IT'S TIME FOR A CHANGE

History proves that invariably when governments have been allowed to remain in office for long periods of time, abuses have crept into administration and exploitation and corruption and graft have been prevalent. The present regime has been in charge of affairs at Queen's Park since 1923 and the state of public affairs in this province bears out the proven historical fact that in the interests of the people and good government a periodical change of administration is desirable.

The plain cold facts of the financial position of the province are enough to make every serious minded elector stop and think. The figures from the Public Accounts of the province show that the debt of this province has been increasing at the rate of \$80,000.00 per day since Mr. Henry assumed control and to-day it has reached the alarming figure of \$610,000,000.00. This terrific debt addition has gone on abreast with increases in taxation which have placed on the taxpayers a burden which has driven people from their homes and farms. The financial position of Ontario as presented in the official figures of the province is not propaganda of any political party. The cold, hard facts are available to every citizen. The WARNING which we would impress upon every elector is that you CANNOT BORROW YOUR WAY TO SUCCESS. You can place successive mortgages on your home and property but there comes a DAY OF RECKONING. That day of reckoning is near at hand in Ontario. The Henry Government has borrowed and borrowed and spent and spent by the millions, continually adding to the public debt which is a mortgage on the shoulders of every elector in the province. It simply must not go on.

The revelations brought out during the past year and during the campaign by members of the opposition have startled the people of the province of Ontario. THE OPPOSITION HAS BUT TOUCHED THE FRINGE IN INVESTIGATING THE RECORD OF THE HENRY CABINET. Once Mitchell F. Hepburn is elected and assumes the high office of premier of this province the administration of the people's affairs will be completely and thoroughly audited and investigated from the inside. THAT IS WHAT THE HENRY CABINET FEARS. Mr. Henry and his supporters are fighting desperately to retain office and one of the main reasons for their desire to retain office is that THEY FEAR AN OPEN INVESTIGATION OF THEIR RECORD BY A NEW ADMINISTRATION. But a new administration IS coming and the administration of the past years will be investigated and the people's rights protected. Mitchell F. Hepburn has the courage to fearlessly carry out that investigation and "let the chips fall where they may."

THIS IS A SERIOUS MOMENT IN THE HISTORY OF THIS PROVINCE. As Morgan Baker, Liberal candidate has often stated during the campaign "it must be a clean-up, or we will have a smash-up." This is no time for playing at old worn out political trickery. It is no time to indulge in the cheap political antics which perhaps fooled the people of a few generations ago but which are as much out of date in the year 1934 as an ox cart on Yonge Street. PEOPLE TO-DAY ARE THINKING AS THEY HAVE NOT BEEN THINKING FOR MANY YEARS and they are not being fooled by the old worn out appeals to partisanship.

The question is, are YOU satisfied? YOU are the judge. Are you satisfied that the Henry Cabinet in its wild extravagance and needless increase in the public debt and taxation deserves the approval of the people of Ontario? Are you satisfied to put YOUR stamp of approval on Mr. Henry's actions in the ABITIBI transaction? Are you satisfied that Mr. Henry whose fortune has been largely made as a result of association with a Milk TRUST has tried to protect the consumer of milk or see that the FARMER gets a fair return for his labor? The record of the past years shows that while the consumer has been PAYING high prices for his milk the FARMER has been selling milk for LESS THAN PRODUCTION COSTS while the big dairies with which Mr. Henry has been associated has been building huge fortunes. Are you satisfied that the Henry Cabinet whose members have held directorships on big financial corporations have been working in the best interests of the people? The record of the government shows that the financial policy has been to pay big interest on loans grabbed up by the big corporations while the taxpayer is asked to PAY AND PAY AND PAY. Are you satisfied to continue paying an army of employees who are given government jobs to help maintain this political machine? Are you satisfied to continue paying exorbitant salaries to the favored friends of Mr. Henry and his cabinet who hold commission positions and soft jobs which can be done by department heads? In a word, are you satisfied to be exploited for the profit and gain of those who dominate the political machine in Queen's Park? If you are, vote for the Henry Cabinet. They make no apology for what they have done. They say what they have done in the past they will do in the future. IF YOU ARE NOT SATISFIED, if you desire a NEW DEAL IN ADMINISTRATION, if you desire to restore good honest government in Ontario your duty is to vote for a change. The only effective way to vote for a change is to vote for the Liberal candidate.

Vote for a new deal. Vote for MORGAN BAKER in North York and for T. HARRY SANDERS, reeve of Scarborough in East York.
