DO IT TO-DAY
He was going to be all that a mortal could be,
To-morrow;
No one could be kinder or braver than he,
To-morrow;
A friend who was troubled and weary he knew,
Who'd be glad of a lift and who needed it, too,
On him he would call to see what he could do,
To-morrow.
The greatest of workers this man would have been,
To-morrow;
The world would have known him, had he ever seen,
To-morrow;
But the fact is he died and faded from view—
And all he left when living was through
Was a mountain of things he intended to do,
TO-MORROW.

DON'T BE A PUBLIC SPEED ENEMY
(Stirling News-Argus)
Motorists who speed through the streets of many Ontario towns are paying for their privilege. Convictions have been made and the municipal coffers swelled with the proceeds from the fines imposed. While the maintenance of a speed trap in a municipality is a poor advertisement for a town, and a practice with which we are not in favour, there are times when some motorists speed through Stirling at a pace that is extremely dangerous. If a child playing on the sidewalk were to thoughtlessly run out onto the street, nothing short of a miracle would prevent an accident. Motorists should drive with extreme caution on village streets in order to eliminate any chance of a fatal accident. Perhaps a warning or the imposition of a fine on one or two of these speed merchants would put a stop to the practice.
