makes folks

really care. It's the smile on your face and the light of your eye and the bur-

dens that you bear.

It's how do you live and neighbor, and how do you work and play, It's how do you say "Good Morning" to the people along the way. And it's how do you face your just criticism. "Tell the members are gray.

# A Banner Year

(An open letter to the public)

For a number of years efforts have been made without success to induce manufacturers to locate in Richmond Hill. There are a number of people in this town, who have an objection to industries, claiming for reasons it is difficult to understand, that Richmond Hill should be exclusively residential.

We believe, however, the more industries and the more men and young women in steady local employment, the better for the community at large.

With this idea in mind two years since we ventured a small industry,, manufacturing knitted garments, and in spite of acknowledged two deplorable depression years, we have consistantly operated, gradually adding new machinery, and increasing our staff, all local labor, from three to eighteen.

We have concentrated on first class garments, and have merited a market, in Vancouver, Winnipeg, Montreal, Toronto, London, Ottawa, Windsor, St. Thomas, Newmark-

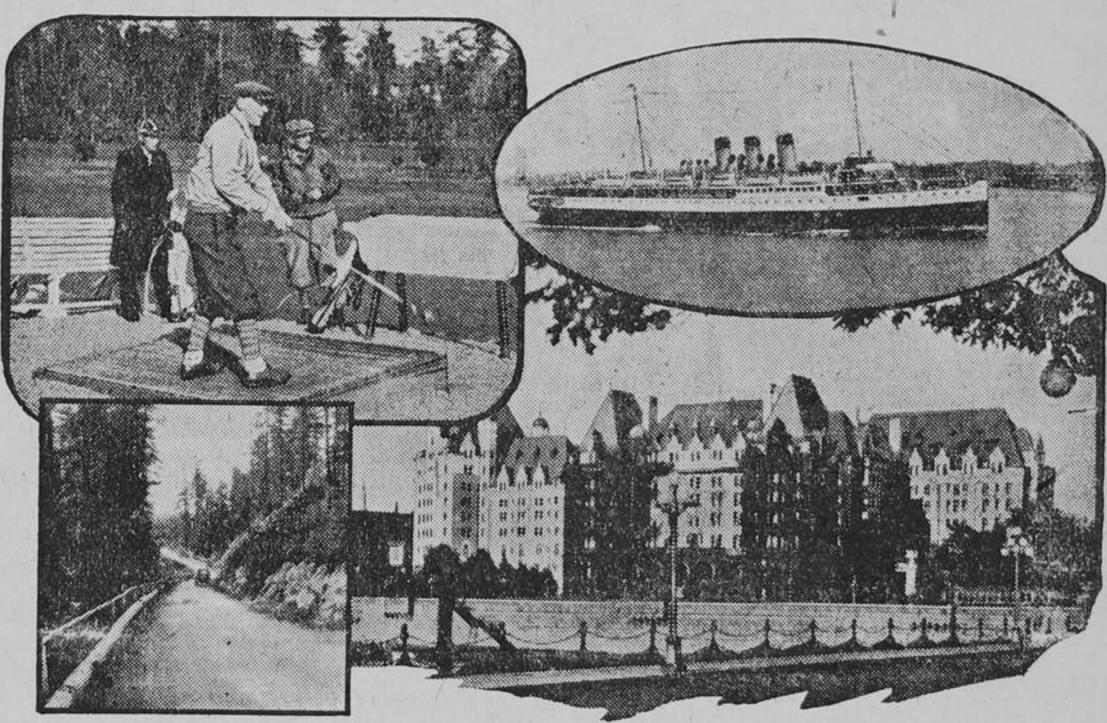

et and other towns and cities.

We shall shortly be running our factory for Spring, and are already booking orders for delivery next fall, so that we are with other manufacturers optimistic in regard to changing conditions, and progress during the coming year. Our produce will be offered and shown in the windows of local merchants, and being made here, freight charges and incidental expenses attached thereto will be avoided, which advantage will be given to the local buying public. Your inspection is invited irrespective of purchase, and anyone desirous or interested, we would appreciate a visit to the factory, when the machines are running, and garments in process of making, and would suggest if you will give your collective support in this direction, the more employment we shall be able to give, thus endeavouring to make for Richmond Hill a banner and prosperous year for 1934.

Yours truly,

W. DAVIES
