THORNHILL

St. Luke's Roman Catholic Church will hold a Euchre and Dance in Findlay's Hall on Dec. 11th. Everybody welcome.

Miss Ruth Patton, Centre St., is spending this week with her uncle at Bluevale.

Do not forget the Bazaar and Supper in the United Church on Saturday, Nov. 28th.

The members of the A.Y.P.A. held an amateur night on Tuesday evening in the Parish Hall. They are practising for their play "Sis Perkins" which is one of the coming events.

The Sunday School of Trinity Anglican Church are holding their Xmas Tree and Concert on Tuesday, December 30th in the Parish Hall.

The Men's Curling Club held their annual meeting in Morton's Garage last Friday night. After the business of the year had been dispensed with the following were elected to office for 1937: President, W. Ball; Secretary, S. Findlay; Treas., G. Fuller.

The Women's Institute met last Thursday afternoon at the home of Mrs. Holmes, North Yonge St. The roll call was answered by "My favorite Author." Mrs. Mizen gave an interesting paper and Mrs. Hall an account of her trip to New Brunswick. All members joined in Community Singing. Lunch was served by Mrs. Holmes. Assisting hostesses were Mrs. J. Wells and Mrs. Crawford.

The Ladies' Curling Club met last Thursday night at the home of Mrs. Findlay for nomination and election of officers for 1937. A social time was spent, when euchre was played, and Miss Jane Seager was prize winner. Mrs. F. Farr was chosen President, with Mrs. Findlay 1st Vice-Pres., Mrs. Kinneer, Secretary, and Mrs. E. Luesby assistant Sec'y and Treas. The next meeting will be held the beginning of the new year.

A number of members of the United Church have purchased tickets for the Men's Supper in Eaton's College St. on Friday evening at 6.30 when Mr. T. H. Sun, M.A., of China, Hon. N. W. Rowell, K.C. and Rev. Dr. J. C. Cochrane of North Bay will be the speakers.

There will also be a good representation from Thornhill at the "debates" held in Bloor Street United Church on Thursday (to-night).

The Discussion Group met again on Monday night at the Paragon. Interesting and educational topics are chosen for these meetings and all the young people are cordially invited to attend. The next meeting will be held on Tuesday night, December 1st.

The regular monthly meeting of the W.M.S. of the United Church will be held on Tuesday at 3 o'clock in the Sunday School room. Election of officers will take place at this meeting.

A special feature of the Women's Institute Central area Convention held at the Royal York recently was an exhibit of antique quilts. A quilt sent by the Thornhill Branch and owned by Mrs. R. Thompson, Langstaff, won second prize. Congratulations.

A Bridge and Euchre under the auspices of Thornhill Women's Institute will be held in Lawrence Memorial Hall on Monday, November 30th at 8 p.m. Admission 25c.

A. B.—Well, by jove, Jones, how are you? How you have changed?

C. D. But my name isn't Jones, sir.

A. B.—What, is your name changed, too?

PUBLIC SCHOOL CONCERT

Richmond Hill Public School Christmas concert will be held in the Masonic Hall Friday and Saturday, December 4th and 5th. "The Seven Old Ladies of Lavender Town" an operetta in 2 acts will be presented by the senior pupils and there will be dialogues, plays, maypole dances etc. by the junior pupils.

A married man buttonholed another and told him a terrible scandal.

Harry—Don't let this go any further, George.

George—No, certainly not. But how did you happen to hear it?

Harry—Oh, from the wife, of course. She's just like all women—can't keep a secret.

The New Ford Is on Display

The new Ford V-8 cars for 1937 present a number of outstanding features, principal among which are:

Two engine sizes—a brand-new 60 horsepower V-8 making its first bow in the North American motor car market, and the famous 85 horsepower V-8 with a number of important refinements. The car itself is built in only one size with one standard of roomy comfort and modern appearance.

New cable-and-conduit control soft "easy-action" brakes, with "the safety of steel from pedal to wheel."

New body lines in which the "tear drop" form has been used wherever practicable. Headlamps in fender aprons.

In the eleven body types available a de luxe five-passenger club coupe is new. Five body types come either with or without de luxe equipment. Six are with de luxe equipment. There are six colors, four of which are new.

All steel body, including new all-steel top as well as steel structure, steel panels and all-steel floor.

Improved "finger tip" steering, with increased wheel leverage of 18.2 to 1 and worm and roller gear.

Increased comfort, including new quietness of operation.

The new car, according to those who previewed it at the Ford dealer meetings in Windsor and Detroit last week, is the most beautiful Ford ever built. Its sleek lines flow without a break from the smart radiator grille through the new shield-type hood, the new slanting V-type windshield and the smoothly moulded steel top to the graceful reverse curve of the rear quarter. Virtually every visible component of the car reflects the tear drop form.

