## Province Organizes Soldiers of the Soil

Every boy and girl of school age in Ontario will be given an opportunity to play a part in Canada's war effort, Prime Minister M. F. Hepburn revealed this week at Queen's Park.

The Ontario Government's plans in this direction entail setting up a "Soldiers of the Soil" committee in each county, and once this preliminary organization is completed, mustering the full strength of this Province's young people at useful tasks in the furtherance of war activities.

First duty to be assigned to the "Soldiers of the Soil" will be to assist in the harvesting of Ontario's crops. Faced with an acute shortage of farm labour, the Ontario Government is enlisting the co-operation of local school boards in keeping primary schools closed until September 16th, and secondary schools until October 2nd.

"This will make available to the farmers of Ontario a vast reservoir of farm help," Mr. Hepburn said. "Not only will it permit farmers to keep the assistance of their own children during a period when they would normally be at school, but it will also make available for farm work a great number of city children. In each county a committee has been set up to include the agricultural representative, school inspector, superintendent of employment offices, warden and Reeves of the various townships for the purpose of registering both the farmers who require assistance, and the school-age children willing to fill in at this work.

"Young people who are trained this year will be just that—much better equipped to help out in 1941. This war is not going to be over in a day. We must look to the future and prepare ourselves for what is likely to develop in the immediate years to come."

Under the direction of the Ontario Government, a special committee is now engaged in working out details of a scheme to put across a gigantic drive for the sale of War Certificates. When the proposal was first made by Mr. Hepburn to the Ottawa Government, it was enthusiastically received, and the Province is now proceeding with a plan which will enlist the help of all the Secondary School girls.

They will be enrolled by the local Soldiers of the Soil Committees and school teachers will be asked to help by exercising supervision over the plan's operation.

"The Dominion Government considers the sale of War Savings Stamps and Certificates as one of the most important links in the whole chain of war undertakings," Mr. Hepburn said. Here is a tangible way in which every child can assist in the sale of stamps or by earning money for their purchase. It is a two fold program that cannot fail to be of immeasurable worth."

A Brazilian schoolboy was locked in the school cellar as punishment for some minor misdemeanor. After a few minutes he cried out that he was being attacked by a snake, but the teacher ignored his appeal. When finally the door was opened, the boy was found dead with a serpent coiled around his neck...The teacher committed suicide.

Little Renfrew was generally in trouble. Finding that words had but little effect upon his child, his father resorted to sterner measures.

A neighbor, watching him chastise the boy, noticed with admiration that Renfrew gave no outward indication of pain.

"Don't you ever cry when you're beaten, Renfrew?" he asked.

"What's the use?" retorted the small boy. "The old man's deaf!"
