**Pasture Big Factor
In Milk Production**

Is keystone in keeping up economical milk yield in summer months, says Ont. Dept. of Agriculture.

Pasture is the keystone of economical milk production and is the most important single factor in keeping up milk yield during the summer months, says the Ontario Dept. of Agriculture. No labor is required in harvesting and little loss of nutrients occurs through weathering, heating or moulding.

Any summer production program must be built around pasture and the problems arising out of pasture production. Pasture has a special interest to cheese patrons as the best quality cheese is made from summer milk. It should be remembered that there is a two cent bonus on cheese offered by the Ontario government.

Pasture yields can be increased by feeding high-yielding mixtures of grasses and legumes on good soil that has a high fertility level.

Wherever possible pasture land should be located near the barn. Walking cows long distances to and from the pasture field is not conducive to high milk yields. In addition to using much energy, it predisposes the cows to udder injury and sore and cracked feet.

Do not overgraze or undergraze pastures. Overgrazing reduces the field, increases injury from drought and encourages the growth of weeds. Some grasses and legumes are actually killed by very close grazing. To prevent this, adopt a system of rotational pasturing.

It pays to use Liberal Classified

**Must Build Up Cows
For War Time Effort**

Ont. Dept. of Agriculture outlines feeding mixtures for maximum production.

As more production is being demanded of the present Ontario cow population to supply war-time needs it is necessary that they be adequately prepared for the job. Many cows freshen with a reserve of energy so small that they are not capable of maximum production.

The Ontario Department of Agriculture recommends that where possible good quality roughage be fed to the freshening cows and that grain feeding be practised to build up their condition. Ten days or two weeks before freshening, feed a mixture of two parts of oats, two parts of bran and one part of linseed oil-meal. Continue this mixture after freshening until all inflammation and congestion have disappeared from the udder.

Do not feed cottonseed meal or rye just previous to or immediately after freshening as they are likely to cause constipation.

Home-grown grains are reasonably satisfactory for conditioning although some protein supplement is necessary if the hay is of poor quality or the cows are fed largely on straw.

The following grain mixtures are recommended to fit cows for lactation: (1) oats 200 pounds; barley 100 pounds; (2) oats 200 pounds; buckwheat 100 pounds; (3) oats 300 pounds, barley 100 pounds and wheat 100 pound; (4) oats 300 pounds, buckwheat 100 pounds and wheat 100 pounds.

Any of the above mixtures can be improved by adding a small amount of linseed oil-meal, bran or soybean meal. Feed the concentrate mixtures at the rate of two to six pounds per cow per day, depending on condition and the price and supply of the feed materials.

Minerals should be liberally fed previous to calving and throughout the lactation period. Many feeders mix two pounds of feeding bone meal and one pound of salt with each 100 pounds of concentrates. Commercial mineral mixtures should be fed as directed by the manufacturer.

Ontario Rural Hockey League Intermediate semi-finalists in the first season of competition with the group, Kleinburg's hockey team players and officials were banqueted at the Woodbridge home of Mr. and Mrs. Alvin Robb on Wednesday of last week. Nearly thirty persons sat down to the dinner provided jointly by Mr. Robb and his brother Mr. Leslie Robb. Players present were Bob Julian, Bill Breedon, Merwin Kaiser, Jeff Harper, Gar Wood, Lyness Glass, A. Meadows, Alex. Shaw, Al Boake, Bill Robb and Kelvin Shore; while team officials present included Ross Card and Bert Dooks. Three players, T. Kitchener, S. Breedon and Mel Hoover, regular members of the team, were unable to be present for the dinner.

Following the dinner cards were played and several dances were performed by Gwen Robb, daughter of the hosts. A pleasing feature was the presentation of a handsome bouquet of carnations to Mrs. Robb, Kelvin Shore representing the team in making the presentation.

In a short business session, reviewing their successful season, the club members discussed staging a supper and dance in a local hall and outfitting team members with wind-breakers.

**41 Cars Feed
From the West
For York County**

We have just been advised by the Agricultural Representative, W. M. Cockburn, that a total of 41 cars of feed grain have been brought into the County under the Freight-free Policy of the Dominion and Provincial Departments of Agriculture. This represents a total of 405 orders from various farmers in the County. The purchase of this grain was limited to bonafide farmers who were engaged in agriculture as a means of livelihood and the policy was brought into effect to assist those who through unfavorable weather conditions last year, were disappointed in securing their usual supply of feed grain.

