WEEKLY NEWS NOTES FROM THE UNIONVILLE DISTRICT

Your attention is invited to the announcement of the annual picnic of District No. 5 of the Ontario Horticultural Society of which societies in this district are a part. All members and their friends will be made very welcome. The event will be held on Wednesday, July 14th at O. A. C., Guelph. All in attendance will be guests of Dr. Christie, President of the college, for dinner, that will be served at noon in the dining hall. A splendid program will follow then sightseeing of the grounds and picnic supper to conclude the event. Mr. Lionel Godson, our director, is President of the Ontario Society this year, which is an honor for District No. 5. Plan to attend and if you have an extra seat in your car will you please notify some member of the executive so that transportation may be arranged. This should be a red letter day in the history of District No. 5. Help to make it a success.

The local bowling green presented a gala holiday appearance on Thursday last, when a mixed doubles tournament with 25 rinks in attendance played the game. The visitors were highly pleased with the hospitality shown and credited the green with being in excellent condition nor were the ladies forgotten when the excellent refreshments given were highly praised. Another similar event will be held on Friday, July 9th commencing at 7 p.m. D.S.T.

Winners for the last tournament include Mr. McKenzie, Balmby Beach, 1st prize with 3 wins and score of 50 plus 6; Mr. Jacobs, Balmby Beach, 3 wins and score of 43 plus 14; Mr. Lynn of Wells Hill, 3rd prize with 3 wins and score of 30; Mr. F. Pollard, Unionville, 4th prize with 2 wins and score of 45 plus 11; Mr. Young, Kew Beach, 5th prize with 1 win and score 39 plus 1.

The July meeting of the local Women's Institute was a most enjoyable event when the Markham organization was guest of the afternoon. The delightful grounds of Mrs. W. Milliken Smith made an admirable setting for the event. There were sixty-nine ladies in attendance. Mrs. G. R. Whaley was in charge of the preliminary business session when the reports of the District Annual meeting held recently at Agincourt were given by Mrs. R. J. Duffield and Mrs. A. Brown. The guests of the afternoon presented a splendid program during which Mrs. S. Robinson, President of the Markham Institute was in charge. A most enlightening paper on the manufacture of paper given by Mrs. Woodhouse was an important feature, with a reading on "Hospitality" by Miss E. Thomas and delightful musical selections that included solo numbers by Mrs. F. Baird and quartette numbers by Mrs. Brown, Mrs. Hore, Mrs. Woods and Mrs. German. Afternoon Tea was served by the hostesses in charge after which a hearty vote of appreciation was tendered the local Institute by Mrs. Snider and Mrs. Courson. The hostesses included Mrs. W. M. Smith, Mrs. A. E. Milner, Mrs. A. Kennedy, Mrs. A. Nash, Mrs. N. Ogden, Miss M. Miller and Mrs. Armitage.

The annual Veterans' Picnic held at Woodland Park on Saturday last was a decided success, with approximately 150 in attendance. The afternoon was spent with a fine program of sports and the supper table was bountifully laden with good things. The sports events will be reported next week.

The local Horticultural Society will hold the annual flower show on August 25th and the Committee are planning the arrangement of the prize list. It is anticipated to make this a good event and co-operation is invited in making it a realization. So start now to plan your exhibits and be ready to share the honors with the prize winners.

Prof. W. C. Blackwood of the Agricultural engineering Dept. of the O.A.C. was a popular visitor at the July meeting of Junior Farmers Club held in the Township Hall on Monday evening last when splendid information was given the young men along the lines of spontaneous combustion etc. He also brought to notice a sprayer used with the straw blower at grain threshers that throws a vapor that not only acts as a fire preventative but lessens the spreading of weed seeds during the threshing operations and not only are his talents confined to public speaking, but Prof. Blackwood sings well, giving

ing two solos that were much appreciated by his audience and some hints on elementary musical instruction. "Resolved that the co-operatives are more advantage to the farmer than local food dealers" was the interesting subject debated by an able quartette of young men. Elliott Harrington and Jim Darlington on the affirmative had more "pros" lined up than the negative defenders and came out ahead. Glen Cole and Murray Macklin defended the negative.

