WHAT MAKES A TOWN ?

A prosperous population which demands a community centre where may be established business, educational, religious and entertainment facilities. Where these flourish and are active it is safe to surmise that the people of that section realize and appreciate the value to them of such a centre.

What Maintains It ?

The towns are largely maintained by the surrounding districts. But the organization, the direction, and to a great measure the upkeep, of the institution in such towns are in the hands of the business interests, together with those directly and indirectly connected therewith. Without the active business and professional men to supervise and govern these public institutions and undertakings, no town could thrive.

Who Is Mainly Affected ?

Every citizen either in or about town should be concerned in seeing to it that they do their part in carrying on any good cause which may be promoted, either by financial or active support. Only in this way will any town prosper and develop as it should.

Publicity is Required

In promotion work your local paper takes the leading part. It is ever the champion of worthy causes and philanthropic and patriotic undertakings. But to function properly, and fully carry out its natural prerogatives, it must have the financial support of the community it serves. When needing advertising or printed matter, always first think of
