Sound Feed — Grows Better Pullets at Low Cost!  
Yes, it's true! More Master Growing Mash is used every year. Folks like it. It does a real job with very little outlay for feed.

Just put out 6 lbs. of Master Growing Mash every morning for each 100 birds. Give them good, sound scratch grain at night. That's all there is to it. Only costs a FEW CENTS for each 100 birds each day!

The whole thing looks like good business to us. Let's talk it over next time you're in town. We'll be able to supply you from fresh stock all SUMMER.

Mrs. Y. B. Tracey, Secretary,  
Richmond Hill Women's Institute,  
Box 52,  
Richmond Hill, Ont.

Dear Mrs. Tracey:

I have very much pleasure in enclosing our official receipt for the total of your campaign this year. I feel the response of your citizens was very encouraging and hope that Miss Alcombrack and all members of your branch of the Women's Institute feel equally encouraged.

In view of the many appeals already this spring, it is indeed gratifying to have so generous a response from the public in all centres where campaigns have so far been held.

On receipt of the canvassers' cards, acknowledgments and official receipts will go forward to your contributors.

Again with many thanks for the keen interest of your members and their very excellent co-operation, I remain,

Yours faithfully,  
E. A. BAKER,  
Managing Director.
