YORK COUNTY JUNIOR FARMERS' & JUNIOR INSTITUTES PROGRAM COMPETITION
On Friday evening next, March 2nd, one of the finest events of the year, put on by the York County Junior boys and girls, will be held at Pickering College, Newmarket, in the form of a musical speaking competition. Five of the active district clubs will be competing, namely, Mount Albert, Nobleton, Victoria Square, Unionville and Vellore. The Competition is made up of the following classes in which each Club may make one entry; chorus; quartette; public speaking; instrumental number; piano; instrumental number; stringed instrument; vocal number. This Competition brings out the finest talent in the whole County. It is a mixed program put on by high class talent. The musical numbers will be judged by Miss Emily Tedd and Miss Crawford of the Department of Education, Toronto, and constructive comments will be given by the judges when awards are announced. The only prize in the Competition is a shield donated to the Club winning the greatest number of points. In 1933 Unionville Junior Farmers won this shield. There is no set charge. A silver collection will be taken to help defray expenses. Don't forget the date, Friday, Mar. 2nd, at 8 p. m., the place, Pickering College Auditorium, Newmarket. Everybody welcome.

"Here, boy," said the wealthy motorist, "I want some gas, and please get a move on! You'll never get anywhere in the world unless you push. Push is essential. When I was young I pushed and that got me where I am."

"Well," replied the boy, "we ain't got a drop of gas in the place, so you'll have to push again!"

The regular monthly meeting of St. John's W.A. will meet on Thursday, March 1st, at the home of Mrs. Wm. Capell, Oak Ridges. Miss Jean Nicholas of Toronto was the week-end guest of Miss Helen Burnett. On Monday evening, Feb. 26th, the three young people's societies of the Temperanceville circuit held a joint skating party on the Aurora rink. An exciting and interesting game of hockey was played between Temperanceville and Vondorf, the score being 1-1. The line-up for Temperanceville was as follows: Messrs. Aubrey Lloyd, goal keeper; Wallace Jennings, Clifford Rumble, Robert Ball, Harry Rumble, George Lloyd. Lunch was served in the school room of the Aurora United Church. Mr. and Mrs. Pickering McQuarrie and family have moved to their new home on the fifth of Vaughan. Don't forget the A.Y.P.A. meeting in the Parish Hall on Monday evening, March 5th. Thornton Browning and Kenneth Brown will have charge. Everybody welcome. Despite the terrible cold weather a goodly number attended the Young People's meeting on Friday evening which was held at the home of Mrs. Robert Brown. The devotional period was conducted by the president, Ruth Jennings. After the business the Assistant Social and Literary Convener, Miss Nora Rumble, took charge, she also took the topic which was on "The Literary Heritage of Ireland." Within a century or so after St. Patrick's Day, Ireland had become famed for its religious and classic scholarship, and had become the source and the training ground for those missionaries of Christian culture who have left such a glorious mark upon both the British Isles and the European continent. The literary heritage of Ireland whilst including much that is great in many realms has its finest flowering in poetry. It was the voice of the Lords of Erin that first brought Irish literature to the attention of the world. Outstanding in the field on modern Irish poetry is the name of Thomas Moore. He was born in Dublin, and was a born song-maker. To-day Moore's Irish melodies are amongst the most precious of the things the world will not willingly let die. Katharine Tynan stands first among the woman poets of modern Ireland. She has written a hundred books, half of which are clever novels dealing with Irish life, but her best work is found in her poetry which is marked by delicate simplicity, touched with a deeply religious feeling, and deals with the common things of life. A most entertaining half hour play "Forget-Me-Nots" was then given. Those taking part in it were, Mildred Ffolliott, Gilbert Ffolliott, Bobbie and Clifford Rumble, and Aubrey Lloyd. The convener was the director, Nora. It is to be congratulated on having such a good program, as this was the first meeting. Lunch was served. The Y.P.S. attendance contest is booming, Clifford's side is just two points ahead. The Y.P.S. this Friday will be in charge of the Citizenship Convener, Harry Rumble, representatives of the Young Canada Movement will be there. This meeting is open to all as it is non-political and non-denominational. Everyone in the community are cordially invited. Mr. George Phillips will be serving a time on jury. Mrs. C. Beynon celebrated her birthday on Tuesday, Feb. 27th.

The manager of the big drapery store was interviewing an applicant for a job. "Are you teetotal?" "Yes." "Good salesman?" "Yes." "Can you tell a good lie?" "Oh, yes." "All right, I'll give you a start." The young man got on famously, until a French girl approached him and stated her requirements in her native tongue. Then he was stumped. A minute or two later he was facing his indignant employer. "This is disgraceful. When I engaged you, you told me you could speak French." "Yes," replied the culprit, "but you also asked me if I could tell a good lie."—The Tatler.

