DO YOU KNOW

1. The heavyweight boxing champions of the world were as follows: (1), 1882-92, John L. Sullivan; (2), 1892-97, James J. Corbett; (3), 1897-99, Bob Fitzsimmons; (4), 1899-1906, James J. Jeffries; (5), 1906-08, Tommy Burns; (6), 1908-15, Jack Johnson; (7), 1915-18, Jesse Willard; (8), 1919-1926, Jack Dempsey; (9), 1926-28, Gene Tunney, (Retired); (10), 1930-31, Max Schmeling; (11), 1932, Jack Sharkey; (12), 1933, Primo Carnera; (13), 1934, Max Baer; (14), 1935-36, James J. Braddock; (15), 1937-40, Joe Louis?

2. That J. L. Sullivan won the last bare knuckle championship bout on July 8, 1889 when he defeated Jake Kilrain in 75 rounds at Richbourg, Miss.?

3. That Miss Lunn of England established the women's world track and field record in the 1000 metres' race at Birmingham, England in 1934?

4. The Americans defeated the pick of Germany's track athletes (August 13 and 14, 1938) in the Olympic Stadium, Berlin, by a score of 122 to 98 points?

5. That Great Britain holds 10 of the world's 15 records in walking?

6. That Alfred Shrubbs of Great Britain established world records in the 7 mile, 8 mile and 9 mile races in 1904?

7. That Jesse Owens of the U.S.A. established a record on May 25th, 1935 in the running broad jump when he leaped 26 feet 8 3/4 inches?

8. That Chukei Nambu of Japan made 51' 7" on August 4, 1932 in the run, hop, step and jump?

9. That Jack Torrance of the U.S.A. put the 16 pound shot 55' 5" on June 30th, 1934?

10. That Jose Ribas of Argentine established a world's record when he covered 21 miles and 698 yards in 2 hours during September of 1935?

Use Proper Proportions In Sowing Mixed Grain

Consult Agricultural Representative regarding recommended mixtures, advises John D. MacLeod, Ont. Dept. of Agriculture, Toronto.

Sowing mixed grains is a general practise on many farms in Ontario. Experiment stations have proven the value of a mixed crop in regard to yield of grain and quality of feed for live stock but the best result is obtained only by the use of the proper proportions of various grains and not by haphazard mixing, declares John D. MacLeod, Crop expert of the Ont. Dept. of Agriculture, Toronto.

Those who desire to produce maximum yields of grain for feeding live stock should use the mixtures of varieties recommended by experiment stations. Maximum yields are essential for profitable production of quality bacon, therefore the following information is particularly timely.

In a seven year experiment conducted at the Ontario Agricultural College, Guelph, 1918-1924, it was found that a mixture of one bushel of O.A.C. No. 21 Barley and one bushel of Early Oats by weight, when grown in combination, produced 2,877 pounds per acre. This was a higher yield than was obtained when other spring grains were added to the mixture.

Due to the difference in size, length, width and weight of various grains, mixed grain cannot be cleaned properly with a fanning mill. In the case of barley and oats more oats will be removed by the wind and scalped over the riddle, the result being a mixture which will contain too much barley for seeding purposes in proportion to the amount of oats.

It has been found that a Carter Disc Separator or Marot Grader will make a satisfactory job of removing barley from oats or separating any other mixtures. The majority of seed cleaning plants are equipped with one or more of these machines.

If mixed grain is going to be sown this year and the seed on hand is mixed, it is suggested that the facilities of your nearest seed cleaning plant be used. After the separation has been made grains may be re-mixed in the proper proportions.

Consult your Experimental Station or Agricultural Representative regarding recommended mixtures, advises Mr. MacLeod.

TESTON

Easter Sunday, March 24th, will be Communion day in the church here when a full attendance is expected. "Do this in Remembrance of Me."

The Y.P.U. enjoyed a sleighing party last Saturday evening on the hills back of Harry Reynolds' farm with lunch afterwards at Elmer Hadwen's.

Last Saturday evening two of our young men had the misfortune to meet head-on on the hill west of George Cooper's. Both received minor injuries and the cars were damaged.

