Canada's Grand Old Man and North York's most beloved citizen, who quietly celebrated his 97th birthday last Sunday, January 19th. Looking to the future Sir William sees a new Canada being born. There will be such a magnificent development by reason of Canada's water power and attractions that the Dominion will be the Mecca of the world."

"War will unite the people of Canada. It will educate them against the follies of communism. It is already having a solidifying effect. The industrial growth of the Dominion already commenced will make it the most attractive spot on earth. We shall be overwhelmed with enterprises and become the manufacturing centre of the world. HOLSTEIN GAVE BIRTH TO TWINS TWO SUCCESSIVE YEARS

A registered Holstein cow, bred and raised by Roland G. Keffer of Roella Farm, Vaughan Township, has to her credit a record which we think is one for * Andy Clark's neighbourly news * broadcast. For two successive * years this cow has given birth * to twin heifer calves, all of * which are healthy and thriving. * Twin heifer calves were born * December 8th, 1939, and again * last Thursday, January 16, 1941. * Between these dates this cow * produced 17,235 pounds of milk * in 305 milking days. Her present * fortunate owner is Bob * Julian, Vellore. A few more * cows like this and there would * be no more worry about our * war-time dairy production.

The W.A. supper was held on Monday evening in the Sunday School and was well attended, the congregation meeting following. There was one special item of the evening that of presenting Mr. and Mrs. Harold Mortson with a lovely floor lamp as a remembrance from time to time as they use it in their new home in Richmond Hill. Apparently there was some one in the community last Sunday who didn't hear Mr. McCausland's address, for somehow the collection of the Y.P.U. was forgotten and an early search Monday morning for same, it could not be found.

Holstein Breeders Annual Meeting

The York County Holstein Club have completed their plans for holding their annual meeting in the Masonic Hall at Richmond Hill on Wednesday of next week, January 29th, with business session starting in the morning at 9.30 standard time when various reports of the year's activities will be presented.

The afternoon session will commence at 1 o'clock when the gathering will be addressed by N. J. Thomas of the Ontario Agricultural College who will give a talk on pasture problems. The committee felt that with the threatening labour shortage, dairymen will all want to get the maximum production from pastures to cut down their production costs.

We understand the Club has had the most successful year in its history, York County having one of the largest memberships in the Canadian Holstein Association.

Owing to the fact that quite a number of the members are on Daylight Saving Time, the meeting is called slightly earlier this year as a compromise for those operating on the two different times.
