RADIAL REVENUE SHOWS INCREASE OVER LAST YEAR

Loss Greater Owing To Heavy Operating Costs of Last Winter

The North Yonge Radials showed an operating profit of \$194.46 for the month of August compared to a profit of \$286.68 in the same month last year. The operating loss on the line for the year to date is \$3,591.96 compared to a loss of \$2,080.37 for the same period in 1935.

Although the line shows an increased loss for the year the passenger revenue throughout the year has shown an increase in every month except June and August. This increase in revenue during the present year is very encouraging as in recent years the trend has been constantly downwards. The upward trend in passenger traffic is taken as an indication that the turn for better times has come and that the future holds brighter prospects for the North Yonge car line. The increased loss for the year thus far despite increasing revenue is due to the extremely high operating costs of the early months of the year when the severe winter weather made heavy additions to expense for snow removal.

Passenger revenue on the line which at one time in the early period of operation reached as high as \$9,000 per month gradually lessened during the past four years and reached as low as \$5,000.

This year for the first time in some years almost every month shows a passenger revenue increase above that of the corresponding month of last year.

Passenger revenue for the first 8 months of the past two years has been as follows:

| | 1935 | 1936 |
|----------|------------|------------|
| January | \$5,479.23 | \$5,504.13 |
| February | 5,027.34 | 5,442.01 |
| March | 5,672.24 | 5,727.00 |
| April | 5,496.40 | 5,551.39 |
| May | 5,835.80 | 6,168.04 |
| June | 5,812.79 | 5,799.22 |
| July | 5,505.35 | 5,558.62 |
| August | 5,887.92 | 5,830.03 |

Saigeon, Maple, Ont., is to be congratulated upon being awarded "First Prize" at the Canadian National Exhibition for a landscape done in water color. Miss Jackson's work in Art is considered quite remarkable and special mention of it was given over the radio, this exhibit having been purchased by an outstanding Toronto Artist.

CHILDREN'S AID SOCIETY TAG DAY SAT'Y, OCT. 17th

The Children's Aid Society of York County proposes to hold its Membership Drive and first annual tag day on October 17th.

The Society was officially incorporated under its new Charter on January 16th, 1935. Its purposes and objects are to protect children from cruelty and neglect on the part of the parents, guardians, or others; to care for and control neglected children; to improve the home life of children; to secure foster homes for children who have no homes, or proper homes of their own, and to discharge the functions of a Children's Aid Society under the Children's Protection Act.

The Board of Directors consists of: Mrs. Harold F. Ritchie, President, Forest Hill Village; Doctor H. M. Cooke, First Vice-President, Forest Hill Village; Mrs. Howard Cane, Vice-President, Newmarket; Mr. J. Scott McNair, Vice-President, Elgin Mills; Mrs. George Smith, Vice-President, New Toronto; Mrs. W. J. Noble, Vice-President, Mount Dennis; Mr. A. A. Johnson, Vice-President, Leaside; Mr. A. V. Nolan, Vice-President, Stouffville; Mr. W. J. O'Brien, Treasurer, York Township; Mrs. D. B. Sinclair, Forest Hill Village; Mr. R. L. Stiver, Unionville; Mr. K. B. MacLaren, York Township; Mrs. John Mills, Baby Point; Miss Lillian Holborne, Sutton West; Mrs. Milton J. Cork, Forest Hill Village; Mr. H. W. Sanders, Stouffville; Mr. M. J. Murphy, Mimico; Mrs. E. E. Reece, Scarborough; Mr. John Westren, Forest Hill Village; Mr. W. T. Kenney, Scarborough; Warden J. O. Little, County Council Representative, Newmarket; Mr. R. Clark, County Council Representative, Leaside; Mr. W. J. Bennett, County Council Representative, New Toronto.

Since the reorganization of the Society, efforts have been made to understand the personality of the children under care; to keep in touch with them in order that they may be helped to become happy, useful, well adjusted individuals. Foster homes have a large part to play in the work of the Society. In their choice have been considered the opportunities they offer for the physical, mental and spiritual development of the children involved. Efforts have been made to safeguard the health of the children through physical and dental examinations, and corrective treatment when necessary. Thought is given, also, to educational and recreational opportunities for the children for whom the Society is responsible.

452 children are under the care and supervision of the Society in foster homes. If they are to be guided and helped to become citizens of whom York County may justifiably be proud, the Society needs the interest and support of every citizen of York County. The homes of 335 children are also under supervision because of reported neglect. The Society is trying to protect these children by improving their home conditions. 121 cases under the Unmarried Parents Act also require much time in the effort to secure settlement from the father of the child, and to help the mother plan for her baby and herself.

The Children's Aid Society of York County is the only County-wide social organization, working exclusively for the welfare of the children of York County. They are our children, and as such, surely they are worthy of our support. The County Council has dealt generously with the Society in reference to its budget. There are, however, many expenses which are not chargeable to the County. These must be met out of private donations. The Warden of the County of York is wholeheartedly behind this effort to raise funds, and has appealed to the various municipalities for their co-operation in the Society's drive for membership.

Buy a tag, or better still, become a member of the Society at the membership fee of \$1.00, in the interest of 787 children who need the services the Society has to offer.

Alsike and Wheat Two of Best Paying Crops in this District.

Reciprocity Pact Boost Price of Alsike — Keen Demand
For Good Malting Barley — About Average
Acreage Fall Wheat Sown

The reciprocity pact entered into by the federal government following the last general election has brought many advantages to the Canadian farmer, one of which is the greatly improved price for alsike. By the reciprocity pact the duty on alsike going into the U.S.A. was reduced from \$4.80 to \$2.40 per bushel with the result that to-day there is a steady demand in the States for Canadian seed for the first time in six years. Alsike throughout York County was a good crop this year and farmers have been receiving from \$6.50 to \$8.00 per bushel for their seed.

The first alfalfa crop was practically a failure as far as seed was concerned but the second crop which is now being harvested is more promising. United States also offers a ready market for alfalfa seed and if the yield is at all good should provide a profitable crop for the farmers who have it.

The red clover seed crop throughout this district was very short and a small crop although there is the occasional farmer who reports a fair yield.

Farmers are receiving in the neighborhood of \$1.00 per bushel for their wheat which this year was a good crop. The wheat situation in Canada is much improved and Europe has been buying in large quantities. Italy recently purchased two million bushels and experts estimate now that this year Canada's wheat carry-over will be wiped out and our grain stock reduced to normal. About the average amount of fall wheat has been sown in townships in this district and the recent rains have brought it on quickly.

A survey of the district shows that the barley crop of this year was not as good as two years ago owing to the severe drought although

there have been some excellent yields reported. On the whole the barley is lighter and somewhat underweight. Farmers are receiving from 85c. to \$1.00 per bushel for malting barley, with American Malsters keen buyers of quality grain.

Oats in York County as a crop were the poorest in 20 years and as a cash crop there are practically none to be placed on the market. From several farmers in different sections interviewed it is gleaned that of all the varieties the "Early Alaska" stood the drought best and if there is any choice gave the best yield this year.
