

Voters' List 1937 TOWNSHIP OF VAUGHAN

County of York
Clerk's notice of First Posting of Voters' List.
Notice is hereby given that I have complied with Section 10 of the Voters' List Act and that I have posted up in my office at Maple, on the 7th day of September, 1937, the List of all persons entitled to vote in the said Municipality for Members of Parliament and at Municipal Elections, and that such list remains there for inspection.
And I hereby call upon all voters to take immediate proceedings to have any errors or omissions corrected according to law. The last day for filing appeals is September 23, 1937.
Dated at Maple, Sept. 7th, 1937.
J. M. McDONALD,
Clerk of Vaughan Township.

You needn't ask a man's opinion of any matter. Just find out how it affects his interests.

Debt Pegged As Was Promised

Being Paid Off at Substantial Rate by the Hepburn Administration

Ontario's public debt, which was increased at the rate of more than \$45,000,000 a year under the Conservative government of Hon. G. S. Henry, is being paid off at a substantial rate by the Hepburn administration, it is revealed by a perusal of the Public Accounts which will soon be off the press at Queen's Park.
When Mr. Henry vacated the premier's office, the province's indebtedness stood at the stupendous total of \$655,000,000. Owing to the many extravagant undertakings that had been entered into, the Liberal government was unable at once to check an increase in this debt so that it reached an all-time high of \$689,000,000 at the end of March, 1936.
Since that date the province has been slowly getting out of the red. For the fiscal year 1936-7 some \$33,000,000 of debt was paid off, and it is estimated that since the end of

March last, the gross debt has been decreased by several millions more. Today, it is computed, the province owes less than it owed when the Liberal government took office just over three years ago.

This entitles the Liberal party to lay claim to a record without parallel in the history of Ontario. Under the Conservative government of Sir William Hearst (1914 to 1919) the debt was increased by an average of \$11,063,000 every year. Under the Drury regime (1919 to 1923) the huge sum of \$48,498,000 was entered in the red each year. With Hon. G. H. Ferguson as prime minister (1923 to 1930) debt was piled up at an average rate of \$26,049,000 annually, while Mr. Henry ran it up at some \$45,000,000 each year.

What makes the achievement of the Hepburn government all the more remarkable is that it has pegged the public debt without curtailing any essential public service and without any increases in taxation—in fact, with decreases in taxation.

Unemployment relief has been continued on an even more generous scale than that provided by the preceding government. Health services are unimpaired, and cuts made in hospital grants by the Henry cabinet has been restored. Highway construction and maintenance has gone ahead in accordance with traffic requirements—not in accordance with patronage requirements as the Conservative government did on the eve of the last election by putting thousands to work needlessly filling ditches.

Decreases in taxation that have already been put into effect include the complete remission of the amusement tax and a 25 per cent cut in fees for commercial motor vehicles. A further tax decrease promised this fall if the Liberals are re-elected is a "substantial reduction" in fees for passenger cars.

Thank God every morning that you have something to do, whether you like it or not. Being forced to work and forced to do your best, will breed in you temperance and self-control, diligence and strength of will, cheerfulness, contentment and a hundred other virtues the idle never know.
Chas. Kingsley.

Sport Notes

(By Bunny White)

Lionel Conacher, Canada's premier athlete, and one who has thrilled the hearts of sport fans for many years is a Liberal candidate for the riding of Bracondale in Toronto. The "Big Train" has won many notable victories on the sporting field and fans are pulling hard for him to come through with a win on October 6th. According to reports from the Queen City he has an excellent chance of winning.

While this is a sports column we took the liberty last week when sport news was a little scarce of making a short comment on the political situation. Since then I have been accused of jumping over the political fence, but I can see no great crime in this. I submit it is the independent voter who votes as the issues present themselves who is the safeguard of democracy, and this is the reason thousands of people in Ontario who like myself formerly supported the Conservative party cannot follow the leadership of Mr. Rowe and are supporting Ontario's man of Action, Hon. Mitchell F. Hepburn.

Rodens Lose Final Game
Roden A.C. passed out of Intermediate Lacrosse Friday night when they were defeated by Cheltenham 19-12.

Cheltenham fielded one of the nicest intermediate teams to play at the local arena for a long time. Their passing plays were nearly perfect and they had Rodens run ragged.

Roden are talking seriously of entering the Senior division next year. Roden Midgets combined with Richmond Hill Midgets are in the Midget play-offs which will take place shortly.

Every nation needs a strong navy to protect its citizens when they are where they have no business.

HYDRO IS YOURS...USE IT!

Guardians OF YOUR SAFETY

Whether you are at home, or on the street, on trains, street cars or motor, in church or theatre—Hydro plays an essential part in your safety and the protection of your property.
Police and Fire Department signal systems render immediate service in emergency. Traffic lights permit control and safety on our streets. Wig-wag systems flash and signal the danger of approaching trains. Better lighted streets make crime difficult.
In addition to these many guardians of your safety, Hydro goes still farther. Every electrical appliance or device must be approved by the H. E. P. C. Testing and Inspection Department before it goes into your home—every piece of electrical equipment is made as free of hazard as scientific knowledge and highly-trained technicians can make them.
In addition to being an important factor in your safety, and the protection of your property, Hydro is making every effort to extend the benefits of low cost power throughout the Province of Ontario. These efforts are made in your best interests, and their success will affect your prosperity. You should, therefore, be vitally interested in Hydro and what it is doing for you.

The HYDRO ELECTRIC POWER COMMISSION of Ontario
