

WEEKLY NEWS NOTES FROM THE UNIONVILLE DISTRICT

A resident of Unionville for thirty years, Mrs. John Taylor passed away at her home, South Main St. on Tuesday last following an illness of four years duration.

Mrs. Taylor, the daughter of the late John and Mrs. Trudgeon, was born at Victoria Square sixty-seven years ago, and at the time of her marriage lived in Headford. She was a member of Central United Church and always took an active interest in all affairs of interest. A generous and sympathetic neighbor, she will be greatly missed by a host of friends.

The services will be held at the family residence, South Main St. on Friday afternoon, Rev. A. E. Owen officiating.

Surviving her are her husband, three sons, Harry, Lorne and Russell of Albany, New York; three daughters, Mrs. Olive Booth, Sylvan Lask, Alberta, Mrs. Harold Harper, Cashel, Gertrude and Marjorie at home. Also three sisters, Mrs. Lawrie, Guelph, Mrs. Shank, Detroit and Mrs. Ellis, Toronto.

The pallbearers will be B. Gayman, A. L. Brown, W. Noble, R. Duffield, E. Ratcliffe. Interment in Victoria Square cemetery.

In appreciation of Mr. A. M. Hill's services as Scout Master in connection with the local Bull Dog Troop, the Scout Mothers' Auxiliary presented Mr. Hill with fifteen silver dollars at a Scout special event held at the home of Mrs. Sabiston on Wednesday last. Mr. Hill has been in association with the troop since its organization fifteen years ago and through his persistent interest the troop has been a popular asset to the community.

The quilting team of the local branch of the Women's Institute is all set to enter the C.N.E. quilting competition. Fifty-two entries are in competition and this event bids fair to be most popular. Good luck to our team! May they bring home the twenty-five dollars.

The executive of the Horticultural Society of Unionville have decided to cancel the Fall Show, and will hold a public meeting in the near future at which premiums will be given to all members, peony roots and tulips have been chosen, and it is desired that members plan to be in attendance as this will be perhaps the only opportunity to secure them. An explanation is given in regard to vacant station beds. The committee

did not feel justified in planting them as soil requires fertilizer and last year's unsatisfactory experience did not warrant planting this year. However, plans are being made to put beds in good planting condition. So, watch them next year!

Popularity of lawn bowling continues with many interesting events on the local green. The management are to be congratulated upon the splendid schedule of events planned, and the co-operating interest of the members has made the Club a lively one.

Master Jack Watson suffered an arm injury on Wednesday last when tongs lifting a bale of hay made an underarm cut. Medical aid was administered and Jack is progressing favorably.

WHITCHURCH COUNCIL

The proposal advanced at last meeting to collect taxes through the treasurer's office was laid over for a month owing to lack of time to deal with the matter. R. E. Ratcliffe, collector last year, offered to take on the job again at a salary of \$200, a reduction of \$100, provided the council would furnish postage and allow the bills to be delivered through the mail.

"I do not think the work could be done properly at the township office," said Mr. Ratcliffe in presenting his offer.

I. A. Bracey complained against the operation of motorboats on Lake Wilcox in the presence of large crowds of people, especially on Sundays. The council will advise the constable to warn all operators of such boats. Constables will also be asked to investigate a complaint against nude bathing at Haines Lake.

R. E. Andrew presented the auditor's report, which was accepted by council. The auditor stated that the books of the clerk and treasurer are in good order, clean and accurate. Considerable irritation was expressed over the net outcome of court action taken against a number of ratepayers who neglected to pay their dog-tax. The information was advanced by the clerk that half a dozen have never yet paid despite being fined.

"We'll have to keep on barking at them," said Deputy-Reeve Cook amidst laughter. F. C. Cummings was granted \$85 for collecting dog taxes when making his assessment. He gathered in over \$1000 at that time.

Messrs. Leary and Cook moved the following resolution, which was carried: "Following a request by the Musselman's Lake Ratepayers Association that council prohibit dancing on Sunday in all dance halls in the township, therefore this council goes on record as being opposed to dancing on Sundays, and instructs the constables to enforce the prohibition of dancing on Sundays in all halls in the township."

AND IT HADN'T

A girl went swimming in the raw in a secluded mill pond. Along came a little boy who started to tie knots in her clothes. She flopped around, found an old washtub, held it in front of herself and marched toward the little boy saying: "You little brat, do you know what I'm thinking?"

"Sure," said the little brat, "you thank that tub has a bottom in it."

R. Harry Miniken, age 29, was found dead in his home on his 47 acre farm on the fifth concession of Markham south of number 7 highway Sunday morning. Robert Lowrie of Unionville called at Miniken's home to buy some corn and he found the door locked. He looked in the window and saw Miniken dead in bed with a rifle on his chest. Constable Ben Gayman of Markham and Sgt. of detectives Sydney Barraclough were summoned.

THE WEED OF THE WEEK

Common St. John's Wort

The Common St. John's Wort is a persistent perennial weed which is rapidly becoming established throughout Ontario on roadsides, old meadows and pastures, states John D. MacLeod, weed expert, Ontario Dept. of Agriculture, Toronto.

The weed is propagated by means of seed and slender, creeping, underground rootstalks. The stems are clustered, with wood at the base, and one to two feet high; leaves, without stems, are opposite; flowers, yellow in loose clusters, the petals having black dots on the margin.

No difficulty is experienced with St. John's Wort on land which is thoroughly cultivated and which is kept under a short rotation of crops. Break any badly infested pasture fields and cultivate thoroughly. Do not reseed to any crop until this weed has been eradicated, advises Mr. MacLeod.

Prevent seed production by spraying scattered plants or mowing or spraying. Experience has proven that this weed will spread rapidly and smother out all other vegetation. Insist on having adjoining property and roadsides cleaned up. Spraying with chemicals has proven effective. Weed inspectors will give information on the proper use of chemicals.
