

WEEKLY NEWS NOTES FROM
THE UNIONVILLE DISTRICT

Stressing the improvement of breed in hogs and also on feeding methods if Canadian bacon is to have advantage on British market Mr. J. S. McLean of the Canadian Packers brought valuable information to a largely attended meeting of the Junior Farmer club on Monday evening last. Having lost to the Danes through inferiority of produce on previous occasions necessitates intensified effort on the part of the individual farmer to be satisfied only with the best. A lively discussion followed the address. The Moonlight excursion was reported to be as pleasurable and profitable, the weather ideal, a good crowd and satisfactory profit. Another successful event added to the long list sponsored by this organization. The News Bulletin edited by Murray Macklin and read by Cam. Kennedy was teeming with interesting items. At the joint meeting the usual good social time was enjoyed, dancing and the anticipated half-brick of ice cream with cookies being the main entertainment. The president, Kenneth Deacon, was in charge of the meeting. John Moscow and Don. Kennedy provided the good music.

The girls' program at the Club meeting was practical and timely, when household hints and canning recipes held an important place, several of the members giving their best specials. Helen Little told of the sterilization of the jars and making tomato juice, Isabel Whittaker gave recipe for canning corn, Della Dimma, pickled pears, Gladys Pearson, Pimento Mustard and Myrtle Hammill, peas.

The Lucky Draw went to Helen Wheeler, and during the business period of the meeting a letter was read from the Neighborhood Workers thanking the Club for the donation received for Bolton Camp.

The highlight of the evening was the splendid instructive talk given by Margaret Hood who is associated with the Hamilton Sanitarium and is a graduate in Occupational Therapy from U. of Toronto. Miss Hood told of the wide scope of work covered, the study of anatomy, psychology, various forms of craft work including making of pottery, weaving scarfs, belts, gloves, braiding mats, leather work. Miss Hood specialized in the work amongst crippled children and said the main object in the work was to choose the right craft work suitable for the individual patients. Work amongst mental patients also holds an important place in the schedule. Miss Hood is very much interested in her job and the best wishes of the club members will follow her always. Following the meeting the club joined with the Boys' club for the usual enjoyable social hour.

Young People, representing Melville, Miliken and Unionville United Church Y.P.S. met together on Monday evening last for Bonfire Worship in Sabiston's Flats. The weather was all that could be desired and the attendance good and an unusually good time is reported. Rev. Terry Hart of Toronto brought a splendid message to the meeting and musical numbers from the different organizations made a good program. The sing-song and refreshments too were a part of this enjoyable event. Appreciation was expressed to Mr. and Mrs. R. B. Sabiston for the genial hospitality shown and to all who had helped to make this evening such a success.

The Bowling Green activities continue with interest, the Monday night ten cent tournaments drawing a good attendance. The winners of the Trebles played last event include, 1st honors, Mrs. W. McGimpsey, Mrs. J. R. Hood, H. Perkin; 2nd prize, Mrs. Geo. Kelly, Adam Hood, W. Summerfeldt. Five rinks from North Toronto Club were entertained on Wednesday evening and an interesting schedule is already planned for future sport.

Another brother-in-law, Mr. Harry Henry while driving home from Muskoka where he and Mrs. Henry had been spending the week-end was suddenly stricken with a stroke on O'Connor Drive, Toronto. Mr. Henry, it is thought, felt the change in physical condition and endeavored to brake the car which as he lost control was forced into the ditch. Luck-

ily no serious accident occurred and other members of the party escaped injury. Mr. Henry was rushed to Hospital and at present writing, no hope for his recovery is reported. The Liberal extends sympathy to the stricken family.

VERSE FOR THE KIDDIES

A pocket handkerchief to hem—
Oh dear, Oh dear, Oh dear,
How many stitches it will take
Before it's done I fear.
You set a stitch and then a stitch,
And stitch and stitch away,
Then stitch by stitch the work is done—
And after work is play.

HEALTH

A HEALTH SERVICE OF THE CANADIAN MEDICAL ASSOCIATION AND LIFE INSURANCE COMPANIES IN CANADA

HOW TO FIND HEALTH

A distinguished English physician has told us that Health is found in a way of life rather than in a bottle of medicine. In supporting this statement, there is no reflection cast upon the value of medicine. There are a few drugs which we might say are worth their weight in gold because of their value in the treatment of certain diseases. Their value depends, however, upon their proper use. They must be taken at certain times and in quantities suitable to each case.

The evil that exists and the evil from which a great deal of actual harm results is the taking of medicine, self-ordered, with the idea that the bottle of medicine will cure disease, when what is required is a change in the manner of life. If the diet is faulty, if there is insufficient exercise taken, if the body or mind requires rest, these needs, without which the sufferer feels a lack of health, are not to be overcome by his taking one or mottles of medicine.

The fundamental problem of health is to secure the proper nutrition of the body. This means that the following must receive attention—food, fresh air and sunlight, exercise and rest, and cleanliness. Not one of these can be neglected if the health of the body is to be maintained. It is practically useless to think of one without the other. Neglect of any one of them impairs the health of the person who is careless. Neglect in such cases means abuse and, while it is true that the human body will stand considerable strain, it will not permit of abuse. Neglect of one or more of the laws of health means lack of bodily harmony, or disease of the body. Health or harmony cannot be restored by taking a bottle of medicine, when it is the manner of living which needs to be corrected. Prevention lies in the removal of the cause, which, in such cases, is neglect of the body needs.
