Letters From the People

W. G. Carr Suggests Artificial Ice Plant For Richmond Hill Arena — Urges Support For Sport Activities For The Young People

Richmond Hill, Ont.,
December 20th, 1938.

Editor The Liberal,

Dear Sir:—

The younger generation of males have been robbed of their heritage as Canadians in as much that many are unable to find employment which is steady and provides that sense of security which is necessary before young people can contemplate marriage. Everywhere you may turn it is obvious that it is easier to place girls in positions rather than boys. We are seeing the fundamentals of our civilization put into reverse. It used to be "For men must work and women must weep" now the women go to business while the men stay home, wash the dishes, cook the meals and take care of the babies. In factories where once skilled mechanics turned out the products by their skill and ingenuity girls now pull a lever or press a button and machines do the rest. Instead of using the knowledge God has given us to our own benefit, i.e. in order that we might have fewer hours of labour and more for restful recreation and contemplation, we have geared up the wheels of industry until selfish individuals can reap greater profits while thousands of the labouring and middle classes remain idle, and idleness is the greatest danger for both young and old it is possible to imagine.

While these conditions exist it is the responsibility of those who are employed to see that a legitimate outlet is provided for the vast reserves of energy with which nature provides all healthy males. It is just as natural for a young boy to want to kick over the traces as a young colt. Our prisons and penitentiaries are full of young men between the ages of eighteen and twenty-four who first went wrong just because they couldn't find a proper outlet for their energy and love of excitement and adventure. They went into a life of crime because they couldn't find anything else which would give them a thrill.

If we cannot provide work for our boys at least let us provide good healthy recreation. What is the use of making our school children physically perfect if we do not provide a proper outlet for the tremendous energy and exuberance of spirits the truly healthy body develops? It is in my opinion just as necessary to provide our school children with supervised recreation and sport as it is to educate them. It is also necessary to organize the youth of the community after they leave school so that the periods of enforced idleness may not lead to their downfall.

I recommend that a committee of citizens be appointed to organize sport in this village. I think that one school master; one professional man; two business men; and the member of council who has charge of the rink and the recreation grounds should be on this committee. In spite of what others may say I am fully convinced that amateur sport can be made to pay its way provided it is properly organized and the finances properly managed. Even at the risk of being committed to a mental institution I go on record and say that I believe an artificial ice rink, which could be used as a swimming pool in summer, would pay dividends on the investment. It is impossible to rent ice in Toronto at any price. Every hour, from early dawn to midnight, is booked up every day of the week including Sundays. The minimum charge is \$10 per hour. Aurora travelled to Midland to obtain ice on which their junior team could practice. Northern S.P.A. games between Midland, Penetang, Collingwood, Barrie and Aurora are packing over eight hundred paid admissions into the Midland rink. Incidentally this rink is something of which the citizens of Midland can well be proud. I still feel that given proper support Richmond Hill could soon produce a winning junior team. The only way to bring the boys along is to enter juvenile teams in the league which is being formed with teams from Bradford, Newmarket, Aurora and perhaps Markham and Stouffville with as many more as want to come in. Aurora and Willowdale rinks have ice but we have not as yet. It is only necessary to visit the pond to see how much the boys want to play hockey. We have some really splendid material.

If, as I am led to believe, there have been errors and abuses in the past which have spoiled amateur sport locally why not utilize the experience gained and build up a new organization on bed rock instead of shifting sand? We invest in our children individually why not as a community? The answer given to me by one citizen was this. "Unless you can produce a winning team the people won't turn out." If that is

the true answer there is nothing more to be said. I do not believe we are such poor sportsmen as that. Let us teach the boys to play the game for the game's sake, not just to win.

Yours sincerely,
William Guy Carr.

BUSINESS MEN SPONSOR A VISIT FROM SANTA

Kiddies, young and old, came from far and near to meet Santa Claus when the bewhiskered gentleman paid a pre-Christmas visit to Woodbridge last Saturday afternoon. Business men and residents, who arranged for Santa's visit, left nothing undone to assure him a hearty welcome and a large crowd was gathered in the streets long before his arrival. Over loud speakers the master of ceremonies, Dr. G. D. McLean, kept the waiting throng fully informed of the lightning dash from the North Pole, even though the speed of travel made it difficult to fully cover the trip. On the last lap from Schomberg south, Santa's party set up a speed record which will, in all probability, remain for some time. Kiddies were made happy, grown-ups too, when hundreds of bags of candy were handed out as the line-up slowly passed by and met Santa.

J.O.L. 129 OFFICERS

1939 Officers elected by the local J.O.L., Mary Callum, 129, are as follows: Past chairlady, Audrey Ring; Chairlady, Florence Lindsay; Deputy Chairlady, Doris Ring; Chaplain, Eleanor McKay; Secretary, Betty Maynard; Treasurer, Roberta Lindsay; Lecturers, Mary Lindsay, Joyce Pinder; Standard bearers, Irene Hollingshead, Ray Gillan; Guard, Audrey Hamilton.
