Now that it is going to be hard for a girl to buy a girdle, many a woman will have to figure how to retain her figure. When the hay burner comes in general use, we wonder if they will have courtesy cards entitling Old Dobbin to a peck of oats?

CANADA'S REFUGEE INDUSTRY

More than 5,000 European fugitives, and millions of fugitive dollars rescued from wrecked enterprises abroad, are finding a haven in Canada in the greatest industrial immigration the Dominion has ever known. Already an estimated \$20,000,000 has been put to work in a wide assortment of industries. The fine Bohemian glassware that was the pride of Czechoslovak artistry and was made only in that country is now being manufactured in Ottawa under supervision of the Bohemian experts who made it abroad. A group from Germany who rescued \$700,000 is establishing Manitoba's first beet sugar plant. A German manufacturer of period furniture now has a Montreal factory. The man who headed a State silk monopoly in Hungary is manufacturing fine silks in Ontario. The influx is helping Canada's war efforts against Germany; a munitions plant at Sorel, Quebec, where \$3,000,000 has already been spent, is virtually the transfer of part of the great Skoda gun plant from Czechoslovakia; the Bata Shoe Company at Frankfort, Ontario, *

turning out precious gauges used in armament work.

It is estimated that at least \$500,000,000 of refugee money is seeking employment in Canada. Many of these refugees would have preferred the United States, but were barred by rigid immigration restrictions. Even if they had been able themselves to enter, it would have been next to impossible to take with them the specialized workers as important to their product as is their capital. Canada is favoured because refugees see there the stability of British institutions and justice, and the protective proximity of Canada's neighbour—their biggest remaining market.

There has been nothing like this industrial immigration since France drove out the Huguenots in the 17th century and laid the foundations of British supremacy in textiles and the great watch and clock industry of Switzerland.—Frederick T. Birchall in N.Y. Times.

1941 EXCELLENT YEAR FOR GREAT-WEST LIFE

Elsewhere in this issue appears an advertisement showing some of the preliminary figures from the 50th annual statement of the Great-West Life Assurance Company, published by N. H. Brown, a representative of the Company in Richmond Hill.

Passing the half-century mark in business, the Company has paid to policyholders and beneficiaries a total of more than a quarter-billion dollars. Payments to policyholders and beneficiaries during 1941 were \$15,884,814; of this amount \$11,318,490 went to living policyholders.

Business in force climbed to a new high total of \$660,457,610, increasing over \$20,000,000 with new business placed in the year amounting to \$62,766,744, an increase of \$9,364,879. Assets now total \$180,608,957, up \$7,096,628.

A SIMPLE CASE

That your government needs your money does not need to be argued here. War costs rise every day. So does the danger of losing the war. It is quite plainly a case of pay or be defeated—as simple as that.—London Evening Free Press.

SOMETHING TO BE CHEERFUL ABOUT

It is a gratifying indication that Canadians generally, due to the widespread increase in employment, and with the industrial payroll at a new high, find themselves able to lay aside a portion of their earnings for future use. Very wisely they are not spending all they make, and this saving is an essential development in the country's war economy. It requires no gift of prophecy to predict that before this world-embracing war is ended the wisdom will be amply demonstrated. Saving now guarantees future security.—Halifax Herald.

LET'S KEEP OUR CANADA *a happy land for them*

PINKY-WHITE DIMPLES; a button of a nose; wee, slender fingers clutching at your coverlet—what kind of a world is this to which you will awake?

Your life, we hope, will be rich in love and laughter. God forbid that your Canada should ever come under the heel of a ruthless barbarism, where babies are born to be the future shock troops, or the mothers of a brutal, military race.

We promise that you shall inherit a Canada blessed with the liberty our fathers bequeathed to us. You shall be free as we are free.

So we gladly lend our money to our country in this crisis. We will buy Victory Bonds to the very limit. We must and we will make sure that the threat of a brutal way of life is banished forever.

HOW TO BUY—Give your order to the Victory Loan salesman who calls on you. Or place it in the hands of any branch of any bank, or give it to any trust company. Or send it to your local Victory Loan Headquarters. Or you can authorize your employer to start a regular payroll savings plan for you. Bonds may be bought in denominations of \$50, \$100, \$500, \$1,000 and larger. Salesman, bank, trust company or your local Victory Loan Headquarters will be glad to give you every assistance in making out your order form.
