

Public Food No. 1

Dairy farmers, since the days of Gail Borden's first factory, have progressed steadily in their methods of producing pure milk and keeping it sanitary.

All that science, modern equipment and trained men offer are used in Borden factories to back up the efforts of dairymen to guard milk's purity.

In helping to establish present high sanitary standards for milk, dairy farmers and distributors together have promoted public health, reduced infant mortality and placed milk and its products first in the food lists of the nation.

Letters From The People

OPEN LETTER TO A BOOR ON WHEELS

Some day, my ill-mannered friend, you are going to go too far. Some day when you swerve around a street corner, you are going to clip the buttons off the wrong pedestrian's vest, and he is going to catch up with you, haul you off your comfy upholstery and deal you the smacking-down you deserve. You're a veritable Titan of self-assurance, aren't you, when you're behind an eight-cylinder engine? But how do you look on your feet? Are you the same dashing, imposing, self-assertive personage for whom the rest of the world must make room? Would you dare shove another pedestrian aside; would you jostle a six-footer? You would not, for you're just a grubby little inferiority complex who's been sublimated by a shot of gasoline.

And what's the reason for this break-neck rush of yours, anyway? You're in an automobile. You'll arrive at your destination 10, 15 or 20 times quicker than the pedestrian you're crowding back on to the curb. The best he can do is five or six miles an hour. You are going 25 or 30, perhaps 40 miles an hour. Is your business ten times more urgent than his? My, my, what an important fellow you are! What vast designs, what momentous projects must occupy your waking hours to justify such impatience?

The automobile, it seems, is the devil's gift to the Little Man. Put him in control of a motor car and he's cock o' the cross-walks. But if you suddenly yanked that ton or two of iron and steel out from under him, you'd find him just a measly nonentity with the mental set-up of a public school bully. You may say I'm in a bad frame of mind. You're right! And I'll get over it when fellows like you begin to use a little care, caution, courtesy and common-sense when you're driving on the streets and highways of this province.

"A PEDESTRIAN."

Guy Lombardo and his Royal Canadians, with other equally well-known orchestras of radio, stage and screen, will provide the music for the dancers in the mammoth ballroom at the Canadian National Exhibition this year.

With some men emergency is only another name for opportunity.

EDGELEY

Several from here attended the Mulock Picnic and Street Dance at Woodbridge on Saturday and all enjoyed a good time.

Mr. Jack McCallum returned to the Hospital on Tuesday for an operation. We all wish him success and a speedy recovery. We understand Miss M. Reaman will take over the teaching duties until the return of the regular teacher.

Only two weeks now and on Sunday, Sept. 12 Edgeley United Church are celebrating their 60th anniversary service at 11 a.m. conducted by Rev. Dr. Dean of Toronto, and at 7 p.m. by Rev. Geo. Lawrence, both former pastors.

Mr. and Mrs. Knapp called on friends here on Saturday night.

Mr. and Mrs. Watson and family visited cousins at Tottenham Sunday.

We ask that all friends and members of former years join with the ladies of Edgeley to make the 60th anniversary a great reunion. Special music will be given by the choir at both services assisted by the former members. And on Tuesday, Sept. 14, a cold meat supper will be given in the hall, followed by a play called "The Green Shirt."

Miss Betty Whitmore is holidaying with her cousin Kathleen.

Miss Marjory Moynihan of Toronto is holidaying with Mildred Watson.

Mrs. Watson and Gilbert spent a few days calling on old friends and neighbors at her old home, Victoria Square.

World's professional, world's amateur, Canadian professional, Canadian amateur and Canadian school speed typewriting championships will provide an unusual and interesting spectacle in the Coliseum at the Canadian National Exhibition on the afternoon of Saturday, Aug. 28th.

"I saw a circus performer dive into two feet of water," says a friend who had taken in the fair at the city. That's nothing. Nearly every one sees women diving into hand-bags.

At a recent function in London, England, the staff of the Italian Embassy appeared in clothes manufactured for the most part from new "artificial wool", made in Italy the product of casein, which is itself a by-product of milk. The Italians made considerable claims for the popularity of their milk-wool cloth.

Another Big Tag Event

Planned for Kiddies of York County Children's Aid Society, September 18 to 25

In co-operation with York County Council, municipal councils all through York County have again given their sanction to a Tag Week to be held for the benefit of the little children in the care of the York County Children's Aid Society. While the statutes provide for the maintenance of these youngsters of which our Society here in York County have hundreds, there are added funds urgently required in order to give these unfortunate children a few bright hours or perhaps some little "extra" that your children enjoy or which may be the normal possession of children blessed with parental care in the usual way. Funds raised by tag subscriptions go entirely to the children.

Tag Week in York County will be observed from September 18 to 25, and last week organization work was launched in order to put it across in a manner befitting the worthy object in view.

Service Clubs, Junior and Senior Women's Institutes are taking hold of the work, also other clubs of young women, and these organizations will be depended on to do the tagging. By the manner in which organizations are taking hold of the work there is no one going to be overlooked by the girls with the boxes when they are on their rounds. We are sure the citizens of this community and district will welcome them with open arms as it were, for who is there but would not give a bit of silver, or better still a dollar bill, to thrill the heart of a young child in need.

The "family" cared for by York County Children's Aid is a large one—running between 800 and 900—and those who are travelling about arranging to make them happy through funds raised on this tag occasion, are giving their services entirely without charge, while other liberal-hearted citizens are loaning their automobiles and buying the gas out of their own pockets just to help.

For several years the first person to make seat reservations for the pageant at the Canadian National Exhibition was a man from Cincinnati. He is first again this year with an order for twelve box seats for a two-family party... The Coronation motif will extend to the great pyrotechnic finale.

DEATH STALKS OUR HIGHWAYS!

If every human life in a village of 800 people in the Province of Ontario were snuffed out in one day, newspapers throughout the entire world would carry the story of the ghastly tragedy.

If one of your loved ones—or even a friend—were a victim, it would become quite a grievous, horrible, personal loss!

That is precisely what is going on in Ontario this year. Nearly 800 people will be killed on our highways. Nearly 14,000 will be injured—many of them crippled; many of them suffering almost unbearable pain. Death and

untold suffering stalk our highways and this must stop!

RECKLESS DRIVERS BEWARE!

Motorists have been requested to be courteous on the road but the death toll mounts at an appalling rate. This Department, with the aid of our internationally famous police force and public-spirited citizens, intends to put reckless drivers off the road! You must stop cutting in, passing on hills and curves, crowding, racing, taking chances. Unless you have regard for the safety and convenience of other users of our highways you will soon find yourself in serious trouble.

MOTORISTS: WE ASK YOUR HELP!

When you see a motorist driving in a manner dangerous to the public, take his number, make a careful note of the actual time and place, and when you reach your destination write to the Motor Vehicles Branch, Department of Highways, Toronto, giving full details. We do not invite reports of minor infringements of the traffic laws; you are requested to use sound judgment. We will deal adequately with offenders!
