

The above shows architects' drawing of the proposed new Richmond Theatre, Richmond Hill. It is proposed to remodel the present hotel building at Yonge and Arnold Streets into two modern stores with four living apartments on the upper floors. The entrance to the theatre which will be constructed at the rear will be on Yonge Street between the stores as shown in drawing. The project is sponsored by a local company, Richmond Theatres Limited, and stock in company is now being offered to the public.

WEEKLY NEWS NOTES FROM THE UNIONVILLE DISTRICT

Once again with the return of the Festival of Easter, the Church of Christ proclaims its faith in the Resurrection of her Lord and shares the joy of His glorious triumph. Through the valley of shame and suffering, out of the grave prepared for Him by His enemies, Christ emerges triumphant in the power of a new life, declaring once and for all that life shall conquer death, that good shall finally triumph over evil, that "Christ shall reign till He hath put all things under His feet."

commencing at 8.30 p.m. Euchre, including a lucky draw for turkey, with special prizes will be on the schedule. A cordial invitation is given to attend. Full particulars in another column.

Sport Notes

By Bunny White

B. A. Oilers Winners in Play-Offs

The B. A. Oilers after absorbing a 9-0 beating in the first play-off game came right back and took Thornhill in the next two games winning the last game 1-0.

The last game was played on ice that was on the soft side making it impossible to play good combination. Thornhill was checked to a standstill by the Oilers, who, after Sayers scored on a pass from Bucky Harris, shot the puck down the ice at every opportunity.

The game ended with a grand free-for-all which was started by Temple and B. Findlay. This fight was brewing all night but didn't get started till the game only had 3 minutes to go.

Two spectators from Richmond Hill who entered the fray were badly knocked about and your reporter on talking to one said he would do it all over again if he ever saw two men taking wallops at a player the size of Bill Buchanan. I take my hat off to him as much as I think it is wrong for spectators to enter fights on a playing field.

Lacrosse

After 2 meetings were called and only having an attendance of nine at one meeting and six at the other, those who are interested in getting an Intermediate team started decided to wait till they can have a lacrosse practice to form their club. There is lots of players available for a team, but they seem afraid to come out to a meeting.

The writer was in conversation with Cal Miller of Maple. Cal says Maple is ready for Town League Lacrosse and wants to get started the first week in June. What about it Managers of the different teams.

GETTING READY FOR CORONATION VISITORS

London, England—like the largest bucket, even the largest city in the world has its capacity.

London, for a little while, protested the fact. But now clerks and shop girls are being told they must vacate their five dollar a week room in Coronation week, to make room for visitors able to pay \$50 or more. The News-Chronicle asks, in bold headlines, where these constant boarders are to go. Nobody seems to care. Two hundred thousand overseas visitors, many more than that from the provinces, pockets weighted with gold, will rest at the bottom of the bucket. Clerks and shop-girls, unburdened by wealth, must go overboard.

Travel agencies report that all the good hotel accommodation has been reserved. At their wits' end to find bedrooms for intending visitors, they mention obscure hotels with single beds at \$11 a night. Or they doubtfully tell of South London boarding houses at \$10 for three nights in a double bed. Flats still can be found, such as the one which must be taken for the month, at \$225 a day. One boarding housekeeper, renting 20 rooms now at \$5 a week each, refused an agent's offer of \$25 each for Coronation week. He expects to double that figure.

In an effort to bring some order out of this mad dash to get rich, the Government has given its blessing, and a small promissory note to the "Coronation Accommodation Committee." This organization hopes to bring together reasonable hosts and guests.

The committee has a squad of 100 inspectors, loaned by the Automobile Association, who will inspect all rooms listed with the Committee. A fee is charged for this, and later if the rooms are rented, the Committee will collect in advance from the guests and deduct five per cent. for expenses, turning the rest over to the landlord. All rooms must include breakfast, and so far, registered charges are from 90 cents a night to \$1250 a week. If the prices are more than the inspectors think proper, then registration is refused.

