Markham Township Farmers Protest T. B. Test Area Plan

Continuance of Plan To Work Hardship on Farmers in
Drought Year is Claim — Council to Ask For
Postponement of Action on Project

R. L. Stiver headed a deputation of twenty-five Markham township farmers who appeared before the municipal council at the regular monthly meeting on Tuesday to protest against the plan now under way to make York County a part of a T.B. Test area. Officials for some weeks past have been working in York County testing herds following a petition signed by a majority of the farmers asking that York along with Peel and Ontario counties be made a restricted area. The move to make York a restricted area followed the movement which has been growing in recent years to have all dairy cattle tested to eradicate the danger from tuberculin herds.

Mr. Stiver and the members of the deputation protested that the present tests are unsatisfactory and that moreover so many cattle have been condemned that their replacement in this drought year is working a real hardship on the farming community. Figures recently released by the Agricultural representative at Newmarket showed that approximately 20 per cent of the cattle tested went down under the test. This figure was not considered alarming but in some sections the percentage appears higher than in others. Cases have been cited where entire herds have been condemned and in such cases it was pointed out there is real loss and often hardship for the farmer. There was a lengthy discussion of the subject at the council meeting and it was suggested that there would be families forced on the relief rolls if the present plan is gone

on with. "If herds are taken away, where are the taxes to come from?" was another query put to the municipal fathers.

Reeve G. B. Padget and members of the council while very interested in the information brought by the deputation and in the whole problem pointed out that the municipal council had no responsibility in the matter at all. The farmers by a considerable majority petitioned for the T. B. test area and the work of the test was carried out by authorities entirely outside the municipal council.

Henry Daniels who supported Mr. Stiver in presenting the case of the deputation stated that he thought the members of council should interest themselves in the matter and do something about it as it was a most serious problem for Markham township.

W. J. Spears, another Markham township farmer spoke in support of the T.B. test area and pointed out the many advantages accruing to the farmer from the establishment of such an area.

Mr. Stiver pointed out that many who signed the petition did not understand it and that the whole thing was misrepresented to the farmers. Following the discussion it was agreed that the members of council seek an interview with Premier Hepburn and other provincial authorities to see if the T.B. test could be postponed till some future time owing to the financial position of the farming community following a drought year.

The New Clerk Assumes Duties In Vaughan Twp.

RELIEF COSTS DECLINE

James McDonald, the new clerk and treasurer of Vaughan township, was duly sworn into office and took over the reins of office for the first time at the regular meeting of Vaughan township council on Tuesday. The retiring clerk and treasurer, J. E. McLean, laid down the duties of his office after thirty-eight years of service and his retirement will remove one of the familiar figures in Vaughan municipal life for nearly half a century. In his long years of service Mr. McLean had the proud record of never having missed a council meeting or nomination meeting during his long tenure of office. His successor, Mr. McDonald, is a young man possessed of many excellent qualities and he assumes his new and important duties with the best wishes of the people of Vaughan township and his many friends in neighbouring municipalities.

The destructive work of marauding canines was reflected in five sheep claims which were presented to council. The members of council in every sheep claim are anxious that the offending dogs be identified so that they may be destroyed. It is a recognized fact that a dog, once an offender in worrying sheep is very apt to repeat his attacks on farmers' sheep with costly consequences. With this in view the council several years ago established the practice of paying a reward to anyone shooting a dog caught in the act of worrying sheep.

Relief officer A. V. Orr presented the accounts for the month of August which totalled \$732, which was a reduction of \$276 over the same month in 1935. The declining cost was greeted with satisfaction by members of council as it indicated an improved employment situation which will be a boon to the township treasury in a lessened demand for relief expenditure.

The Ontario Department of Highways advised council that a section of roadway in the township from Kleinburg to Central church had been assumed as a provincial highway.

Markham Taxes Slightly Higher For This Year

Markham township tax rate for township purposes was fixed at the regular meeting of the council on Tuesday and will be 4.5 mills, an increase of half a mill over last year, the county rate will be 11.43 mills compared with 11.1 mills and the township school rate will be 2.6 mills. All told the Markham township taxpayer will pay taxes .82 mills higher than in 1935 and the total assessment of the municipality shows a slight increase of \$14,335.00. The final reading of the rates by law took place after members of council surveyed every avenue of expenditure and pared every estimate as low as possible, consistent with doing the necessary work and maintaining the essential services in the municipality.

Relief accounts for the month of August totalled \$260.33 which is approximately the same as for the corresponding month a year ago. Reeve Padget again reaffirmed the stand of council that in giving relief the township would give according to the Campbell report and no more.

Hospitalization costs for the month of July amounted to \$152.40 and for August \$320.50. A sheep claim of \$11.00 was paid to F. L. Stiver for one sheep killed and one injured. General accounts totalled \$264.70, road foreman's accounts \$971.95 and general road accounts \$1142.82.

It was decided to proceed with the erection of a new concrete bridge on the roadway leading to Richmond Hill near the C.N.R. station.