The landlady ushered her new tenant up four flights of stairs and threw open a door. "Well," she said, brightly, "What do you think of it as a whole?" He turned a gloomy face to her. "Well, I suppose it's all right as holes go," he said, "but it's a bedroom I wanted."

NEWS AND INFORMATION FOR THE BUSY FARMER

Huge Market Reported For Ontario Soyabean
Canadian Soyabeans Limited, of Milton, Ont., reports to the Ontario Marketing Board that there is a definite market for at least 250,000 to 300,000 bushels of Ontario-grown soya beans, exclusive of the export demand.

How Much Shall I Seed Per Acre?
The following rates per acre for seeding are general recommendations based on experiments by the Field Husbandry Division of the Dominion Experimental Farms Branch: Oats 2½ bushels, fall and spring wheat 1½ bushels, barley 2 bushels, mixed grain, barley 1 bushel, oats 1 bushel, peas large size 3 bushels, peas small size 2 to 2½ bushels, buckwheat 1½ to 1¾ bushels, corn ½ bushel, potatoes 18 to 20 bushels, mangles 6 to 8 pounds, turnips 3 pounds, rape 3 to 4 pounds.

1934 Plowing Match
Accepting the invitation of York County plowmen, the recent convention of the Ontario Plowmen's Association decided to hold its annual match at Maryvale next October. It was stated that the first plowing match in the York district was held exactly one hundred years ago. The site will be the 550-acre farm, "Maryvale" owned by F. P. O'Connor. Hundreds of plowmen including many with international reputations, will participate in the contests, which will include every class of tractor and team plowing.

Care of the Hen
Natural incubation is still used extensively on the farm, for the hen can do good if she is properly looked after. However, if the hen is to be used for incubation, see that she gets a fair chance. Set several at a time in clean nests, preferably in a separate room or colony house. See that they are free from lice, put feed and water in the pens, and give them well selected eggs. By testing out the unfertile eggs it may be possible to transfer the remainder from three hens to two and return the third to the laying quarters. When the chicks are hatched it may be that one hen can take care of them all. Keep the mother and her brood away from the rest of the flock, in a sanitary coop, on clean ground.

Tobacco Committee
The spread between the price paid for tobacco in the leaf and tobacco from the retailer will be examined by a sub-committee of the Agricultural Committee of the Ontario Legislature now in session. It was pointed out by those requesting the special enquiry that, while raw tobacco prices have maintained a steady downward trend, the only reduction in retail prices has been forced by last year's cut in the excise tax.

Cleaning and Grading Fibre Flax Seed for Export
When cleaning the fibre flax seed for export the greatest care should be taken to see that the seed is not only cleaned up to standard grade but is entirely free from noxious weed seeds. The elimination of broken, shrunken and darkened seeds greatly increases the germination percentage and improves the appearance so that a much better price is received on the export market.

Ontario Pastures
Over twenty-three per cent, or one acre out of every four of the improved lands in Ontario, is in pasture, says Prof. N. J. Thomas of O. A.C. The estimated total returns on pasture in the form of live stock and their products from the month of June to October is approximately \$40,000,000. Of this, \$34,000,000 is derived from dairy produce. Results of experiments have shown that by proper management and improving the fertility of the soil, returns can be increased from 100 to 200 per cent on a very large proportion of pastures.

Abortion in Cattle
It is possible that some farmers are having trouble about this season with cases of bovine infectious abortion in their herds. If so they should write to the Health of Animals Branch, Department of Agriculture, Ottawa, for Bulletin No. 150, N.S., on this subject, which gives the latest information regarding the disease and offers the assistance of the Department in its eradication. All Dominion Experimental Farm herds are now practically free of this dread disease and allied troubles as a result of the application of the blood test and isolation or elimination of reactors as recommended in this bulletin.

Hog Producers Organize
Representative swine raisers from all Ontario counties west of Lennox and Addington met in Toronto recently and undertook the formation of an Ontario Swine Producers' Association. Officials state the organization is purely for the benefit of hog raisers themselves and the organization will be entirely in the hands of the farmers. Aims of the association are to encourage the production of high quality market hogs, to endeavor to stabilize production and marketing through out the year and over periods of years and to promote better marketing conditions. Mr. W.P. Watson, Livestock Branch has been loaned to the association to do organization work. It is planned to hold meetings in each hog producing county for the purpose of forming local associations.