The interior reveals the same meticulous attention to details. The treatment is modern. Upholstery is pillowed, with wide pleats. Seats are wide, deep and soft-cushioned. The instrument panel is grained, with the dials and engine controls in front of the driver. Starter button is on the dash, the hand brake at the left under the panel, out of the way of front seat passengers.

From a mechanical standpoint the most important development in the new Ford is the 60 horsepower V-8 engine. Although new to this continent, it has been built in England and France for more than a year for Ford cars designed for the European market. There it has been an outstanding success.

The engine was developed primarily to give the motoring public maximum fuel economy. Its production marks an important deviation from the continuous trend during recent years toward higher horsepower and extreme performance. As the engine, clutch and transmission assembly weighs considerably less than the 85 horsepower unit, it permits a lighter car with resulting greater economy.

The new engine is approximately two-thirds the size of the larger unit. Its bore is 2.6 inches, stroke 3.2 inches and piston displacement 136 cubic inches, against 221 cubic inches for the larger engine. Equipped with the 60 horsepower engine, the car's top speed is about 70 miles an hour, comfortable cruising speed 55 to 60 miles an hour.

All the refinements of the big engine are incorporated in the smaller unit—cylinder blocks and crankcase cast integral, cast alloy steel crankshaft, high chrome nickel alloy valves with high tungsten chrome alloy steel valve seat inserts, dual down-draft carburetor, high compression heads, air cleaner, directed-flow crankcase ventilation and new cooling system.

Improvements have been made in the 85 horsepower engine. Engine heat control is substantially improved by the new cooling system. The two water pumps are of higher circulating capacity and are located at the bottom of the cylinder blocks. They are automatically lubricated and self-sealing.

The engines are cushioned at four points in rubber.

Spare wheel and tire are carried inside in all body types. The new body designs permit unusually roomy luggage compartments.

WOODBIDGE DISTRICT NEWS

Service Station Robbed

Service stations seem to be a favorite field for thieves to operate on. The latest one to be entered by the gentry is the Super test Station managed by Herb. Kaiser at No. 7 Highway and 5th Avenue which was attacked on Sunday morning last, entrance being made by smashing the glass in the front door. Articles and goods valued at \$100 was the loot made away with. Officer Sam Ireland was called and will do his best to capture the thieves, although there is very little, if anything, to furnish a clue.

Missionary Service Addressed by Rev. J. D. Cunningham

A special Missionary service was held on Sunday evening at the Presbyterian Church under the auspices of the W.M.S. with Rev. J. D. Cunningham of Richmond Hill in charge who delivered a most stirring and interesting message. The choir rendered a special program of anthems with Bob Young, Jack Nattress and Stanley Harper as soloists. The first anniversary of the ordination of the minister, Rev. J. S. Roe, was the feature of the morning service when Mr. Roe conducted the service fitting the occasion.

United Church Young People's Meeting

Monday night's meeting of the United Church Young People was in charge of Jean McLean and the theme was music in which the compositions of Sir Arthur Sullivan were studied with special reference to his "H.M.S. Pinafore". Other items on the program were, a paper by W. R. Scott, Society Review read by Mrs. Ross Miller, devotional exercises conducted by Mary Bagg and Bessie Nattress, and a music contest directed by Jean McLean.

Christ Church W. A. Meeting

The Mission Study meeting of the Afternoon Branch of Christ Church Women's Auxiliary held at the home of Mrs. H. N. Smith, Pine Street, was well attended with Mrs. J. H. Kidd, Literature Secretary, presiding. The third chapter of the Study Book "Consider Africa" was read by Miss Bessie Wallace which was followed by questions and answers and a general discussion of Africa. Luncheon was served by the hostess assisted by Mrs. Alf. Thompson and Mrs. Ross Livingston.

Kleinburg and Nashville W. I. Entertained by Local Branch

Kleinburg and Nashville Women's Institutes were guests of the local branch at the November meeting at the home of Mrs. E. Willis, Pine Street. The program provided by the visitors included singing by the Kleinburg chorus, a paper by Mrs. Adam Agar, a reading by Mrs. J.

Stevens, and a demonstration on "Posture" by Margaret Watson and Sadie Morning. Lunch was served by the hostess.

Filtering Basin of Robinson Plant Gives Way to Water Pressure

The five acre filtering basin installed by the Robinson Dye Works with ten million gallons caused a pressure too strong for the five foot dyke surrounding the basin and worked its way through the dyke close to the gates. Hours of work with Fred Wolsenholme and Bill Tayles when thirty bags of cement were used proved of no avail, so the gates and let the water flow down the stream that empties into the only thing to do was to open the Humber, a distance south of the Village.
