MASTER CHICK STARTER

Chicks must be well started if they are to reach the profit goal. Demand a chick starter that can be depended on for results. Sales of Master Chick Starter have mounted steadily—because it builds chicks into strong, growthy birds with a well-rounded development of body, frame and feathers. Here are some definite reasons why you can depend on Master Chick Starter to get results:

- Because it is built with a grain base—a variety of choice whole grains. This is in line with the most reliable, up-to-date information on the science of poultry feeding.
- Because it contains a balance of high-grade proteins—with pure buttermilk powder as the main source.
- Because an abundance of the essential Vitamin D is supplied from the finest Cod Liver Oil obtainable—Nogco XX, thoroughly tested for vitamin content.
- Because Master Chick Starter is specially processed to secure a granular texture which makes it highly palatable and digestible for chicks.