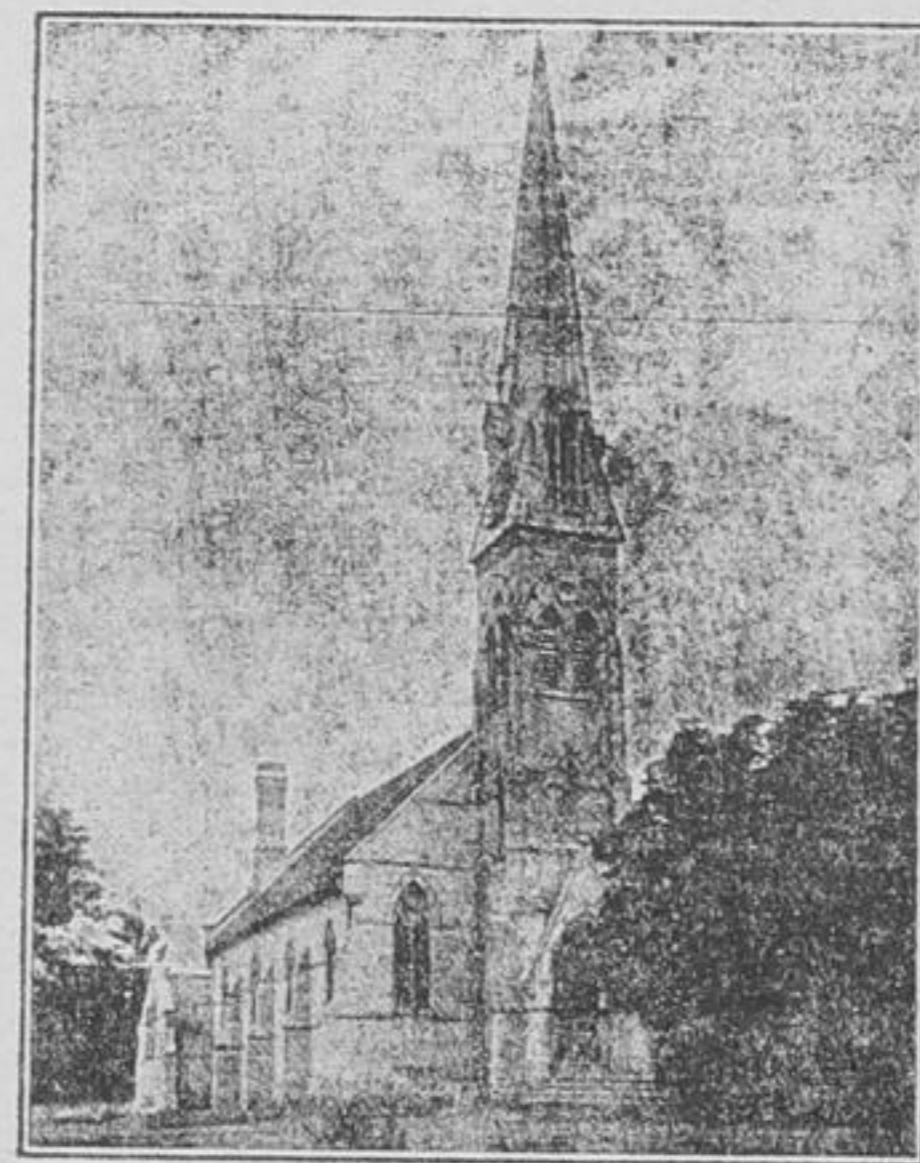

Apart from the obvious protection against profiteers the visitor who seeks rooms from the Committee will be saved much worry and fruitless journeying to and fro. The visitor will be asked to tell, on a form what sort of rooms are wanted, and in what district. Some 3,000 already have applied to the Committee. And the Coronation is still nine weeks distant.

RADIO REPAIRS

If your Radio is not working right give us a call. We have some used sets for sale cheap. We also do Watch and Clock Repairing. Have an Electric Range McClary's \$10.00 if taken at once. TAYLOR'S RADIO SERVICE 127 Yonge St. Richmond Hill Telephone 226

Subject, "Resurrection of the Body—How?" GOOD FRIDAY SERVICES 10 a.m.—The Litany. 8 p.m.—The Story of the Cross will be sung.

A Cordial Welcome to All.

Milk boosts community income

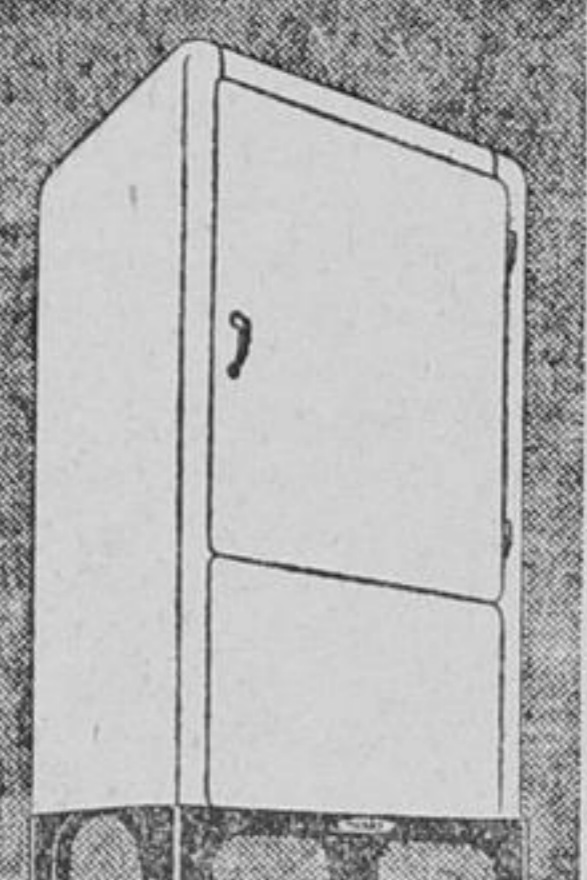

In thousands of communities milk is the biggest single source of income for farmers. Trade operates in these communities largely on milk money. The total milk money going to dairy farmers in Canada annually is nearly \$200,000,000. Milk needs many outlets. Selling milk in bottles provides a market for only 1/3 of the milk produced. Ice cream, butter, cheese, dry and evaporated milk and many by-products must be manufactured and sold daily so that milk money may flow back to the dairy communities week after week without interruption. Since Gail Borden's invention of condensing milk in a vacuum 80 years ago, Borden has pioneered in research work that has meant new uses for milk and new markets for milk producers. Research and efficient merchandising of milk in all its forms are first-hand reasons why Canada is becoming one of the world's greatest producers (as well as consumers) of dairy products.

Royal Theatre, AURORA

Two Shows Daily — 7.30 & 9.30 — Sat. Matinee 2.00 p.m. TO-DAY, THURSDAY, MARCH 25 TWO FEATURES ROBT.