"The Club Newscaster" was in the able hands of Allan Empringham and Cam Kennedy and was a spicy edition. The moonlight excursion is the topic of interest just now and who would not welcome a cruise these days with old Sol going a full steam ahead. It is to be held on July 23rd (in case you want to know) and will leave the Terminal Warehouse Docks foot of York Street at 8.15 p.m. standard time. We hear the Garden Party at Cedarena was also a great success. These Junior Farmers seem to have a way with them that always brings similar results.

The girls' meeting too was teeming with interest. The roll call responded to with a household hint brought many good suggestions. A little lemon juice added to cream will make it whip easier. Spinach can be cleaned much better in warm water. Miss Emva Rate also had many good ideas in regard to picnics. Plan the picnics well before hand, have cookies instead of cake. Ice placed around salads will keep them fresh. Thermos bottles are indispensable and old suitcases divided off with pieces of cardboard make good hampers. Oranges may serve both as a fruit and drink. Paper dishes and paper table cloths are a saving. Arrange your menu to suit time of year. Never serve salad in November, rather soup.

"To tan or not to tan" was ably discussed by Ida Reesor. Dry powder is preferable to lotions for sunburn. In taking sun baths, 10 minutes is enough the first time, 5 minutes after. A little sunlight is helpful to the hair but too much is ruinous. Shampoo the hair more often in summer and use lots of Brillantine. For insect bites use a strong solution of epsom salts.

"Sleep, fresh air and exercise are important to health but no more important than correct food," said Isabel Whittaker in telling about foods, fads, etc. Be sure that diet includes fresh fruits and vegetables and plenty of milk, also use bread (not fresh) and cereals freely. Use a balanced diet to reduce. Do not eat between meals unless under-nourished.

Lemon slices may be used in various ways said Ruth Yeoman as she proceeded to demonstrate just how this was accomplished. Plain or fancy it all depends on the use of this popular fruit.

Miss Allison Hood who has just completed a Home Economics course at O.A.C., gave a very illuminating talk on the course studied, a splendid well balanced course of study that is planned for the training of young women in this department of life work. Literature, Physiology, Home Nursing Economics of the Household Mothercraft, Millinery, Horticulture, Laundry, Physical Training that included folk dancing, tap dancing, etc. Allison presented this talk in a very splendid way, that spoke well for the training received.

Following the program the usual social time was spent. The menu! Well! The very best for this season of the year! Who wouldn't enjoy ice cream and cake! Dancing concluded the evening.

REV. LEVI HALFYARD, B.A. PASSES

The many friends of Rev. Levi Halfyard, late of Tottenham, will regret to hear of his sudden passing in the Alliston Hospital yesterday morning. Rev. Halfyard had just received and accepted a call to the United Church at Churchill, and was inducted there on Friday evening last. He was taken ill, rushed to the hospital and passed away as above. The funeral service will be held at Churchill tomorrow (Friday) afternoon at 2 o'clock standard time. Rev. C. W. Follett and Rev. Dr. Bryce, Moderator of the United Church, will have charge of the funeral. Both gentlemen are close friends of the deceased. Interment will be at Queensville. Rev. Halfyard was well known in Richmond Hill and vicinity having visited and preached here a number of times during the past 3 years and also in this student days.

If your service has a fixed value, it is a trade. If you can soak the customer according to his pile, it's a profession.

Milk money is CASH

Milk money represents the community pay roll in thousands of towns, a dependable income for millions of farmers

Milk and milk products must be sold so that cash can flow back to dairy farmers and their communities week after week and month after month.

This is a job Borden knows how to do, for behind Borden are 80 years of experience in handling and selling the most perishable of food products. Dairy farmers producing for a Borden company, know that a Borden milk check means dependable income.
