HEAT REGULATOR

"The Proof of the Pudding is in the Eating."

Read these honest-to-goodness testimonials. See what users say about our Heat Regulator. That's the information you want to know — what the USER thinks. These are but a few of the many recommendations on file from satisfied owners.

"I feel that if people only realized the great convenience of a Thermostatic Regulator and the very moderate cost of the one sold by your company you would have more orders than you could take care of."

S. R. R., Hamilton Ontario.
 "I am well pleased... We now get even temperature night and day without any worry about looking after drafts... I am quite sure it has meant a considerable saving in fuel... It is certainly a cheap investment."

G. S. W., Oshawa, Ont.
 "My wife was insisting that I get a blower, which I did. But we had to take it out and installed your Regulator in its place. In my opinion it is a better contrivance than the blower."

N. O. H., Peterborough, Ontario.
 You will be astonished at its low cost.. It maintains an even temperature day and night.

Gordon replied to the address in happy terms thanking the friends for the lovely gifts and expressing a desire to entertain their friends in the near future. The following is the address: "To Mary and Gordon:—
 May this night remain in the memory of everyone present who have gathered together to honour two of their best friends of this community. We congratulate you, Mary and Gordon, upon your recent marriage. May your journey on the seas of matrimony be a safe one. It is only natural when one embarks on a long cruise that they meet the odd storm, rough days, calm days, and many other things. We hope yours will be free from any unfortunate mishap. We all remember, or most of us do, the days when you were younger, then you were just "two kids" carefree and out for lots of fun. But now things have changed immensely. You are two people united by holy matrimony. So to show our high esteem we have gathered together to present to you these gifts.
 Signed on behalf of the Community."
