VICTORIA SQUARE

Once more weather has ceased to be of special interest. It is such that one is comfortable and now one has energy to think and talk of something else. But "Old Weather" still has its place; it is still the good old reliable when conversation lags. Road paving is coming right a-long. It is entirely completed from Mr. Stanley Boynton's gate to Mr. Egbert Avison's. In a very short time there will be pavement to the Don Mills Road in Toronto.

Mr. and Mrs. George Agar and two sons, Dale and Raymond, took tea with Mr. and Mrs. George Dennis on Sunday evening.

Mr. and Mrs. Harvey Houck, accompanied by Mr. and Mrs. Rolph Boynton motored to North Bay on Saturday morning. They are spending a few days in a cottage there. Mrs. Grace Boynton is spending a few days with her son, Mr. William Boynton at his cottage at Port Bolster.

The Y.P.U. were favored in having Mr. Lorne Mortson of Lansing speak to them on the subject "The Prairie Provinces" on Sunday evening. Those present made plans for a Corn Roast to be held on Tuesday evening in Mr. Nichols' flats. Apple pie and corn are to occupy a prominent place on the menu.

Misses Beatrice Frisby and Vera Boynton were guests of Misses Carol and Shirley Sanderson at the home of their grandmother, Mrs. Thomas Frisby on Sunday afternoon.

Mrs. Thos. Frisby is spending a few days in Toronto with her sister. Master Graham Frisby is fast recovering from an attack of measles.

An ice cream social was held last Thursday evening on the church lawn under the auspices of the Woman's Association. A splendid play entitled "Windy Willows" was given by Greenwood Young People and it was immensely enjoyed by everyone. Mrs. P. W. Willows and her group were responsible for this unusual treat. Congratulations!

Mr. and Mrs. H. D. McCague, Master John and his friend Nat motored to Alliston on Sunday and spent the day with the McCague family there and attended the Burns Sunday School and church services.

WOODBIDGE

The Mulock Picnic on Saturday last certainly gave Woodbridge a boost such as it never got before. Never in its long life was there such a large assemblage who came from every angle of the compass and long distant points of the Province. It took hours of an unbroken chain of moving cars to empty the Village of visitors.

Mr. Harry Strang of Exeter, Ontario, a young farmer who married Miss Margaret Wallis, daughter of Mr. and Mrs. W. A. Wallis of Woodbridge, a little over a year ago, was injured when attacked by an infuriated bull and is a patient in a London, Ontario, Hospital. At the same time and in the same hospital Mrs. Strang gave birth to a daughter. All are doing well friends will be glad to hear.

The game of Lacrosse played on the Dye Works Rink on Monday night between Orangeville and Woodbridge resulted in a victory by Orangeville with a score of 10 to 6. C.N.E. Will Celebrate 60th Anniversary

The 1938 Canadian National Exhibition marks the Diamond Jubilee of the world's outstanding event and also marks the Diamond Jubilee in the matter of attendance by the Liberal scribe. It was on Monday of the second week of the Toronto Industrial Exhibition that we with a boy companion walked a distance through the mud with a few pennies in our pockets and entrained at the old Woodbridge station, now occupied by the co-operative Farmers as a store. It was a narrow gauge road with rails that were flattened out at the joints, a funny little engine burning wood, pulled the train into Parkdale station, we reached the grounds by way of Dufferin Street. It was Caledonia Day, the outstanding day of the first fair of 1878. Hugh McKinnon, at that time chief of Hamilton police and champion all round Scottish athlete was the principal attraction. He was decorated with medals won at shot putting, hammer throwing and many other games. One reason why we make such a pronounced feature of Hugh McKinnon is because he was a native of Vaughan and got his public school education at Knox as a schoolmate of our father, the late William Burton. In many respects the Toronto Industrial Exhibition was then little more than a good sized country fair when compared with now regarded as the greatest annual fair in the world, and something we Canadians should appreciate maybe more than we do. Cattle sheds at that time were open and only covered a small area as compared with the ten acres now giving shelter to the many breeds of cattle, sheep and pigs. Harvesting and threshing implements were in a state of evolution. The Toronto Reaper and Mower Company which later was taken over by the Massey's of Newcastle, Ontario, was the principal exhibitor of the first self binder which did its binding with wire. John Abel of Woodbridge was a leading exhibitor of threshing outfits which included the steam engine then being introduced as a power instead of the old horse power. Many farmers were slow in adopting the steam system as they had a fear of boiler explosions and steam burnings. It is our intention to visit the fair of 1938 marking the Diamond Jubilee of our attendance in 1878.