Mr. Cockburn would like to issue a word of warning to those farmers securing this grain that this grain is to be used for feed only and under no circumstances should it be used for seed, owing to the fact that in many cases there is quite a mixture of varieties which might or might not be suitable to our conditions and such mixtures cannot be expected to ripen evenly. Some of the varieties of barley included in Western shipments, are entirely unsuited for Ontario conditions, being weak in the straw and not as heavy yielding as the varieties recommended for Ontario.

Recently the Representative reports that he was asked to pass judgment on a sample of clover seed which a farmer was contemplating purchasing from his neighbor. A casual glance would lead one to believe that this was a fairly good sample of seed but an analysis indicated that there was a total of nearly 1600 noxious weed seeds per oz., including nearly 1000 buckhorn or rib grass seeds and nearly 600 wild carrot seeds. The total weed seed content was over 3000 per oz. Farmers are advised to purchase clover and grass seeds especially, only on a Government grade, even though purchasing from your best neighbor. Weed seeds are very difficult to identify and current prices are altogether too high for purchasing anything except No. 1 seed. One sample of clover seed submitted to one of the cleaning plants contained over 6000 weed seeds per oz. and when the operator of the plant advised the farmer that he could not clean this seed up for him to meet government requirements, the grower took the seed home and it is to be hoped that some unsuspecting neighbor did not purchase this seed as a so-called bargain.

**Canadian Patent
"Clicking"**

Amazing Canadian product that does NOT claim to work three or four different ways.

From the laboratories of vigorous, forward moving Canada—comes this new relief for nasal disorders. Thrusting aside all old, outworn ideas, researchers in Canada made a thorough study of the entire question of head colds, sinusitis and hay fever, affecting men and women of every age and circumstance, living and working under every kind of modern condition. As a result of their extensive research, they developed Canadian Nasal Spray, a totally different and uniquely efficient remedy that works just ONE way—helps relieve head colds, sinus trouble and hay fever promptly. Canadian Nasal Spray refills cost only 35c. and can be used in your own atomizer — or your druggist can supply you with the complete package, including Canadian Nasal Spray and a genuine DeVilbiss atomizer — both for one dollar. This new remedy is now obtainable in Canadian drug stores from the Maritimes to British Columbia.

A. E. Innes who has been agricultural representative in Ontario county for the past five years has been appointed representative in Peel county succeeding C. D. Graham. Mr. Graham has been appointed extension manager of the Holstein-Friesian Association with headquarters at Brantford.

First man: You say you never quarrel with your wife?
Second man: Never; she goes her way and I go hers."

"So Poppy has gone back to live with her husband?"
"Yes; she couldn't bear to hear of him having such a good time."

OBJTURY

MRS. D. MCCARTHY
Mrs. Daniel McCarthy, mother of John, of Maple, and Frank and James of King, died Monday, April 7th at the Toronto residence of her daughter, Mrs. Fred Hambly. Mrs. McCarthy, who was in her 70th year, was the former Emily O'Leary. In addition to her children she is also survived by her husband. Funeral services on Thursday, April 10th were held in St. John's Church, Newmarket with interment in the church cemetery.

T. H. CARBERRY
Resident of Aurora for the past 40 years, Thomas Henry Carberry, who died at the residence of his daughter in Toronto, was buried on Sunday afternoon, April 13th, following service at his Aurora residence.

Rev. T. R. White conducted both services. Interment was made in Newmarket Cemetery. Born in Peel county 68 years ago, Mr. Carberry had farmed in Caledon East for a number of years, later moving to Aurora where he was a traveller for a drug firm and later a mail carrier. He was a member of the Orange Order and the United Church.

MARTIN W. SHAW
Martin W. Shaw, 75 year old Kleinburg resident, died there on Wednesday, April 9th. Mr. Shaw was a native of Etobicoke township. A descendant of early York settlers, he was a son of the late Andrew Shaw and Frances Warden. Early years of his life were spent farming in Etobicoke and North York townships and he moved to Kleinburg about 30 years ago. Surviving him are his widow, the former Annie Churchill, two sons, James of Kleinburg and Andrew of Cookstown; five daughters, Mrs. E. Shaw, Kleinburg; Mrs. Norman Howard, Toronto; Mrs. Walter Lloyd, Aurora; Miss Merle Shaw, Kleinburg; and Miss Masel Shaw, Kleinburg; and one brother, Andrew of Thistleton.

