CROP CONDITIONS VERY PROMISING IN YORK COUNTY

Fall Wheat Headed Out and Haying Started

Favored with ideal weather crop conditions throughout York County are very satisfactory and according to reports received from all sections of the district the outlook for all field crops is very promising. Fall wheat is headed out and gives promise of a bumper yield. Throughout Ontario the condition of spring grain is rated by expert observers as between 91 and 92 per cent of the long time average and in York County this rating is even higher than the provincial average as seeding was earlier here than in many parts of the province.

The acreage of spring grains will be slightly reduced on account of the lateness of the spring and as a result there will be an increased acreage of buckwheat, corn, etc.

Alfalfa is making very rank growth and cutting has already commenced but farmers report that the weather has been poor for "hay making". Timothy and clover are making excellent progress but the yield will be somewhat lighter owing to winter killing of many fields of new seeds.

The late spring with an unusual amount of rainfall delayed planting of early potatoes in many districts, and a number of fields are spotty due to some rotting of seed. Up to the present time growth has been slow, but with warm weather and plenty of soil moisture more rapid development may be expected. It is too early yet to predict when the date of the early potato crop will be ready for market. The acreage of late potatoes will be about the same as last year, but planting will be somewhat later than usual as farmers have been busy trying to get their earlier crops sown.

PROPOSE A FIRE AREA IN TOWNSHIP

Whitchurch Township Council will establish a fire area around Aurora if there are a sufficient number of farmers favorable to the scheme, it was decided on Saturday at the June council meeting. Council passed a resolution to advertise the proposed bylaw and each farmer in the area covered would be assessed for any cost involved any time the brigade rendered assistance in the area to be set up. Under this arrangement only those who stand to benefit from the scheme will have to pay.
