Clean Up or Have Smash Up Says Morgan Baker Liberal Candidate in North York.

Calm Reasoned Discussion of Public Issues by Morgan Baker Attracts Widespread Support of His Candidature

Morgan Baker, the Liberal candidate in North York, was given a rousing and enthusiastic reception as he held the first meeting of his campaign in Vandorf Community Hall last Friday evening. Opening the campaign in his home township which he served for many years as Reeve, Mr. Baker was among friends of many years standing, and from the tenor of the meeting it was evident that the Liberal candidate enjoys to a very large degree the confidence and utmost respect of those who know him best. Herman Kidd, reeve of Whitechurch, acted as chairman and stated that while he had never before been actively engaged in politics having devoted himself to municipal affairs he felt that at the present time conditions were so serious that it was the duty of every public man irrespective of politics to take a stand to demand an end to the reign of reckless extravagance at Queen's Park. J. Harry Naughton, president of the North York Liberal Association, urged the electors to carefully examine the issues of the campaign and vote in the best interests of the province, the Dominion and the Empire, and declared that he was confident if the electors would do this Morgan Baker would be the next member for North York.

Col. W. P. Mulock recalled the extravagant promises of R. B. Bennett which had misled the people in 1930. We were told that tariffs would not be allowed to be used to exploit the people. If the people have not been exploited under the Bennett tariffs will you tell me what the Stevens committee at Ottawa is doing to-day, asked Col. Mulock amid applause. The speaker appealed for the introduction of policies which will restore to the primary producers their lost purchasing power. The Bennett government at Ottawa like the Henry administration in Queen's Park had been responsible for tremendous increases in the public debt. Dealing with the milk question Col. Mulock said that an investigation was held but the committee has risen and reported progress and nothing more was done about it. He suggested that there should be inspection under government auspices of milk interests and milk weighing in dairies so the farmer would have proper protection.

Col. Mulock charged that there had been an attempt to disfranchise Toronto unemployed men at Kingsley farm hostel at Vandorf. "It was brought to my attention some time ago that men at a city hostel in Toronto were being left off the voters' lists. I took it up, and the names of these men were put on the list.

"Mr. Crawford, clerk of the township, who is present to-night, received a telephone message, supposedly on behalf of the superintendent of the farm, that any unemployed men at Kingsley farm here at Vandorf who had been placed on the list were to be struck off." "Yes, that's right," said Mr. Crawford.

"Mr. Tiffin, head of the hostel, is also in the audience. Is it correct that he did not himself or authorize anyone else to take that action. "That's correct," was Mr. Tiffin's answer.

"We must have a clean up or we will have a smash up," said Morgan Baker, the candidate who won the unanimous approval of his listeners with his fair, clear and reasoned discussion of public affairs. In his criticism of the Henry cabinet Mr. Baker made it clear that his denunciation was not levelled at members of the conservative party. I have warm friends who have been members of the conservative party and I know the actions of this Henry cabinet have been as distasteful and unrepresentative of them as of myself or the Liberal party. The speaker made it abundantly clear that if elected nothing short of a thorough clean up and reversal of policy would satisfy him. It must be done, he said. Our farms and our homes are at stake. The Henry cabinet have added to our provincial debt until now it stands at over \$600,000,000. Ladies and gentlemen, said Mr. Baker, this is a hidden mortgage on your farm and your home. If it is allowed to go on, a day of reckoning is coming and in all seriousness I declare that if you do not now give the Liberal party a mandate to go in and clean up this mess that there will be a smash up. Those who have held office have plundered the taxpayers of Ontario with such improvident deals as the Abitibi when the people of this province witnessed the disgusting spectacle of those in high places benefiting from the business transactions of the province for which the great mass of the people have to

pay. J. C. McRuer, K.C., said that not since the thirties of a hundred years ago had there been the crying need of courageous, fearless and untrammeled men such as Morgan Baker in the legislature. Mr. McRuer in his address reviewed the record of the present administration which in appealing to the people had attempted to throw red herrings into the campaign to divert attention from the real situation of the province. They are attempting by bribery with the people's money in the form of a roads program which will last until after the election to divert attention from their misdeeds and mislead the people into sending them back again to continue their reckless administration. The speaker reviewed the Abitibi transaction in which Hon. George S. Henry was interested, the Dominion Power purchase, the costly and questionable methods of public financing, the liquor toll gate and other features of the blundering record of the Henry cabinet which has been featured by increased debt and taxes for the great mass of the people, while the favored few profited at the public expense.

CAPITOL THEATRE

BERKELEY CHOOSES CHORUS QUEENS BY UNERRING INSTINCT

The Busby Berkeley ensemble beauties in "42nd Street"—"Gold Diggers of 1933" and "Footlight Parade" have long been accepted by Hollywood as the most beautiful girls in all of cinemaland.

When Berkeley had made his final selection of the three hundred beauties he employed in the spectacular ensembles of "Wonder Bar," the First National musical drama now showing at the Capitol Theatre, it was discovered that he had assembled a group of girls thought to be even more beautiful than in the preceding pictures.

How he selects them—what he recognizes as beauty—how he sees it so quickly, has long puzzled the film world. The usual Berkeley "interview" consists of 1500 girls or more lined in even rows on one of the studio stages. In "Wonder Bar" he had six groups of 1500 before he made his final selection.

The girls are instructed to walk in single file across the vast floor, toward Berkeley, and in quick, precise manner he picks those he wants, discarding the others.

He does this under very commonplace circumstances which ordinarily would confuse one regarding the beauty, or lack of it, in a girl. The applicants are usually attired in practice shorts, bathing suits having fallen more or less in the background as means of displaying feminine charms. In most instances the girls are without make-up. Many are wearing sports pajamas. Legs aren't boldly exposed.
