**VEJLORE**

The Vellore Junior Farmers met in the hall last Tuesday night. The girls' meeting was in charge of Miss M. Watson. Current Events were given by Mrs. S. Jones. Miss S. McNeil gave a short talk on the motto and Miss E. Farr read a piece on St. Patrick and community singing was conducted by Miss M. Watson. The speakers for the boys' meeting were from the Acme Farmers Dairy. They also showed slides concerning the dairy business while one of the men described the pictures. The rest of the evening was spent playing games conducted by men from the Y.M.C.A. in Toronto. After lunch was served the "Vellore Pep" was read by Miss E. Farr and the evening was brought to a close by singing God Save the King. The W.M.S. of St. Paul's Presbyterian Church met at the home of Mrs. Davidson last Thursday afternoon with the president in charge. Mrs. N. Kerr led in prayer. The following items contributed to a well arranged programme: Mrs. S. Jones read a paper on "How does the Resurrection affect us?"; Mrs. J. McNeil a paper on "Meditation for Holy Week"; Miss A. Kerr a paper on "The Prayer Life of Jesus." Mrs. S. Jones sang a solo "An Easter Message." The meeting was closed by singing "Rejoice the Lord is King" and repeating the Apostles Creed. Lunch was served by the hostess and committee.

Relief expenditure in Barrie was \$2,995.49 in the month of February. A total of 452 people were on relief of which 114 are classed as family heads. Of these 73 are classed as employables and 41 as indigents.

**NEWS AND INFORMATION FOR THE BUSY FARMER**

**Seed Cleaning Important**

Many natural and uncontrollable risks must be taken in producing crops. There are, however, many factors that enter into crop production which are controllable. Among these is the preparation of grain for seed. This is a farm job that can usually be done during the five months after threshing in the fall to within one month of seeding in the spring. When cleaning and grading of seed is left until the busy seeding time, the work is sometimes rushed and consequently not so carefully done. Best results are obtained when the capacity of the seed cleaning and grading machines is not overtaxed. Many machines do much better work when they are operated considerably under their commercially rated capacities. It seems to be a good plan to have the work of preparing seed done when the weather is favourable, and at least one month before seeding.

There are three main reasons for cleaning seed, namely, the removal of weed seeds; to retain well developed seeds of high vitality, and to have seed of uniform size and freedom from obstructions. The annual loss due to weed seeds is very great. Where soil moisture becomes more limited, the control of weed growth becomes more essential. Noxious weeds, especially those which are likely to be introduced on farms where they are not yet prevalent, should be removed.

With regard to retaining well developed seeds of high vitality, plump seeds of strong vitality may endure adverse growing conditions because of the stronger seedlings which are supported by the greater food reserves of the well developed seed. Uniformity of seed is important. Uniform seed from awns, hoods, and inert material will run through the drill cups freely. Seed which can be delivered through the drill with the highest degree of regularity is more evenly spaced in the drill rows in the ground and is thus able to compete more effectively with weed growth.

**An Evergreen Windbreak For the Farm**

A farmer who plants a windbreak and shade trees around the farm buildings show foresight, as they will enhance the value and appearance of his farm, and improve living conditions. The foresight is indicated as small trees have to be planted and a number of years will pass before they make an appreciable difference in surroundings. A fine and effective windbreak can be grown in 10 years with the trees that are supplied free by the Ontario Forestry Branch or with cedars taken from the woods.

Evergreens should be planted in permanent locations when small, as it is difficult to transplant successfully trees larger than three to four feet. The trees that are supplied by the Forestry Branch may be planted permanently in the windbreak, or may be placed in nursery lines and cultivated for a few years. The labor of transplanting and the setback in growth that trees have when moved are eliminated if they are planted in the windbreak. They may either be placed on plowed ground and cultivated or spot planted in sod. Cultivation stimulates considerably the growth of small trees and an effective windbreak will be grown more

quickly if the trees are cultivated. There is a space and the trees are more liable to be cultivated if a hoe crop is grown with them the first two years. The advantages of a tree nursery are that the trees are cultivated and it is generally easier to protect the small trees in nursery lines.

Careful consideration should be given to the location of the windbreak, the number of rows, and the spacing of the trees. More than one row makes a much better windbreak than a single row, and usually they will be protected better. Spruce or pine should not be planted closer than 8-12 feet in a single row, but if three or more rows are planted they may be placed 5-6 feet and managed the same as a forest plantation.

Early spring as soon as the frost is out of the ground is the best season to transplant trees in Ontario, and care should be taken to protect the roots from the sun and wind. Application forms for trees and descriptive literature may be secured from the Forestry Branch, Parliament Buildings, Toronto, the Provincial Tree Nurseries at St. Williams, Midhurst and Orono or the County Agricultural Office.

**TESTON**

A group of students from the Toronto Bible School had charge of the Y.P.U. meeting last Sunday evening. It was Missionary night with Frank Robson convenor and after the opening exercises the meeting was turned over to the students, Mr. Orr presiding. The lesson was read by Mr. Reg. Scott. A unique feature was the testimony part. The hymn "I Love to Tell the Story" was sung and after each verse and chorus one of the students testified until four testimonies were given. Reg. Scott was the speaker and gave a very clear and inspiring address on the subject "The Way Out." Anyone lost looks for a way out. We are all lost in sin and Christ is the way out. Said he—"The church will not save you, you cannot save yourself, works will not save nor any other way but through Christ who died to redeem from sin." Mr. Scott pleaded with his hearers to make sure of the better life while it is to-day. Musical selections by Misses Ferguson and Pitts added much to the program of the evening.

Miss Alma McCluskey of Toronto and Mr. Nelson Bowes of Concord were Sunday visitors in Teston.

Mr. and Mrs. Roy Wilson, Beth and Billy, visited with Mr. and Mrs. Cecil Walker on Sunday evening.

Mrs. Scott of Strange visited Mrs. J. Kyle on Sunday and in the evening Mr. and Mrs. R. Gray and little Miss Scott were visitors of Mr. and Mrs. Kyle.

**MAGISTRATE SCORES LOW BANK SALARY**

When passing sentence on bank teller for theft of \$1238 Magistrate Cowan of Toronto scored the small salary paid by the bank to an employee of ten years service. The teller involved was receiving \$850. Defense counsel stated that after deductions for insurance and pension were made the salary amounted to \$15 per week. He also stated that this particular bank clerk at one time played in an orchestra at night earning \$35.00 a week but the bank made him stop. When sentencing the clerk to 12 months in jail the magistrate said "Owing to the fact that he is receiving such a small salary and was tempted greatly, I am not going to send him to the penitentiary." In these days of minimum wage enactments it is high time that the provincial governments set a minimum wage of at least \$1200 a year for employees of any financial institution handling money.

Gavin C. Allan of Lefroy, grain merchant and ex-Reeve of Essa township has been appointed Clerk-Treasurer of Essa succeeding the late W. B. Sloan. The salary of the office is \$1200. There were 17 applicants for the office.

The attitude of goodwill expressed toward the federal government by Hon. G. Howard Ferguson when addressing the Toronto Canadian Club last week is very admirable. There is nothing that is so badly needed in this world to-day as goodwill and of course the appropriate place for to commence practising it is at home.

**MR. AND MRS. GEO. FERGUSON CELEBRATE GOLDEN WEDDING**  
Mr. and Mrs. George Ferguson of King township celebrated their 50th wedding anniversary on March 3rd. They are both in excellent health.

On March 8th the retail price of milk went up in Orillia from 10 to 11 cents.
