## Prompt Action By North York's Member Brings Joy To the Vegetable Growers

Carloads of Vegetables To Be Purchased By Government For Drought Stricken Areas

"The first man in Canada to suggest to me that Ontario produce be purchased by the Dominion Government for distribution in the drought stricken areas of the west, was Col. W. P. Mulock, the member for North York," said Hon. J. G. Gardiner, Minister of Agriculture for Canada speaking at Maple Tuesday evening. The Federal Minister was speaking of the announcement made this week that the Federal government would purchase possibly one hundred cars

of vegetables from growers on the Holland Marsh. Mr. Gardiner stated that the government deeply appreciated the voluntary efforts of the people in making gifts of provisions which are being shipped by the carload to the west, but he said the government would supplement these donations with fruit and vegetables purchased in Ontario.

The announcement of the Federal government has been received with great joy by the people of the Holland Marsh who were faced with a considerable surplus of all lines of produce. Hope has replaced despair for those people now that the helping hand of the government has been extended to save their crops and provide a market for them.

"It gives the farmers here on the marsh a fresh start," said Mr. J. I. Ferguson, one of the prominent growers on the marsh. "Many were in arrears on payments, taxes and interest. The Dutch settlement had been on relief for some time, but should be independent now."

"It means more than money to us," he pointed out. "It means new hope. For if a man is discouraged he's just half a man. We're getting somewhere now."

Another grower explained that not only was the outlook changed for Holland Marsh as a result of the Dominion Government's offer, but the purchase of the crops there would affect a wide district by removing such a large surplus from the market.
