

WEEKLY NEWS NOTES FROM THE UNIONVILLE DISTRICT

—TREASURE—

All summer long I've stored away
In crannies of my heart,
Wind gathered meadows, grass-hung
creek,
Gay leaves and sun at hide-and-seek
Rain lilt to the dark.

This wintry day I turn the key,
My shining treasures bring
Close to the firelight-how they glow—
There is no barren earth nor snow—
Here in my heart is spring.

—E. L. Squires.

—WINTER PICTURES—

Nature must be weary, so it seems,
Of winter's sombre sketches on the
snow.
For in the quiet night—or maybe
when she dreams,
She paints upon the shining window
panes,
Ferns, flowers and leaves,
And trees in shady lanes,
Then not content with these pale
wraiths in silver rims,
She floods them through with morn-
ing's feble winter beams.

The news of the death of Mrs. E. C. Cook, beloved daughter of Mr. and Mrs. Jas. Camplin and wife of Rev. E. C. Cook of Cannington was received with deepest regret by her many friends in this community who sympathize most sincerely with the bereaved family.

Mrs. Cook was actively engaged in many departments of Church work and her influence will be sorely missed, especially amongst the young people and in connection with the choir of which she was the leader. The largely attended funeral service and the many floral offerings signified in a small part the esteem in which Mrs. Cook was held. The service was held at Cannington United Church and interment was made in Mount Pleasant Cemetery, Toronto. She is survived by her husband, a daughter, Eileen, her parents, Mr. and Mrs. Jas. Camplin, and a brother A. J. Camplin. "God writes in characters too grand for our short sight to understand; We catch the broken strokes, and try to fathom all the mystery

ONTARIO'S LEGISLATURE

"The more you look into these Liquor Board Accounts the worse they become" was the comment to-day of Dr. Geo. A. McQuibban, Liberal House Leader in the Ontario Legislature. The failure of the Government to answer his charge that the administration had raided the Liquor Control Board in 1932 for its entire surplus cash of \$2,400,000 and forced the Board to borrow at least \$835,876 from the Banks to help the Government to create a favorable surplus was held by the Liberal House Leader to be the most significant feature of the second week of the present Session now gathering momentum.

"I see the Premier's surplus for the past year is steadily rising, and has now reached the \$1,000,000 mark" said Dr. McQuibban. "Of course the little matter of \$38,000,000 or more added to the capital debt of the Province during the year is a mere bagatelle and not worth mentioning in comparison to the \$1,000,000 surplus." "The huge debt this government has piled up and is trying to hide will alone defeat them at the coming election," asserted Dr. McQuibban. "This Government has increased the capital debt of this Province more than \$319,000,000 in ten years. That is the main thing they have to explain."

The surreptitious manner in which, he claims, this "raid on surplus cash in excess of the large annual profits from the sale of intoxicants was made and covered up was cited by the Liberal House Leader as only a sample of the financial juggling of the administration to create fictitious pre-election surpluses.

Conservatives who expected a dramatic attack in the House by W. E. N. Sinclair upon his colleagues following his deposition as House Leader were disappointed this week when he attacked the administration and declared that a change of Government was badly needed.

I. D. RAMER & SON

"I've cut my prices to the limit," insisted Brown. "They're so low now that when burglars broke into my shop the other night they went away without taking anything. They decided that it would be cheaper to come back and buy the stuff in the morning."

TRY TO KEEP UP WITH THE NEW FORD V-8

A ride in the new Ford V-8 is an experience you'll want to duplicate again and again. Its smoothness, acceleration and speed have been "stepped up." Its hill-climbing ability is the most amazing thing we've ever seen. Seats are softer, springs more flexible. It is the most desirable, most economical Ford car ever built.

FORD has slashed the price tag on the V-8 engine. Has put the cost figures for V-8 operation and upkeep on the toboggan. Of the six other V-types sold in this country the lowest price tag is \$4,000. Ford V-8 prices start as low as \$685.00 at the factory. Ford V-8 performance starts at the top. If you have any question about that, try to keep up with a Ford V-8 when its driver is in a hurry.

New Gas and Oil Economy. The Ford V-8 for 1934 has a new Dual Carburetor and new Dual Intake Manifold which help to make the car more powerful, easier to start and smoother running in cold weather and much more economical with gas.

Windshield Opens. There's nothing to obstruct the view in this new built-in system of ventilation. Drafts are eliminated and the windshield will not fog in cold weather. In warm weather plenty of fresh air is assured, because the windshield, as well as the cowl ventilator, can be opened.

We want every man and woman to see this beautiful new Ford—to ride in it and drive it. It is the one positive way of showing you which car gives the most for your money. Please phone or call today.
