## Petition May Be Circulated In Village

Richmond Hill being a local option centre there has been no sale of wine or beer in this town since the change in the law allowing the sale of these beverages by the glass in licensed hotels. Beer is sold in Markham Village, Woodbridge and Bradford. Local option has been in force here for some time having been carried on a straight vote, and a vote to repeal would need only a majority vote, not the three-fifths vote required in some centres.

There are numerous rumors of those who would be found circulating a petition, which if sufficiently signed would set in motion the necessary machinery for a vote of the people on the matter in view of the changed condition of affairs in the province.

There are many who say that Richmond Hill is better off as it is—that there is little or no money available among those who express the greatest wish for beer or wine to buy them too readily. There are others still who say that Richmond Hill having been without even a liquor store is better off morally and otherwise as at present. Some have even spoken out of pure sentiment in the matter, and contend that things should be left as they are.

And of course there is another faction, which holds that Richmond Hill cannot afford to lag behind in this matter—that it will take a considerable amount of money and business out of town instead of encouraging it to come. It is held by this faction that beer and wine by the glass would keep Richmond Hill spenders in Richmond Hill—and would be an added incentive for many from nearby points to come here to trade instead of going elsewhere.

In spite of the rumors as to the circulation of a petition, no one has apparently undertaken that task as yet, or openly stated that they would do so. In fact, to date, the whole matter centres around rumors which appear vague and indefinite so far.

Note on Germany: Uneasy lies the head that wears a Charlie Chaplin mustache.