Miss Lorna Henderson visited her friend Miss Jean Robson on Sunday.

Mrs. Fred Routley of Toronto spent over Sunday with Mr. and Mrs. Alex. McDonald. Master Donald Routley who had been visiting here a few days returned with her.

AUCTION SALE FARM PROPERTY
The Property of
William Deisman Estate

East Half Lot 24, Con. 5, Vaughan, near the Village of Teston
SAT., MAR. 23rd, 1940
Sale at 11 o'clock a.m.

There will be offered for sale by public auction, upon the premises, by J. C. Saigeon, auctioneer, the valuable farm consisting of the East half of Lot 24, Concession 5, Township of Vaughan, containing 100 acres more or less. The land is in a good state of cultivation and well wooded and there is said to be erected thereon an eight room frame dwelling, bank barn about 40x70, hog pen, implement shed, and other outbuildings. This farm is located in a choice section of the township on good road, close to church and school.

Terms of sale:—10% cash at time of sale and balance within 15 days. Further terms and conditions will be made known on day of sale.

No reserve, as sale is necessary to close estate. Mrs. Edith Ethel Murray and Roy Bowen, administrators of estate of William Deisman, deceased, c/o Campbell Line, Richmond Hill, Ontario, their solicitor herein.

AUCTION SALE of FARM STOCK, IMPLEMENTS & GRAIN

THE PROPERTY OF

MORIARTY BROS.

At Lot 27, Concession 3, Markham
WEDNESDAY, MARCH 27th, 1940

- | | |
|---|---|
| HORSES | IMPLEMENTS |
| 1 Bay Horse, H.D., aged | 1 Binder, M.H., 6 ft. |
| 1 Bay Horse, H.D., 10 years old | 1 Mower, I.H.C., 5 ft. |
| 1 Grey Mare, G.P., 11 years old | 1 Rake, I.H.C., 10 ft. |
| 1 Black Horse, G.P., aged | 1 Drill, Frost & Wood, 12 disc |
| HARNESS | 1 Cultivator, 13 tooth, M.H. |
| 1 Set of Brass Mounted Breaching Harness | 1 Set of Harrows, 3 section |
| 1 Set of Breaching Harness | 1 Set of Sling Ropes |
| Other parts of Harness | 1 Fleury Plow, No. 21 |
| GRAIN | 1 Roller, 3 drums |
| About 200 Bus. of Oats | 160 ft. Hay Fork Cable and Pulleys |
| About 100 Bus. of Barley | 1 Fanning Mill, Chatham |

AN INDUSTRY Pledged TO THE FURTHERANCE OF AGRICULTURE

Founded and developed on the basis of helpfulness to the farmer, the implement industry is entirely dependent on the prosperity of agriculture for its own success.

Through the years the implement maker has, with quality of product and genuinely helpful service, won the high regard and goodwill of the users of his product. There are few farmers who do not value sincerely the service of the implement company.

Lack of understanding of some of the problems of the industry may give rise on occasion to criticisms that seek to detract from or disparage the part that the implement maker plays.

In the light of the facts, however, misunderstandings vanish and a better appreciation results.

Farmers' Equipment Investment Greatly Reduced

Most of the discussions on prices of implements, comparing them with those of years ago, for instance, fail to take cognizance of the improvement in methods that have taken place, resulting in the use of different machines from those of a quarter-of-a-century ago.

The One-Way Disc Seeder has displaced, to a serious extent, so far as the manufacturer is concerned, several other machines, and it does so because it cuts the cost of tillage and seeding by from 40% to 50%.

The small combine has spread the use of this method of harvesting until the sale of them now almost equals that of binders. And this because it costs only 26c per acre for out-of-pocket expense to harvest with the small combine as against \$1.90 per acre by the Binder-Thresher method—a saving of \$1.64 per acre.

The wheat farmer can equip today with the latest tractor and tillage and harvesting equipment at 28% less than he could for comparable machines ten years ago—equipment, too, that enables him to cut the costs of his operations by over 50%.

This is the contribution of the implement industry to the furtherance of agriculture and Massey-Harris takes pride in having played an important part in it.
