BUSINESS FIRMS WILLING TO WORK WITH YOU FOR COMMUNITY PROGRESS

How's business? Is it improving? Did you ever stop to ask the question "What am I doing to make it better?" Everyone can help along local prosperity and local progress by supporting local institutions, local events and local business firms. By patronizing local merchants and business men you will be helping to make business come back to something like a normal level. Do your part to keep the local community going and you will be helping not only the community but yourself as well.

The Richmond Hill district is admirably situated. It is well served by local improvements and the various public utilities which go to make life in this community attractive. Be a booster for your home community. Every new resident is a valuable local asset and their added purchasing power helps along in the community prosperity. Let each and every citizen be a personal missionary in the coming year and resolve to preach the attractions and advantages of living in the Richmond Hill district. Boost your home community. We need boosters, not knockers. Tell the world about our good points; there are always plenty willing to broadcast our shortcomings.

In every community, regardless of size or location, there are a number of business firms worthy of the name of boosters. The firms represented in the advertising columns of The Liberal have demonstrated that they want to be included in the Boosters class. They aim to give you the best value for your money, the best possible service and you can depend on their co-operation for community betterment. Patronize these firms which are willing to put their shoulder to the wheel with you for a bigger and better year for the Richmond Hill district in 1934.
