Prize List Maple Flower Show Wednesday, August 22nd

RULES AND REGULATIONS

- This competition is open to all members free of charge and to non members on an entry fee of 10c. for each entry.
- All exhibits must be grown by the exhibitor in their own gardens.
- No professional is allowed to assist exhibitor in staging exhibits.
- Exhibits must not be removed until after the show closes, which will be at 9 p. m. Standard Time.
- No exhibit will be entitled to a prize unless it possesses points of merit and no award will be given to an unworthy exhibit even though it be the only entry in that class.
- Entries Close at 10 p. m., Tuesday, August 21st. (This rule will be strictly enforced).
- All exhibits must be in their place by 12 o'clock noon on the day of the show and all exhibitors must leave show room at the commencement of judging.
- While judges are making decisions no one shall be present except those appointed by the Board of Directors. (No exhibitor to be appointed to accompany judges).
- Such members who are professional in any manner shall be limited to enter in only six classes, but may place a non-competitive display which will be recognized by the judges if worthy of an award.
- Should cups and trophies be awarded in any class they become the property of the exhibitor winning three times, not necessarily successive.
- Not more than one entry from the same garden will be accepted in any class.
- Where a given quantity is called for in the prize list, there must not be more or less than the number called for, the exact number being required in order to qualify.
- An exhibitor wishing to lodge a protest must do so in writing, stating plainly and concisely the cause of protest, and deliver the same to the Secretary or show committee before the close of the show.
- The Judge's decision shall be final in all cases. This relieves the society of any responsibility as to awards.
- All entries in children section free.
- Where blooms are called for all buds must be removed or they will be counted as blooms.

HINTS TO EXHIBITORS

When exhibiting flowers for competition select specimens of good form, with foliage free from blemishes caused by insects, disease or spraying. If an individual bloom is shown it should be as large in size as possible, but if a smaller bloom is of better form and quality, the larger might safely be passed over in making a selection. The stem should be long and stiff with large, clean foliage.

In showing baskets of cut flowers, the colours should be of a harmonious nature. Avoid crowding too many into the container and thereby give a graceful appearance to the basket.

Collection of flowers should include as many varieties of good quality as possible. Care should be exercised that poor blooms be withheld from the display. Numbers do not always make an outstanding display, quality is much to be preferred. Their arrangement is important as a deciding factor, for very often an inferior collection may be made quite attractive by the tastefulness of arrangement. Give each flower the natural effects as though waving its head on high in the flower garden, not crushed down in a vase with too many of a kind to detract from the beauty of an exceptionally good bloom.

When arranging potted plants or collections of the same, avoid crowding. Place the specimens in such a way that the unsightliness of the pots may be covered with the plants own foliage. No inferior plant should be placed in the collection in order to increase the number, only plants with the best form and foliage should be exhibited. If flowering plants are called for, make sure to exhibit the best specimens bearing flowers at time of display.

Gvsonhyla may be used when any other foliage is called for. Entries to be displayed on saucers only when called for.

GAS TAX

An increase of 25 per cent in four years in the average of gasoline taxes paid by motorists in Canada is recorded in figures of the Dominion Bureau of Statistics for 1933 just released.

From 1930 to 1932, the average tax in Canada was 5.44 cents per gallon. This year the average is 6.77 cents per gallon which equals approximately one quarter of the selling price of popular grades in various sections of the Dominion.

Taking a three year average from the Bureau's last official figures covering the total selling value of new cars produced in Canada, at the works, for the period 1930-2, the last available, the average per annum totals \$61,097,512. In the same three-year period motorists—ten per cent of the population—have paid out annually, an average of \$44,420,707 in gas taxes and licenses, or the equivalent of 70 per cent of the former figure, every year.

At the same time, while the gasoline tax has increased by 25 per cent, the selling value of cars at the works has dropped from \$91,776,806 in 1930 to \$88,560,796 and gasoline consumption has declined from over 600 million gallons in 1929 to \$484,323,000 gallons in 1933.

Study of the Bureau's figures show a trend to decline in the consumption of gasoline almost simultaneously with the increase in the taxation of this product which, originally, was imposed to pay for highways but which, now, in most provinces, is being absorbed into revenues to be used for general purposes.

Alarmed at the persistent increase in the taxation, motor executives throughout Canada are indicating to their respective governments that some alleviation will inevitably lead to the more extensive use of automobiles and that this will re-act to the benefit of provincial treasuries.
