

Henry Government Brings In Bill For Sale Of Beer

LOCAL OPTION BY-LAW FIRST CARRIED IN RICHMOND HILL IN 1906—NEW LAW MAY MEAN VOTE OF QUESTION HERE

The Henry government having yesterday introduced the long expected legislation providing for the sale of beer by the glass it is now rumored that activity will be started in the many local option centres to have a vote on the question of the sale of beer. It is not yet announced when the new legislation will become effective.

Answering direct questions of Dr. McQuibban, Liberal House Leader, and Hon. H. C. Nixon, Progressive Leader, Premier Henry told the House that the new legislation would recognize the local option rights of present dry centres.

Local Option first carried in Richmond Hill in 1906, the vote being 99 for the by-law and 78 against. A second vote asking repeal of local option was taken in 1909 and was defeated 112 to 93, and a second attempt at repeal in 1912 was decisively defeated by a vote of 126 to 44. Whether or not there will be another vote here following the new legislation is not known but it is rumored that there will be an agitation for a vote in all local option centres.

The introduction of the Beer Bill was a carefully calculated move on the part of the Henry Government to coincide with the general election which is sure to come within the next few months. The provision that it should not become effective was plain to a move to try once more to ride into office on the liquor issue. The acquiescence of the opposition forces in the matter has robbed the issue of any campaign importance and is in keeping with the policy of the opposition forces that the liquor question is not and should not be a political issue.

The Opposition members of the Legislature, at a joint conference last evening, went on record as placing upon Premier Henry's Government responsibility for the beer and wine policy introduced in the House.

A statement issued declared that "prohibition is not and should not be made a partisan political issue." After reciting the issues on which the Government's tenure of office is challenged, the statement says:

"These major issues are the ones upon which the electors of the Province of Ontario, in our opinion, decide to pass judgment in the coming general election.

"We are, therefore, under the circumstances, prepared to acquiesce in the measure without discussion, regarding it as a Government responsibility.

This attitude toward the problem was taken, it was explained, in the belief that it offered the only way to remove the liquor question from politics and make it an independent issue.

The view was expressed by some members that under existing conditions it is not possible to promote temperance education throughout Ontario, that the temperance movement has been killed by a Government which reintroduced liquor with the profession that it favored temperance. The hope was expressed that in acquiescing in the measure without discussion and placing responsibility on

the Government, a step might be taken for the divorce of politics and the liquor question. The statement issued was as follows:

"The position of the Opposition of the Ontario Legislature is that prohibition is not and should not be made a partisan political issue. This discredited Government, clinging to office by usurpation of power for a fifth year and on the eve of a general election, is now presenting a measure obviously in an attempt to make liquor once again the major issue before the electors.

"If further evidence of this were wanted it is afforded by the repeated announcements of Premier Henry that he would never introduce a measure of this nature.

"Our responsibility of the people of Ontario is such that we are determined to hold the Henry Government to a defense of its record of maladministration, increased debt and taxation, mismanagement of our great public utility owned Hydro-Electric system, and dissipation of our natural resources.

"These major issues are the ones upon which the electors of the Province of Ontario, in our opinion, desire to pass judgment in the coming general election.

"We are, therefore, under the circumstances, prepared to acquiesce in the measure without discussion, regarding it as a Government responsibility."

TO SEEK CAPTAIN KIDD'S TREASURE

A company has been formed in Victoria, British Columbia, with a capital of \$150,000 to seek for the treasure of the pirate Captain Kidd supposed to be buried at Oak Island, Nova Scotia, states the Industrial Department of the Canadian National Railways. While it is doubtful whether Captain Kidd ever went so far north, it is known that other pirates often visited the neighborhood. Previous efforts to recover pirate treasure from Oak Island have not met with success, owing, it is said, to water from the sea flowing by a channel over the actual spot where the treasure is believed to be buried.

MASTER CHICK STARTER

Chicks must be well started if they are to reach the profit goal. Demand a chick starter that can be depended on for results. Sales of Master Chick Starter have mounted steadily—because it builds chicks into strong, growthy birds with a well-rounded development of body, frame and feathers. Here are some definite reasons why you can depend on Master Chick Starter to get results:

- Because it is built with a grain base—a variety of choice whole grains. This is in line with the most reliable, up-to-date information on the science of poultry feeding.
- Because it contains a balance of high-grade proteins—with pure buttermilk powder as the main source.
- Because an abundance of the essential Vitamin D is supplied from the finest Cod Liver Oil obtainable—Nogco XX, thoroughly tested for vitamin content.
- Because Master Chick Starter is specially processed to secure a granular texture which makes it highly palatable and digestible for chicks.
