Radial Revenue Holds Up Well Despite Times

A Small Increase In Revenue Would
Pay Operating Costs and Capital
Charges

The total revenue earned on the operation of the North Yonge radials in 1934 was \$70,613.39 as compared with a total revenue for the preceding year, 1933, of \$71,932.85. This decrease in revenue of \$1,317.46 is very small as compared to the drop of previous years and this small decrease is looked upon by officials of the line as a very hopeful sign. According to Mr. Tate the assistant manager of the Toronto Transportation Commission the shareholders have no reason to be disappointed or alarmed over the showing of the road. Mr. Tate states that a moderate increase in revenue would not only permit the railway to meet all operating expenses but would contribute materially to meeting the annual fixed charges, which because of the small capital invested in the line, are not large.

The operating loss for the year 1934 was \$1,337.65 which is spread over the areas concerned in the townships of North York, Markham and Vaughan and Richmond Hill Village. While the line showed an operating loss for the year, the existing economic conditions must be taken into consideration, and with a return of better times the small increase in revenue referred to by Mr. Tate should not be too much to expect. Operating expenses have been reduced by economies in operation and with the increase in revenue which will naturally come with improved business conditions the future of the people's North Yonge radial should be brighter.

The month of December 1934 showed an operating profit of \$481.34 compared with an operating profit of \$29.14 in December 1933. January 1935 provided a slump in revenue and the line showed a loss of \$583.48 compared to a loss of \$392.44 in January 1934. Passenger revenue in January of this year was \$5,479.23, a decrease of \$232.00 as compared with the corresponding month a year ago.

Markham Relief Account \$3200 For February

Over three thousand dollars was expended for relief in Markham Township for the month of February. This is considerably higher than for the corresponding month a year ago and commenting on the increasing cost Reeve Padgett at the regular meeting of the Township Council, held at Unionville Monday, expressed deep concern over the mounting costs.

"Where in the world is it going to end," he asked. The relief bill included \$162.48 spent for clothing, \$690.66 for fuel, \$134.42 for medical attention, \$511.11 for provisions, in addition to \$1700.00 expended in cash relief work projects. Markham Township ratepayers must bear one third of this cost, the other two thirds being paid by the government.

Mr. Macklin headed a deputation from Union School Section No. 9, Milliken, asking that their school section be enlarged by the inclusion of additional properties. The deputation pointed out that the assessment of section 9 was small as compared to neighboring sections and there was property which logically should be included in the section. It was hinted that the property owners concerned were not very anxious to change into the Union section and the members of council felt they should hear the case of the property owners concerned before taking any action.

The members of council will confer next Monday with engineer Babcock regarding the remodeling of the Township Hall to accommodate the township offices. The request of two organizations re the use of the hall was laid over for consideration pending decision re alterations.

Accounts were passed as follows: treasurer's office stamps \$15.00; Hospitalization account \$202.25; Findlay Brothers meals for transients \$3.20;
