## Letters from the People

Richmond Hill, Ont., February 7th, 1940.

Dear Mr. Editor:

A news item appeared on the "Greater Toronto" page of the Star, Tuesday, February 6, which is very misleading, especially the heading: "VILLAGE TAX RATE RAISED THREE MILLS. Council strikes 48 figure. Boosted by High School Costs."

The body of the item shows that little over half of the 3-mill increase is due to High School costs.

A reader who took in the whole item would still have a very incorrect picture of the financial situation. It is not the total cost of maintaining and operating the High School which has increased but the sum that must be provided from village funds for 1940, \$2000 not \$2500 as published. The cost per pupil per day is down. The reasons for the village being required to put up more money for 1940 are these—(1) The village share of High School costs (about 35%, as it has been for years) was partly taken care of by a surplus in 1939; no surplus is available to reduce village contribution in 1940. (2) The county of York has ceased bearing any part of the cost of secondary education. Only the municipalities whose students attend the school contribute their share according to their attendance.

Hoping that this may relieve the feelings of the already over-burdened taxpayer.

Sincerely yours,  
James Stewart,  
Principal of High School.

## RECONDITIONING TELEPHONE LINES IN THORNHILL AREA

Telephone lines in Thornhill are being reconstructed and extended at the present time, according to H. McClelland, manager of The Bell Telephone Company of Canada for this district.

The additional facilities will provide for expected growth in the demand for telephone service there, and when the work is completed all outside telephone plant in the Thornhill exchange area will have been thoroughly reconditioned.

Approximately 11,000 feet of overhead cable will be erected, and the present open wire line removed, thus improving the appearance of this section of Yonge street. The existing pole line will be relocated farther back from the pavement, and underground conduit and cable will be laid in the vicinity of the local exchange.

Construction is now under way, and will be completed during the month of April next year.

It is estimated that the work will involve an expenditure of approximately \$18,000.
