Take Advantage of a Good Start--- Grow Your Birds with Master Growing Mash

6 lbs. of Master Growing Mash and 13 lbs. of good, sound scratch grain will put a pullet into the nest—ready and able to lay for months on end.

There's no such thing as a short cut — no corners worth trimming when you are heading a flock for the laying pen. Don't let a good start on good feed fool you. It's only the short half of the battle for profit. Put Master Growing Mash to work to finish the job.

Just 6 lbs. of Master Growing Mash per 100 birds does the trick. Decide now on this time-proved pullet growing plan. We will supply Master Growing Mash from fresh stock all Summer.

AUDITORS REPORT SHOWS KING TOWNSHIP FINANCES TO BE A SOUND BASIS

The 1939 Auditor's report for the Township of King was received and discussed at a recent Special Meeting of the Township Council, held at the Township Office, Nobleton for that purpose. The Auditor, S. Stewart Joscelyn, Chartered Accountant, was in attendance and explained the salient features of the transactions of the Township for the year 1939. The Auditor's report shows the Township to be in a good financial position, with a surplus of \$48,886.79 at December 31st, 1939 as compared with a surplus of \$48,886.79 at December 31st, 1937. In addition to showing an increase in the surplus Bank Loans amounting to \$20,000.00 as at December 31st, 1937 have now been completely wiped out. This splendid showing has been made whilst taxation levies borne by the taxpayers have steadily decreased from \$107,440.36 in 1937 to \$96,328.23 in 1939, a reduction of \$11,112.13.

Another interesting fact disclosed by the Auditor's Report is in connection with tax arrears outstanding at December 31st, 1939. At that date the total tax arrears amounting to \$53,240.21 and of this amount \$27,246.69 or 51.18% represents unpaid tax arrears in the Holland Marsh Drainage Area alone, the balance of \$26,033.52 or 48.82% of the total amount unpaid by the ratepayers over the rest of the Township. The report is being printed, and will be available for distribution to all of the ratepayers that desire to become acquainted with the financial position of the Township.

ST. PAUL'S W.M.S.

The May meeting of the W.M.S. of St. Paul's was held at the home of Mrs. Herb Farr with the president, Mrs. J. A. McNeil, presiding. The meeting opened with Hymn 30 followed by the daily prayer and the Lord's Prayer in unison. The scripture reading was taken from the 72nd Psalm with hymn 380 after which the minutes and the business followed. The roll call was answered by the word need and Miss Jennie Egan sang a beautiful solo, Dear Lord and Master of Mankind. Mr. Bowman took the study from the study book on the medical work of India and gave a splendid talk showing the difference a few years can make. Mrs. T. Witherspoon and Mrs. H. Farr sang a lovely duet which was much enjoyed and Miss Grace Egan gave the gleaming from the Glad Tidings after which hymn 529 was sung and Mr. Bowman closed the meeting with prayer. A social hour was spent with lunch served by the hostess and committee. Section No. 3 will hold their annual meeting at Knox Presbyterian Church, Elder Mills June 12th at 10 o'clock. Would like to see a good attendance.

The Weed of the Week--Yellow Rocket

A weed may be observed in flower at this particular time of the year which resembles Wild Mustard and is often mistaken for it, says John D. MacLeod, Crops, Seeds and Weeds Branch, Ont. Dept. of Agriculture Toronto. This is Yellow Rocket, a perennial weed which appears in new parts of the Province each year and which is apparently on the increase. It is usually found in low, damp parts of the fields.

Upon close examination Yellow Rocket will be found to resemble Mustard only in the colour of the flower. It may be easily distinguished from this weed by its dark green, smooth and shiny leaves, somewhat oval in outline. It is usually in flower from May to July, and matures seed during July and August.

Hand pulling of scattered plants, drainage and thorough cultivation in preparation for a spring crop will keep it under control.

The seed of Yellow Rocket is a common impurity in clover and alfalfa seed and has been listed as a secondary noxious seed in the Canada Seeds Act. This weed should not be permitted to mature seed, particularly in the clover seed producing areas.

Learn to distinguish Yellow Rocket and eradicate it before it becomes established, advises Mr. MacLeod.