Funeral services from his late residence, conducted by the Rev. Mr. Bailey of Kleinburg United Church, were held on Friday, April 11 with interment in Pine Ridge cemetery. Pallbearers, all relatives, were Geo. W. Shaw, Geo. W. Bagg, Gordon Shaw, F. A. Bagg, Bruce Shaw and Robt. Stinson.

MRS. R. PEELAR
A well known and popular resident of the area, Mrs. Russell Peelar, 27, of Emery, died Friday, April 11th in a Toronto hospital. The former Jean McKay, Mrs. Peelar was married about 3½ years ago. She was a native of the Humber Summit area and was a daughter of Mr. and Mrs. Eber McKay. Her death followed a long period of failing health, and came three days after her removal to hospital.

Her activities in the community gave her a wide circle of friends. They included affiliation with the Burwick Women's Institute, the Sunday School at Humber Summit and Emery and the Humber Summit Community Club. At the time of her death she was secretary of Vaughan Township Sunday School Association. Recently she was appointed Sunday School teacher at Emery.

Surviving are her husband, her parents, one brother Ken, Humber Summit, and two sisters, Mrs. Elwood Love, Toronto, and Eleanor of Humber Summit. Funeral services were conducted Monday afternoon by the Rev. C. W. Barrett of Woodbridge United Church and Ernest Root, of Humber Summit Congregational Church. Pallbearers were Bert Peelar, Roy Peelar, Art Peelar, Bert McKay, Ted Payne and Wilbert Harrison. Interment was in Hillcrest Cemetery, Woodbridge.

WEDDINGS

McNAIR-WALKER
At Gravenhurst recently, Margaret Harriet Walker, daughter of Mr. and Mrs. Ross Walker of King, became the bride of Alvin Charles McNair, son of Mr. and Mrs. S. McNair of Orillia. Rev. E. Pinnington officiated.

GOULD-HILL
Miss Stella C. Hill, of Nobleton, daughter of Mrs. Hill and the late Charles Hill, became the bride of Mervyn A. Gould of Kleinburg, son of John Gould and the late Mrs. Gould, in a ceremony performed by the Rev. Mr. Bailey at Kleinburg United Church on April 9th.

Following a wedding trip to Cochrane the couple will reside in Pickering.

DARKER-SAINSBURY
A wedding was solemnized in St. John's Anglican Church, Weston, on Saturday evening, April 12th when Stella Mary Sainsbury, daughter of Mr. and Mrs. Fred Sainsbury of Weston became the bride of George Darker, son of Mr. and Mrs. Ralph Darker of Woodbridge. The Rev. W. E. Mackey officiated; wedding music was played by W. Grieves, and a solo was sung by J. W. Weir.

The bride, given in marriage by her father, was attended by Miss Annie Hunter. Best man was William Darker, brother of the groom, and ushers were Gilbert Harrison and Albert Rutherford. Following a reception at the home of the bride's parents, 32 Cross St., Weston, the couple left for a wedding trip to Quebec. They will reside in Woodbridge.

**\$72,300 ESTATE LEFT BY
FREDERICK BANTING**

An estate valued at \$72,300 was left by Major Sir Frederick G. Banting, co-discoverer of insulin, and a victim of a mid-February air crash. Life insurance comprised \$46,000. His residence in Toronto, a fishing lodge on Georgian Bay, stocks, bonds and personal effects make up the balance.

THE PRIME MINISTER OF CANADA.

TRIBUTE TO MARY

Mary is the "voice with a smile". Mary is the efficient person generally known as a telephone operator. As an operator she knows much about telephone equipment—how it should be used and handled.

But Mary is best known for her personality—for her coolness in emergencies—for the grand things she has done time and again, ignoring her own danger, intent on one thing only—to keep the standard of telephone service high.

We pay respectful tribute to Mary and all the girls who work with her. Her devotion to her job sets a standard of public service. Tactful, patient and courteous, Mary is the medium through which this Company and its public are always in touch. She plays a vital part in Canada's war effort.