NEWTONBROOK

The service next Sunday morning, June 9th, at 11 a.m. will be in charge of the Woman's Missionary Society. Rev. Frank Russell, D.D., who has spent many years in India, will be the special speaker. The evening service at 7 o'clock D.S.T. will be under the direction of the Young People's Union. You are cordially invited to these services.

The Young People's Union of the United Church is invited to present their play "Look Who's Here", at two social church functions this week.

Mrs. H. W. Shaw, Miss Jean Shaw, Mrs. M. Campbell and Miss Bertha Smith attended Miss Boyle's Recital in Toronto last Friday evening.

Rev. A. H. and Mrs. Halbert are attending the annual Toronto Conference in Owen Sound this week.

Mrs. Harold Moore entertained the United Church choir recently at her home on Drewry Ave. During the evening Miss Helen Tranter and Mr. Jack Duggan, members of the choir, were presented with a lovely floor lamp, prior to their marriage, which takes place this month.

The Mission Band held its regular meeting last Saturday afternoon with forty-five present. Reta Hurd presided and Jean Shaw was secretary for the meeting. The Scripture Lesson and prayer was offered by Georgina Plain. A missionary story of "Waeke, an African boy and his White Teacher", was read by Mildred Baigent. Mrs. Pearson conducted the study period. A duet was sung by Kay Cook and Reta Hurd. A short concert followed the meeting with the following taking part: Elise Wells, piano solo; Jean Shaw, reading; Sylvia Taylor, vocal solo; Kay Cook, recitation; Reta Hurd, guitar selection; Donald Irish and Durcan Johnson, duet. The refreshments took the form of an India mela (meal) and seven girls dressed in saris to represent Indian maidens served the guests who all sat on the floor (Indian fashion). This will be the last meeting until autumn.

The North York Horticultural Society held its Spring Flower Show last Tuesday evening, June 4th with a large number of entries. These included the Darwin, Cottage and Parrot Tulips, Double and Single Daffodils, Narcissus, Single and Double Lilacs, a basket of Spring flowers, Pansies and Violas.

At the regular monthly meeting of the Horticultural Society next Tuesday evening, June 10, there will be a Flower Show which will include Iris, Columbine and Lillium. The Society is now making plans for their annual Basket Picnic which will be held at Midhurst in Springwater Park on July 10th.

The W.M.S. held a very successful Tulip Tea at the home of Mrs. W. T. Wells last Thursday afternoon. All the visitors visited the lovely gardens which looked very colorful with hundreds of tulip blooms.

Peel roads committee will ask the department of national defence to help maintain a section of road running south from Malton village three miles past the airport to the York boundary.

Summer Feeding Tips for Milking Herds

Ont. Feed Board tells how milk production can be kept at fairly high level.

The feeding and management of the milking herd during the summer is just as important as during the winter, points out the Ontario Feed Board of the Ont. Dept. of Agriculture. Supplies and kinds of feed are fairly constant during the winter but pasturage during the summer varies from immature grass to ripened hay.

No hard and fast rules can be given for summer feeding but by directing attention to certain details milk production can be kept at a fairly high level throughout the season.

1. Rotational grazing of pastures on well fertilized land lengthens the pasture season and ensures a greater quantity of young growing grass throughout the season.

2. Use of silage, emergency pasture crops, aftermath or green crops to supplement the regular pasture, particularly during the latter part of the summer.

3. Feeding meal mixtures according to yield of milk and kind of pasture. Young growing grass provides sufficient protein and a meal mixture made up of home grown grains will be satisfactory. When the grass matures the protein content of the meal mixture should be increased to approximately 16 per cent. Cows on good pasture should produce from 20 to 30 lbs. of milk per day without meal. Feed approximately one pound of meal for each three pounds of milk produced above this amount.

4. Provide water, salt, mineral mixture, shade and protection against flies.

There is a scarcity of cloth in Germany. Result—a standard dress for women and girls is being introduced. Of a simple design, to save cloth and sewing cotton, it will be only in black, red and brown. MEN are to lose most of their suit pockets... No pockets in vests, only one hip pocket in trousers and probably but one in the coat.
